WHEAT PRICE HIGHER ON CHICAGO MARKET

CHICAGO, June 23.—Higher prices ruled for all grains today, and this was largely on coverings by shorts, who bought right up to the close of the session. The advances were 1 1/2¢ for wheat, 1 1/2¢ for corn and 1/2¢ for oats. Cash transactions were 150,000 bushels of wheat, 175,000 corn and 295,000 oats. W.A.F. EKENGREN.

His Excellency W. A. F. Ekengren, the Swedish minister to the United States, has been conferring with cabinet officers as a result of the renewed destruction of neutral vessels in the North Sea. Sweden Norway and Denmark formed a defensive league of neutrals last fall, and are citing the submarine attacks on American vessels as a reason why the United States should join them. 20,000 ARE STARVING FIRE DESTROYS BIG ARSENAL ON BRITISH ISLE

WASHINGTON, June 23.—That the Mexican population of 20,000 at Guerrero practically is starving was reported to the American Red Cross today with an appeal for relief. Brigadier General Devol, general manager of the Red Cross, telegraphed from Fort Sam Houston that the relief funds for Mexico would be exhausted after he has purchased one more car load of corn. He is arranging to supply Saltillo with corn and beans through Eagle Pass and Monclova and is endeavoring to send relief to Sabinas which is in dire distress.

YAQUI TRIBE FIGHTS TROOP TRAIN GUARDS

WASHINGTON, June 23.—Twenty-four Mexican soldiers were killed in a battle with Yaqui Indians last Sunday, Admiral Howard today reported to the navy department from the cruiser Colorado. The Indians attacked a work train on the railroad in the Yaqui valley. The train was guarded by an escort of eighty soldiers. Eight of the Mexicans were wounded and twenty-two missing.

A military train was sent from Emplane with two hundred Mexican soldiers to bring a construction party numbering two Americans and sixteen Mexicans, who were repairing a bridge over the Yaqui river about seventy-five miles from Guaymas. Admiral Howard made no mention of any present plan to land American marines to go to their relief.

With a smiling glance at his mother and sister, Thaw began his testimony with the usual answers. He gave his name as Harry Kendall Thaw, his age as 44. His story was the same substantially as he related in the conspiracy trial last March.

STOPS BERLIN PAPER

COPENHAGEN, June 23.—A private dispatch from Berlin says the suppression of the Tage Zeitung after publishing an article criticizing the attitude of the German government toward the United States was ordered personally by Imperial Chancellor Von Bethmann Holweg. It also hints at a scheme to overthrow the present leaders and replace them by Bismarckians. This scheme is said to have originated with the naval party.

LABOR UNIONS CEASE WAR ON GREAT BRITAIN

LONDON, June 23.—Labor and the government have buried the hatchet and will hereafter work in harmony to furnish all the munitions of war necessary to carry on the conflict with Germany. Formal announcement that a complete agreement had been reached by the government and labor unions was made in the house of commons this afternoon by minister of munitions Lloyd George.

The agreement constitutes another triumph for the Welsh leaders and the announcement that it had been reached softened the blow of the loss of Lemberg. The loss in Galicia is attributed to lack of ammunition. With the supply that England will be able to turn out it is believed future reverses can be averted. The army which the British army does not need will be turned over to Russia and France. The agreement with the trade unions provide for the opening of munition works bureaus at all industrial centers. The only acute shortage at present said Lloyd George is that of skilled engineers and ship builders.

FRENCH HOLD MEN IN RESERVE RANKS FOR FUTURE WORK

Louis Schwartzentruber, 125 South Third street, a German-French American, disagrees with the statement contained in the letter received by Adolph Blickwedel from a relative in Germany published yesterday in The Palladium to the effect that France was dominated by England and was decoyed into the war by the latter country.

Mr. Schwartzentruber was born in Alsace-Lorraine and came of this country to avoid the war which he felt was sure to occur. He claims that the French have maintained a military policy, only because Germany's attitude demanded it. France has expected the war for thirty-five years he says.

Recently Mr. Schwartzentruber received a letter from his brother who is serving with the French army. The brother has not been sent to the front and says that France has many soldiers in reserve for future battles against the Germans.

He writes that the morale of the troops is excellent and that all the soldiers have determined to die rather than serve under German domination. They are fighting for the liberation of France and Belgium, he says in his letter.

ADMITS U. S. RIGHTS

LONDON, June 23.—The Exchange Telegraph correspondent at Copenhagen in a dispatch today quotes the German newspaper Neu Korrrespondenz as admitting that the United States has the right to sell ammunition to the allies. This is the first admission of the kind that has come from any German source.

The paper declares, however, that Germany is justified in its anger because America wishes a change in the submarine policy but add that it is hoped that no conflict with the United States will result.

Acting Secretary of State Lansing

This is the most recent photograph of Robert Lansing, now acting Secretary of State and perhaps to be a permanent holder of that high office. The insert shows John W. Foster, Mr. Lansing's father-in-law, who was Secretary of State under Benjamin Harrison and was Minister to Mexico, China and Spain. The younger man owes much of his diplomatic lore to his association with Mr. Foster.
