SENATIONAL JUMP ON WHEAT MARKET

CHICAGO, May 11.—There were sensational advances on the wheat market on an attempt by shorts to get under cover, coupled with the smaller offerings in the pit and the tightness with which these offerings were held. Cinch bugs were reported as damaging the plants in the southwest, and as some of these reports were accompanied with buying there was an advance of 6 1/2c in wheat and 1 1/2@1 3/4c in oats. Cash sales were 5,000 bushels in wheat, and 140,000 bushels of corn, and 140,000 bushels of oats. Hog products were up sharply in price with grain, and on shorts covering.

WORKMEN'S ACT

(Continued From Page One.)

teenth day, according to the terms of the law, this being construed to mean that an employee out of work twenty days because of an accident shall receive six days' compensation.

The speaker said the law covers every employer and every employee automatically September 1, unless its provisions are waived to the industrial board by thirty days' notice, except those in agricultural pursuits, casual employment and domestic service. This means laborers, clerks, bankers, doctors, lawyers and every other class of employment except the three mentioned.

The workmen's compensation law was brought about by the possibility of a workman's dependents, his family, might become charges on society when he is injured," said Mr. Smith. "In order to prevent them from demanding charity of the provider, a means has been sought for years to compensate the employee without injustice to the employer. The law first found reality in Germany twenty-five years ago, and it was adopted in the United States in 1911. Indiana was the twenty-fourth state to pass such a law.

"If I was asked whether the law in light of relations of the employer and employee, were entirely just to the compensation. It has been suggested employer, I should answer in the negative.

"The early laws framed to compensate the employee were worded to include injuries growing out of course of employment, but this was found too broad and the Indiana law says compensation shall be given for injuries growing out of and in the course of employment. Thus the injuries must have some logical and reasonable connection with the employment.

"The classes of injury will cause many unforeseen differences in the construction of some passages. I have a list of interesting questions which have arisen in different parts of the country where such laws operate.

"The question has arisen among employers as to the source of reimburse-

KEEPS COSTS DOWN

Just \$2.97 is what it cost Allen Wash, a rural mail carrier of Sinal, Kansas, during March to cover his 27-mile route. Mr. Wash made 24 trips on his two-wheeler during the month over the roughest kind of roads. "But I always get there and back," he declares. "The motorcycle is the only way," he added.

ALLOWS CLAIM ON UNDERHILL
A jury yesterday allowed Mrs. Edna Ralston \$8.81 in a suit on appeal from justice of peace court against A. C. Underhill. In making this finding, the jury found that a receipt Underhill said he received from Mrs. Ralston for services was, in their belief, spurious.

The amount involved was the smallest of any suit brought in circuit court for several years, although smaller judgments have been rendered. The case has been through two lower courts.
