"All work and no play will make Jack a dull boy," is the adage which does not have to be proved anymore. Everybody admits it from the school boy to the heads of corporations employing thousands of men.

The Pennsylvania railroad is one industry that encourages sports among its employees and everything possible is done to help the men get out in the open and exercise.

This is particularly true of the office employees and officers are doing everything possible to promote clean and manly sports among their men.

The road has issued a circular declaring its interests in athletics, calling attention to the baseball league which has recently closed a successful season and continuing says if the league has proven successful in the East there is no reason why a league cannot be formed on the western division.

Whether a baseball league is formed here or not, the boys at the depot here are determined to enter the Saturday Afternoon League and they are already discussing their chances of winning the championship.

## TREASURER SEEKS TO GET IN BACK TAXES

All the township trustees favor the plan proposed by County Treasurer Chamness for the collection of delinquent taxes. At Wednesday's meeting the county treasurer outlined his plan before the trustees and the hearing endorsed it, since the township will receive the benefit of the additional taxes received.

No definite arrangements have been made by the treasurer regarding the collections, except that special deputies will be appointed, and in case property owners refuse to pay delinquent taxes, their property will be levied on, according to law.

## MUNDELEIN BECOMES CHICAGO ARCHBISHOP

RIGHT REV. GEORGE W. MUNDELEIN.

Bishop George W. Mundelein, auxiliary bishop of Brooklyn, who, according to new appointments from the Vatican, received through the papal legation at Washington, has been promoted to be archbishop of the archdiocese of Chicago, is probably the youngest archbishop in the world. At the time of his consecration to the office of bishop in 1909, Bishop Mundelein was the youngest Roman Catholic bishop in the United States, and probably the youngest in the world. He was born in New York city on July 2, 1872.

## PUPPET PLAYS SHOW UNIQUE DEPARTURE

Giving the audience an idea of what is interesting the people in the east, the two puppet plays presented last evening at the High school auditorium under the direction of Mrs. John F. Urie and Professor and Mrs. Arthur M. Charles, were interesting from the beginning to the end. The audience was representative of the social and literary life of the city and a number of the members of the Drama league were in attendance. It is estimated \$75 was cleared and the amount will be given to the Social service bureau by the Domestic Science association for whose benefit the affair was arranged.

The first play by Hans Sachs, entitled "The Way Faring Scholar," and translated metrically from the German, was written in the fifteenth century. The second play was "St. Peter and The Minister," a French translation. Professor and Mrs. Charles and Mrs. Urie were assisted in the reading by Messrs. Howard Mesick, Whitney McGuire and Miss June Robinson. Mr. Lester Crome assisted Mr. McGuire in arranging the electrical effects. The Garfield orchestra under the direction of Miss Sande played.

## CITY ATTORNEY

(Continued From Page One.) The competition given their electric service by the city as "unfair, morally if not legally."

"Have they forgotten the fact that, in the first place, they drove the city into competing against them, and that had it not been for the 1913 legislature passing the public service law they would have to go out of the electric service business in 1917, when their franchise would have expired. That law saved their skin. It permitted them to surrender their franchise and operate under an indeterminate permit."

"If the company has the right to complain of a competition brought about by its own greed, then the people of Richmond most certainly have a right to complain of the public service law which makes it possible for the company to sell out its electric business to the city when, in the absence of such a law, it would have had to 'close up shop' in two years without receiving one cent of compensation, for its a check would have never given the company a new franchise."

"Let me also point this out: the company in its plan for reimbursement in the shape of a 'going value' for its 'less years' under competition with the city gives no consideration to what would be a justifiable demand on the part of Richmond citizens that the company, in establishing a purchase price for the company's electric plant, give consideration to the years they suffered under extortionate and prohibitory electric rates charged by the company prior to the city's entry into the electric service field."

## How To Get Rid of a Bad Cough

A Home-Made Remedy that Will Do It Quickly, Cheap and Easily Made

If you have a bad cough or chest cold which refuses to yield to ordinary remedies, get from any druggist 2 1/2 ounces of Pinex (50 cents worth), pour into a pint bottle and fill the bottle with plain granulated sugar syrup. Start taking a teaspoonful every hour or two. In 24 hours your cough will be conquered or very nearly so. Even whooping cough is greatly relieved in this way.

The above mixture makes a full pint—a family supply—of the finest cough syrup that money could buy—at a cost of only 54 cents. Easily prepared in 5 minutes. Full directions with Pinex. This Pinex and Sugar Syrup preparation takes right hold of a cough and gives almost immediate relief. It loosens the dry, hoarse or tight cough in a way that is really remarkable. Also quickly heals the inflamed membranes which accompany a painful cough, and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. Excellent for bronchitis, spasmodic croup and winter coughs. Keeps perfectly and tastes good—children like it.
