CHAPLIN COMES TO THE ARCADE

Charles Chaplin in the 2-reel Essanay Comedy "Shanghaied," at Arcade today and tomorrow.

PALACE.

Owing to the tremendous hit that "The Juggernaut" made with Richmond photo fans, the management of the Palace will offer this popular subject again today. The story of this picture is interesting and would

prove a feature in itself. But the Vitagraph company, not satisfied with that, added another feature to it, that of the train wreck, an engine and three coaches plunging over a high bridge. The film offers an all-star cast including Anita Stewart and Earl Williams. The Italian orchestra furnished the music, both afternoon and evening. Tomorrow will be shown John Emerson in "The Failure."

LYRIC.

"The Ghost Wagon"—Many of the wild desolate scenes of Indian massacres in the West retain to this day their superstitious traditions of apparitions and other supernatural phenomena. Old plainsmen vouch for these "visions" and "ghosts," and one of the traditions, that of "the ghost wagon" which rolls across the sky whenever a death occurs in a certain Western State, has been incorporated into a photoplay by the Universal.

The story is an intensely interesting one of days that are gone forever and was written by the versatile Boss Meredith and produced by Joseph Franz. Edythe Sterling and Sherman Bainbridge enact the leading roles.

AUTOMOBILE CRASHES WITH MILLER'S RIG

EATON, O., Oct. 7.—Although his machine left the road twice and each time was upset, W. J. Barnhiser, carrier on Route 4, miraculously escaped serious injury. The accidents occurred Wednesday morning while Barnhiser was making his rounds. While at a point near Sugar Valley the steering gear on the machine refused to work and he lost control of the auto and went down an embankment. The second accident resulted from the same cause shortly afterward while Barnhiser was being towed to Eaton by another automobile.

DESCRIBES SCENES AT NEW ORLEANS

J. A. Spekenhier, cashier of the First State Bank of Bogalusa, La., former treasurer of Wayne county, and Richmond postmaster, in a letter to friends here describes the ravages of the West Indian hurricane which swept over New Orleans recently.

They had gone to New Orleans and were on Lake Pontchartrain when he noticed the storm signals. The lake was calm as a mill pond. They returned on the last train that crossed the trestle. He said gusts of wind on the weather instruments showed a velocity of 120 miles an hour.

"The Beauty Seeker."

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels in a healthy condition. Without these requisite, poisonous wastes are produced, remain in the system, polluting the blood and lodging in various organs, tissues, joints, glands, becoming, probably, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face."

"But to get liver and bowels working after-effects, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in a small tablet. This tablet, which is due largely to an ingredient derived from the humble May apple, or its root, which may be called vegetable calomel, because of its action, is a most valuable article of course it is not to be classed with the real calomel or mercurial origin. There is no bit-forming constituent in it, and it is not liable to cause irritation and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to restore the vitality of the system, the related intestinal wall. Santonin tablets, which may be procured from any druggist—a dime's worth will do—will prove a revelation, any constipated liver-troubled person."

Is self-cleaning, because there are no holes or narrow openings to become clogged. Crackers run through the machine cleans it thoroughly.

The hopper is so large that whatever is being chopped readily finds its way to the seven cutting teeth inside the barrel. No strength wasted in squeezing or mashing. It cuts.

Whatever is being chopped lubricates where friction occurs. Self-sharpening. Parts so constructed that any wear tends to keep them always keen.

Three cutters for chopping fine, coarse or medium and nut butter grinder. All parts tinned, guaranteed and interchangeable.

A life-long investment

Year 1892: Their new ideal heating investment

Year 1915: Their life-long ideal heating investment

Twenty-four years ago we began to make and sell these now-world-famous heating outfits. Every outfit that we sold then and since is giving ideal heating results, for even conflagrations and quakes do not destroy them. If buildings are remodeled or wrecked, the outfits are used again, as they are made in units and can be altered to fit. We advertised them as *life-long investments*, and they are *proving so* in more than a million buildings at home and abroad.

IDEAL Boilers and AMERICAN Radiators are about the only articles entering into the cost again and again through fuel economy, less care-taking, absence of repairs, and because their cleanliness saves soiling and wearing of furniture and decorations.

Property thus outfitted sells quicker at the higher price, or 10% to 15% increased rental; or banker will extend larger loan. Why do you longer run the health risk, the fire danger, the ash and coal-gas spouting annoyances, as well as the expenses and short-life of old-fashioned heating? Twenty-four years of unequalled heating service, and many refinements, as developed in our factories and laboratories in United States, Canada and Europe, and the great volume of our business, enable us to offer IDEAL Boilers and AMERICAN Radiators at a price no greater than asked for inferior devices. *Accept no substitute.*

Made in sizes to fit old or new stores, offices, flats, schools, churches, as well as houses and cottages in country or city. No relighting the fire all season. Same water is used for years. Phone your nearest dealer today and get his estimate. *Prices now most attractive* and at this season you get the services of the most skilled fitters. Ask for pamphlet (free). "Ideal Heating Investments." Puts you under no obligation to buy.

Another great labor-saver—Stationary Vacuum Cleaner, at \$150. You can wonderfully reduce house-labor and highly increase home health and cleanliness by use of ARCO WAND Vacuum Cleaner—sites in basement; works through iron pipe running to all floors; carries all dirt, dust, insects and their eggs, etc., to sealed bucket in machine; cleans carpets, furnishings, walls, ceilings, clothing. Ask also for new "ARCO WAND" catalog (free). Inquiry puts you under no obligation to buy.

Sold by all dealers. No exclusive agents.

AMERICAN RADIATOR COMPANY

Public Showrooms at Chicago, New York, Boston, Worcester, Providence, Philadelphia, Washington, Baltimore, Rochester, Buffalo, Pittsburgh, Cleveland, Cincinnati, Detroit, Atlanta, Birmingham, New Orleans, Indianapolis, Milwaukee, Des Moines, Omaha, Minneapolis, St. Paul, St. Louis, Kansas City, Denver, Seattle, Portland, Spokane, Los Angeles, San Francisco, Brantford (Ont.), London, Paris, Brussels, Berlin, Cologne, Milan, Vienna.

IDEAL Boilers have large flues in which the air and coal gases thoroughly mix so in a natural gas or oil manner that the heat is more easily and quickly distributed, extracting every bit of the heat from the fire. Easier to run than a stove.
