PAINFULL GRAVEY.

Badly burned in the duel scene in "The Diamond From the Sky," William Russell, who is portraying the part of "Blair Stanley" in this monster continued photoplay, insisted that he be permitted to continue with the scene. Russell's nerve was all that enabled him to continue, the torture from the burns, which extended from

the wrist to the elbow of the left arm being so painful that he all but collapsed several times.

During the filming of one of the scenes, Russell and Irving Cummings as "Arthur Stanley," fight a revolver duel alongside an open grave, standing little more than a foot apart. When Cummings fired, the flash from his powder fired Russell's shirt sleeve. Within a few seconds it was ablaze.

Rather than spoil the scene, however, Russell made no effort to put the blaze out until, as the script commanded, he had fallen into an open grave. Then he hastily tore off the shirt.

B. F. Curry, Fred Clark and son, in returning to their homes in Zanesville from Detroit, in which city Mr. Clark purchased a Jackson touring car, spent Saturday afternoon and Sunday with Mr. and Mrs. B. F. Miller.

Parties broke into the stable of W. B. Wilson Saturday night, who is in California, and made an effort to make way with his automobile, but fortunately Mr. Wilson had disconnected the machine and the parties could do nothing with it.

The debate, "Resolved, That it is Better to Live With a Cleanly High Tempered Woman Than With a Dirty Good Natured Woman," given Friday evening, in the town hall, under the auspices of the Loyal Women's Bible class of the Christian Sunday school, attracted a large crowd. The debate was conducted somewhat on the order of a spelling match, each one in turn expressing his or her views on the momentous question, the responses bringing out much of enlightenment on both sides of the question, as well as producing a sale of merit. The decision was made in favor of the "Dirty Good Natured Woman."

JAP OFFICERS DEAD.

TOKIO, June 28.—Rather than suffer what they considered the dishonor of being made prisoners of war, Major Nakajima and Captain Hashimoto, Japanese officers fighting with the Russian army at Lemberg, committed hari kari when the Galician capital fell, according to advices received from Petrograd.

Food Values

depend upon what the food supplies to the body.

Body and brain—particularly the latter—need certain elements often lacking in one's every-day diet.

Among these elements is the brain and nerve building phosphate of potash, not the kind that you buy at the drug store, but the true organic form as grown in the field grains, wheat and barley.

Grape-Nuts

FOOD

is scientifically processed to supply all the nutrition of the grain, combining delicious flavor and those important mineral values which are absolutely necessary for the up-building of well-balanced physical and mental strength.

RURAL ROUTE BOXES NEED REPAIRS BADLY

Seeking rural mail delivery efficiency, Postmaster Beck said today he would order box repairs soon, and unless rural patrons respond, deliveries which cause carriers inconvenience will be discontinued.

In reply to an inquiry he sent to the

postmaster at Windsor, Canada, Mr. Beck received a letter today from the deputy postmaster general of Canada at Ottawa, regarding the Canadian rural box system.

The boxes are uniform, on uniform posts and with the same kind of cranes with which they are pulled to the carrier's automobile or wagon. These outfits are sold by the post-office department at cost, and patrons are required to use them.

Mr. Beck will write to the manufac-

turing companies and ascertain the cost of installing some of these boxes in Richmond's district. As soon as a reply is received Mr. Beck will order the poorly kept boxes here repaired and give patrons opportunity to install the Canadian box system.

The heaviest rains occur in equatorial regions, and the smallest quantities fall in the desert districts of Asia and Africa.
