Spinach was introduced into England early in the reign of Queen Elizabeth, as also was the cucumber; while celery was introduced to English tables by a French prisoner in 701.

Sermons on Farms

"See that the vegetable matter is thoroughly incorporated with the soil," says the United States department of agriculture's office of farmers' co-operative demonstration work, to those who have used green cover crops and wish to handle their land for the succeeding crop in the most desirable manner. If the farmer is to expect good results from his cover crop he must not act in a hurry and neglect this important part of the work. The disc and smoothing harrow should be used until the soil is well pulverized and the vegetable matter mixed throughout the soil. The state at which a cover crop should be turned under depends upon the soil, weather conditions and the crop that is to follow. Where corn is to be planted on crimson clover land, the clover should be turned under just when the bloom begins to appear. It is sometimes advisable to turn under earlier on account of the soil being in good condition, whereas if put off for a few days or a week, dry weather might prevent the work being done as it should be. When the cover crop consists of rye or other small grain, it should be turned under when about knee high. If the condition of the soil prevents plowing at this time, double disc the crop a couple of times and this will prevent the further drying out of the soil. Never turn the clover or other crop under without first thoroughly cutting up with a disc harrow, as the material plowed under in a layer seriously interferes with the capillary action of the moisture in the soil.

SCHMIDT TO MAKE PROHIBITION TALKS
J. Raymond Schmidt, state chairman of the prohibition party, will deliver an address at the Central Christian church April 15 at 7:30 o'clock. Mr. Schmidt's subject will be a "Challenge to American Patriotism." Music will be furnished by a quartet. Mr. Schmidt is well-known among prohibitionists of Wayne county, having delivered several talks during the county convention which was held in this city during January.

It is said that one partially deaf can hear best when riding in a train. The rumbling on the heavy wheels on the track causes the eardrum to vibrate, and in this way increases the hearing capacity of the defective ear.

BRONCHIAL COUGHS
When the bronchial tubes are affected with that weakening, tickling cough, they need immediate and sensible treatment. The breath seems shorter because of mucous obstructions; usually fever is present and your head aches with every cough. Your chest aches and the inflammation often spreads to the lungs.

The food-tonic that has proven its worth for forty years—is Scott's Emulsion. It drives out the cold, which is the root of the trouble, and checks the cough by aiding the healing process of the enfeebled membranes. If you are troubled with bronchitis or know an afflicted friend, always remember that Scott's Emulsion builds strength while relieving the trouble. 14-61 Scott & Bowne, Bloomfield, N. J.

GIRLS SHOW SEWING AT COUNTY DISPLAY

Exhibits Show Unusual Skill in Darning Torn Pieces of Cloth.

Interest in the county contests tomorrow at the high school has caused a change in plans. In order to accommodate the through expected County Superintendent Williams has secured the chapel room instead of room 20.
The sewing exhibit of district schools, seventh and eighth grades and township high schools reached here from the various schools today. The exhibit includes sewing bags, dust caps, towels, aprons, examples of patching and darning and many other small pieces of work. One girl made a kimono and another specialized on darning. Darned pieces of cloth are shown in which it is almost impossible to find the mended place.
There will be about seventy persons here tomorrow ready to enter the contests. These are winners of first and second places in the township contests. Only the firsts will be eligible to enter the county contest unless they are unable to attend in which case the seconds will be used. The geography contest will be held in County Superintendent William's room in the court house in the morning. In the afternoon there will be a concert by members of the high school orchestra, preceding the arithmetic and reading contests.

SAYS AMERICANS KILLED IN MEXICO

WASHINGTON, April 2.—The government machinery today was started to verify an unofficial report sent to Washington from El Paso that two Americans were killed by Carranza soldiers near Mexico City. The latest victims of the war are said to be Baron Smith of Houston, Texas, and Roscoe Billings. The unofficial report from the border says they were killed a few miles north of Mexico City for their cattle two months ago.

STOP CATARRH! OPEN NOSTRILS AND HEAD
Says Cream Applied in Nostrils Relieves Head-Colds at Once.
If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.
Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffing, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.
