

HIGH LIFE CONDEMNED BY REV. R. A. ELWOOD

Addresses Sunday Afternoon Gathering at Gennett Theatre and Denounces Clubs Where Liquor Is Sold, Quack Doctors, Evil Doers, Blind Tigers, Heartless Charity.

The prodigal son of the Bible offers the best solution to the modern prodigal who, reaching the lowest depths, seeks a return to his former life, according to Robert A. Elwood, pastor of the Board Walk church at Atlantic City in his address, "The Prodigal Son Up-to-Date," before the Sunday afternoon men's meeting at the Gennett theatre.

About 350 men, representing the smallest audience which has attended any of the Sunday afternoon theatre meetings were present. The musical program consisted of the singing of hymns, led by Oliver Nussbaum with the Gates orchestra as accompaniment.

Rev. Elwood's description of the modern prodigal was full of humor and ridicule. He described the high life in any community and pointed out how it leads from the highest levels to the lowest depths. He drew a vivid picture of the results of prodigal living.

Some of his telling points were:

"The person who invites you to do wrong is not a friend."

"You don't have to go to New York or Chicago to find high life."

"The devil would rather have a swell club where liquor is served than a speak-easy or blind tiger."

"You can't cover up the effects of sin with fine clothes, a Turkish bath or a quack doctor's medicine."

"A high class newspaper won't accept a quack doctor's advertisement. A quack doctor who lives off the sins of men is worse than the plague as a danger to the community."

"Don't despise a tramp. Remember he is some mother's boy."

"I'm sick of the kind of charity which sits behind a desk and issues orders."

"Real charity is Christianlike and means a personal touch."

"The best way to start the New Year is to take Jesus Christ for a friend and make both God and yourself happy."

"Return to Jesus Christ as your loving father."

Czarevitch at Play

CZAREVITCH AND COUSIN. (CINEMA SERIES)

An interesting picture just received in America, showing how the heir to the throne of "All the Russias" enjoys himself in the winter time. At the Czar's beautiful estate, Csareskoe Selo, 30 miles from Petrograd, the Czarevitch, with his sisters and his royal cousins, leads the life of any normal child. He is here shown standing on a sled, while his cousin, Prince Rotoslav Alenandrovitch sits at the back.

WILLIAMS GETS FIRST PRIZE IN BUILDER WORK

The annual observance of "Open House" at the Y. M. C. A. on New Year's day attracted the visit of approximately 400 persons.

The most entertaining of the attractions which were held was the model builders' contest held under the direction of J. J. Somerville, head of the boys' department.

So much originality and ingenuity was shown by the twenty boys in making the models that the judges, John Ulrich and John Murray, were compelled to carefully examine the construction of the various models. Following are the winners: Class A, Raymond Williams, a trailing rotary crane, awarded prize of a new motor; Class B, Wayne Judy, a stationary rotary crane, awarded prize of motor and reverse switch; Class C, Fredrick Clark, a derrick, awarded a prize of an air-ride.

A gymnasium exhibition held under the supervision of Physical Director

Roach was interesting to a large audience. An amateur photo exhibit was also held. Refreshments were served to the members and visitors in the evening.

"FORWARD" IS MOTTO

"Forward" was the motto chosen for the year at the First Baptist church yesterday morning. This word was also the subject of the Rev. W. O. Stovall's sermon in which he showed the necessity of co-operation, action and aspiration to enable the church to move forward. The attendance was not equal to that on Goto-Church Sunday last year, whole families being kept away on account of sickness.

LEONARD TO SPEAK

Prof. R. C. Leonard of the educational department of Indiana University, will address the meeting of the Commercial club next Monday evening. Prof. Leonard will head the work of an industrial survey of the Richmond school, and will outline the possibilities of the survey before the board members.

READJUST WAGES.

BOSTON, Jan. 3.—The management of the American Woolen company has decided on a readjustment of wages in all the mills of the company constituting an increase in no place of less than 5 per cent.

NEW ASSESSORS' BLANKS

TERRE HAUTE, Jan. 3.—A new official blank for the use of county assessors has been planned by Louis P. Seeburger and will be presented to the state tax commissioners when they meet in Indianapolis next week. Seeburger hopes it will be adopted.

HIGH SCHOOL GET CHANCE TO STUDY BIBLE

Unanimous vote by representatives of nearly all religious denominations in Richmond at a meeting Sunday afternoon in the Y. M. C. A. was made to organize Sunday school classes for high school students for the study of the Bible in connection with the school curriculum.

The question of accepting the proposal will be submitted to high school students at Chapel next Friday morning. Principal F. G. Pickell of the high school, who attended the meeting Sunday afternoon, and who was delegated to place the subject before the students, has announced that he will invite other persons to the meeting with the purpose of arousing enthusiasm among the students.

Fifteen Persons Present

Fifteen persons were present at the meeting and informal discussion of the subject was held. The Rev. E. G. Howard called the meeting to order and presided until President Robert L. Kelly of Earlham college assumed the chair.

Involved in the proposition favored by the church and school representatives is the study of the Bible from a non-sectarian and undenominational viewpoint by Sunday school classes composed of high school students. Written examinations will be held at the end of the term, with questions based upon the history and literature of the Bible. No attempt will be made to interpret the Scriptures.

Students who successfully pass in questions on any of the four units contained in the plan of the state board of education will receive one credit in their high school work.

The educational committee of the ministerial association is directing the introduction of the plan here. Principal Pickell has not decided whom he will invite to assist in placing the matter before the students on Friday.

WILLIAMSBURG

Miss Alice Kennedy is visiting Miss Opal Duke of this place. Miss Lydia Franklin was in Richmond Thursday. Chas. Faucett has returned home after a week's visit with Lawrence Faucett of Richmond. Elmer Williams of Noblesville, Ind., who has been visiting friends and relatives here, returned home Monday morning. Miss Mary Harvey was a visitor in Richmond Thursday. Mr. Clint Crull and Gladys Faucett spent New Year's day with her brother, Mr. and Mrs. Lawrence Faucett of Richmond. Fay Black is spending a few days in New Castle. Howard Weddle of Richmond has returned home after spending the week's vacation with his grandparents, Mr. and Mrs. Thomas. Mr. Homer Stigall and Millard Coffman of this place, attended a New Year's party in Economy, Ind., Friday evening. A watch party was given by Miss Opal Duke for her friends Friday evening. William Gray has returned to his home in Richmond after a few days' vacation with his friends near this place. Mr. and Mrs. John Ellis of Greensfork, were visiting her parents, Mr. and Mrs. William A. Duke of this place, recently. Mr. and Mrs. William H. Jones of Richmond are visiting friends near this place. Alpheus Williams spent Saturday with Mr. and Mrs. F. Williams of this place. Mr. Harry Harvey has returned to his work after a week's vacation with his parents, Mr. and Mrs. Abner Harvey. Mrs. Bert Colvin spent New Year's day with her parents, Mr. and Mrs. Jno. Shaffer. Mr. and Mrs. John Johnson were visitors of Mr. Asher Channess this week. Mr. and Mrs. Dearmond are extending from Marion, Indiana. Mr. Ernest Reynolds and son are visiting Mr. and Mrs. Creighton Ball and family of this place. Miss Alsie French has returned home after spending a few days with Lillie Reynolds of this place. Link Watkins was in Richmond, recently. Mrs. Lizzie Cranor and Miss Margaret Meredith were Richmond visitors Friday. Mr. Colwell Miller is spending his week's vacation with his parents, Mr. and Mrs. Jno. Miller, of this place. Omar Davis is spending the holidays with his parents, Mr. and Mrs. Tom Davis. William Hollingsworth was in Richmond, recently. Harvey Lindsay made a business trip to Richmond Friday. Miss Margaret Quigley is entertaining friends from Chicago, Ill. Paul Kennedy is visiting Mr. George Duke and family of this place. Miss Hazel Wood and son, Robert, have returned to Indiana, after a brief visit with her parents, Mr. and Mrs. Frank Oler of this place. Mrs. W. E. Brown returned home after a short visit with friends near Centerville. Mr. and Mrs. Wilfred Griffith have returned home after their Xmas vacation in Ghent, Ky. Mrs. Omar Pearce and son, Yessley, have returned home from Indianapolis, where they have been spending holidays with Mr. and Mrs. Cooper.

ENDS SNOWBALLING.

INDIANAPOLIS, Jan. 3.—Judge Deery says he doesn't care for boys snowballing each other but they must not include other parties. An such cases coming before him will be dealt with strenuously.

ABOUT 300,000 BABIES DIE BEFORE ONE YEAR

The Census Bureau estimates that 300,000 babies died in this country last year before the age of one year, and it is stated that one-half of these deaths were needless if all mothers were strong and infants were breast-fed.

Expectant mothers should strive to increase their strength with the strength-building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No alcohol. Every druggist has it. Insist on Scott's—the white-food medicine. No advanced prices.

LARGE CROWDS VISIT CHURCHES SUNDAY

Unusually large attendances were present in Richmond churches Sunday when annual observance of "Go to Church Sunday" was held. Memberships in all of the churches were increased, the pastors say.

Sunday school services as well as the morning church services and evening services were well attended. Scores of persons who had become lax in their attendance at church were also present.

In the majority of churches special services were held in the morning and in some, special services were held in the evening. The annual observance of the day had been advertised by the wearing of tags and in other ways. Practically all of the auditoriums of the churches were filled at the morning services.

COMPANY DISSOLVES

Preliminary certificates of dissolution of the Home Electric Appliance company, Dr. James Charles, Richmond, president, has been filed with the secretary of state. The company, which manufactures electric appliances, for electro-therapeutic purposes, will continue the business under partnership arrangements.

TRAVEL IS HEAVY

Passenger traffic on the Pennsylvania railroad is heavier than it has been in years, and extra coaches are being run on practically all trains. The travel is unprecedented in the history of the road. Usually after the holiday rush there is a let-up, but this year it has continued, and there are no signs of its abating. Last year was looked upon as a wonderful year, but the records for 1915 will show a decided increase.

CITIZENS

[Continued From Page One.]

prevent infection and to safeguard civic economy.

Although segregation of all open cases in proper sanatoria would prove a good method of preventing the diseases spread, Dr. Perry says it is impractical because a great many cases are hidden while others are not under the care of physicians, the masses have not been educated to this point while many families are able to provide the necessary attention.

"Having ascertained that tuberculosis is unduly prevalent, and that a large number of the cases can not be advantageously cared for in their homes the question arises. What shall be done? The answer is a properly equipped sanatorium for the care and treatment of both incipient and advanced cases."

Dr. Perry indicates the great educational influence of a sanatorium. He also notes that the state law enacted in 1913 vests the county commissioners with authority to establish a hospital for the treatment of tuberculosis. He continues:

"Having shown that not only is a

WOMEN SHOULD GET THIS HABIT AS WELL MEN

Don't Eat Bite of Breakfast Until You Drink Glass of Hot Water.

Happy, bright, alert—vigorous, and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. Only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had 'y dri king, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

tuberculosis hospital necessary but also that authority exists for the erection of one, it remains for the civic bodies and citizens to so present this matter to the county commissioners as to impress them that the construction of such a hospital should be commenced without delay."

Recommendation is then made that the primary unit provide beds for 25 patients, that the administration building be constructed for a larger hospital. He suggests that it would also be economical to construct an infirmary for the bed cases a little larger than might be immediately equipped and that provisions be made for increase as soon as advisable.

A tuberculosis dispensary where persons can go to be examined and where advice can be given regarding treatment is declared, "absolutely essential to an adequately equipped and conducted tuberculosis campaign." A nurse trained in the treatment of tuberculosis should be connected with the dispensary.

As a valuable part of the work Dr. Perry recommends that public or private charity assume the responsibility of providing sleeping porches and extra bedding for those unable to buy it for themselves.

Further recommendations include: An open-air school, a county tuberculosis hospital, a full time health officer, a strict enforcement of sanitary ordinances, employment of a school nurse.

The average number of deaths in Richmond due to tuberculosis is 33 a year, according to the report. This is a ratio of one to every 107 inhabitants. In comparison with other Indiana cities with population from 20,000 to 30,000, the ratio in Richmond is about the same as elsewhere. The number of deaths from tuberculosis during the past three years was utilized as a factor in making the survey and the houses in which they had occurred

were visited in order to ascertain if cases of the disease existed in other members of the family or in new tenants. The survey extended over a period of three months.

The following number of deaths from tuberculosis were reported: 1912, 32; 1913, 35; 1914, 32.

In 1914 the tuberculosis deaths were largely centered in two sections of the city, namely from South First to South Twelfth, and north of the railroad. The following statistics for 1914 were tabulated:

Deaths from tuberculosis:
Section 1, South First to South Twelfth, inclusive, 11.
North Second to North Seventh, Main to Seventh, inclusive, 3.
Section 2, North of the railroad, 8.
Section 3, North Eighth to Twenty-second, 6.
South Thirteenth to South Twenty-first, 1.
West of river, 3.
Total, 32.

Percentage of deaths occurring in section 1 and 2, 68.75.

An intensive study was made by Dr. Perry of conditions north of the railroad and he found that in sanitary conditions, this section of the city was worse than any other part. At present, according to his report, there are 50 cases of tuberculosis north of the railroad.

In West Richmond the ratio of 1 to 219 is given, which shows the best conditions of any place in the city. In the district from South First to Twelfth 1 out of every 98.82 persons is afflicted with tuberculosis; in Riverside the ratio is 1 to 53.53; North Second to North Seventh, 1 to 75; North Eighth to Twenty-second, 1 to 164; South Thirteenth to South Twenty-first 1 to 174.

Work of the day nursery, the visiting nurse, the Social Service Bureau, and the Anti-Tuberculosis Society is complimented by Dr. Perry who made an intensive study of social conditions in the city.

BY REV. FATHER AGATHO ROLF

Capuchin Father of St. Augustine's Parish, Pittsburg, Tells of Benefits Received from Father John's Medicine—Safe for Colds.

Writing from the parochial residence of St. Augustine's Parish, 220 Thirty-seventh St., Pittsburg, Pa., Rev. Agatho Rolf O. M. Cap., says: "Father John's Medicine is so effective in lung troubles and in the building up of rundown constitutions, that I am glad to help whom I can by giving them a bottle. My own sister is much improved after taking the medicine. I cannot praise Father John's Medicine too much. Our fathers have also used it and received the greatest benefits from it."

Cap. Because of its freedom from dangerous drugs in any form, Father John's Medicine is a safe medicine for all the family. It is pure and wholesome food nourishment for those who are weak and run down. It has had more than 50 years of success in the treatment of colds and throat and lung troubles. Not a patent medicine but a doctor's prescription for the Rev. Father John O'Brien, of Lowell, Mass., from whom the medicine got its name and by whom it was recommended.—Adv.

ANNOUNCEMENT

BY

Clem Thistlethwaite

The Home of VINOL Is Now in Our Stores

We take pride in announcing to our friends and customers in this city that from now on we are the sole agents for VINOL. We know by personal investigation and experience that VINOL is the most scientifically prepared and efficacious cod liver oil remedy known to medicine. We made up our minds that the most successful stores in this or any city must be The Home of Vinol.

It is with pleasure that we announce the fact that we have been appointed sole agents for this, the greatest Cod Liver Oil Preparation and Tonic Reconstructor we ever sold. Vinol hereafter will be sold on our personal guarantee, and we will in every instance refund its cost to you if you are not satisfied with the results obtained by its use.

VINOL Is the Tonic

par excellence for all Run-Down Debilitated Conditions, Poor and Thin Blood, Nervousness, Sleeplessness and Lack of Energy. It builds up and strengthens overworked men, tired women, weary nursing mothers. Nothing equals VINOL for puny, frail children or feeble old folks. VINOL renews the bodily forces after the grip, pneumonia, malaria, typhoid, measles, scarlet fever or whooping cough.

Our VINOL Promise-Guarantee

We have such immense faith in Vinol that if you will take it we will promise, if Vinol does not benefit or cure you, to return your money without question.
