

ASK REV. RAE TO MAKE TALK BEFORE CLASS

HAGERSTOWN, Ind., March 18.—School days for the senior class of the Hagerstown high school will end on April 14. On Sunday night the 23rd inst. the baccalaureate sermon will be preached at the Christian church, by Rev. Rae, of Richmond, and Tuesday night following, the twenty-fifth will occur high school commencement in the I. O. O. F. hall. J. Boyd Jones of Terre Haute, will deliver the address before the graduating class. The music will be furnished by the school orchestra.

Hagerstown public school and the Jefferson township schools will be out on Tuesday, April 25.

Eighth year students in the Jefferson township schools will be given the final examination on the 15th of April, and arrangements for the township commencement will then be made.

The 1916 class to graduate from Hagerstown high school is composed of the following students:

Maudie Sparks, Alma Waltz, Clara Weidman, Ruth Cromer, Grace McCullough, Mildred Northeott, Everett Taylor, John Sherry, William Waltz, Lawrence Mohler, Dewey Bookout, Herbert Doerstler, George Sherry and Clarence Sparks.

ST. PATRICK'S DAY OBSERVED AT PARTY

LIBERTY, Ind., March 18.—Mrs. James Irwin and Mrs. Cecil Irwin entertained a number of friends at a St. Patrick's party Friday afternoon at the home of Mrs. James Irwin on Union street. The invitations were in appropriate rhyme. The color scheme of green and white will be carried out in the decorations of the house, and a "Pal" contest was a feature of entertainment. Mrs. Herschell Wray of Dayton was the guest of honor, and sang several Irish songs, accompanied by Miss Nell Harrell.

New York city's net revenue from saloon licenses amounts to more than \$12,000,000 a year.

THIS WILL INTEREST STOMACH SUFFERERS

Says Indigestion Comes From an Excess of Hydrochloric Acid.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithium and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

Villagers Examine Fallen Taube

CAPTURED GERMAN TAUBE

© INT'L. AIR SERVICE

This picture shows a large crowd gathered in a street in a village in France, where the accurate aim of a French gunner brought down this German "Taube." The villagers are eager to get a glimpse of the enemy air-craft.

PAXSON WILL SPEAK

The commencement speaker of Earlham college on Wednesday morning, June 14, is to be Dr. Frederick L. Paxson, professor of American History in the University of Wisconsin. Prof. Paxson is one of the greatest authorities on the history of the Mississippi valley, of which he has made a speciality for years. He is said to be an ex-

cellent speaker and will make the commencement address fit into the Indiana centennial celebration. His subject is "A Hoosier Doomsday," and he will undertake to account for the remarkable development of the state, explaining, as has been suggested, why Indiana has at one and the same time so many "tender poets and tough politicians."

CHIROPRACTORS MISSING.

MARION, Ind., March 17.—Mrs. Inez Fryer and J. H. Jones, a chiropractor,

are missing from their homes. Mrs. Fryer's husband says he will make a statement in a few days.

PALLADIUM WANT ADS PAY

Hagerstown Notes

By Miss Florence Bell.

Miss Anna Dilling is a guest of friends at St. Louis this week. Mrs. Sarah Hardman and her sister, Mrs. Mary Hoover, were guests of Mrs. Ida Lawson Wednesday. Mrs. Mary Hale of Geneva, was a guest of Miss Esther Porter from Friday until Monday. Miss Porter entertained a party of friends Friday evening in honor of Miss Hale. Miss Nellie Brant entertained to supper Saturday evening, Miss Mary Hale and Miss Esther Porter. Mr. and Mrs. Savage will move from Mrs. Ida Lawson's rooms on South Main street, to the residence property of Alien Foutz on South Main street. Mr. and Mrs. E. F. Lauffer will move to the country and Mr. and Mrs. Perry Holliday will move in the property made vacant by Mr. and Mrs. Lauffer.

ELECTS OFFICERS

LIBERTY, Ind., March 18.—At a meeting of the Cottage Grove Social club held at the home of Mrs. James Tool, three miles east of here, the following officers were elected for the year: President, Miss Gene Clark; vice president, Mrs. Emma Danford; secretary, Mrs. Roxa Williamson; assistant secretary, Mrs. Anna Lacy; treasurer, Mrs. Edna James.

TO DELIVER ADDRESS

The Earlham baccalaureate address will be given Sunday, June 11, by Dr. Shaller Mathews, dean of the divinity school of the University of Chicago and president of the Federated Churches of Christ in America. It is evident with the above speaker and with the arrangements that are being made for the special celebration of the Shakespearean ter-centennial and the Indiana centennial combined with the quincentennial day exercises that the Earlham commencement for 1916 is to be an unusually notable occasion.

WASHES NEXT DAY.

NEW CASTLE, Ind., March 18.—Clarence Shafer gave a pint of his blood to save his mother's life. His mother gave birth to her seventh child without the attendance of a physician or midwife. The next day she did a big washing. She was near death when taken to the hospital.

HOLD RICHMOND BOY.

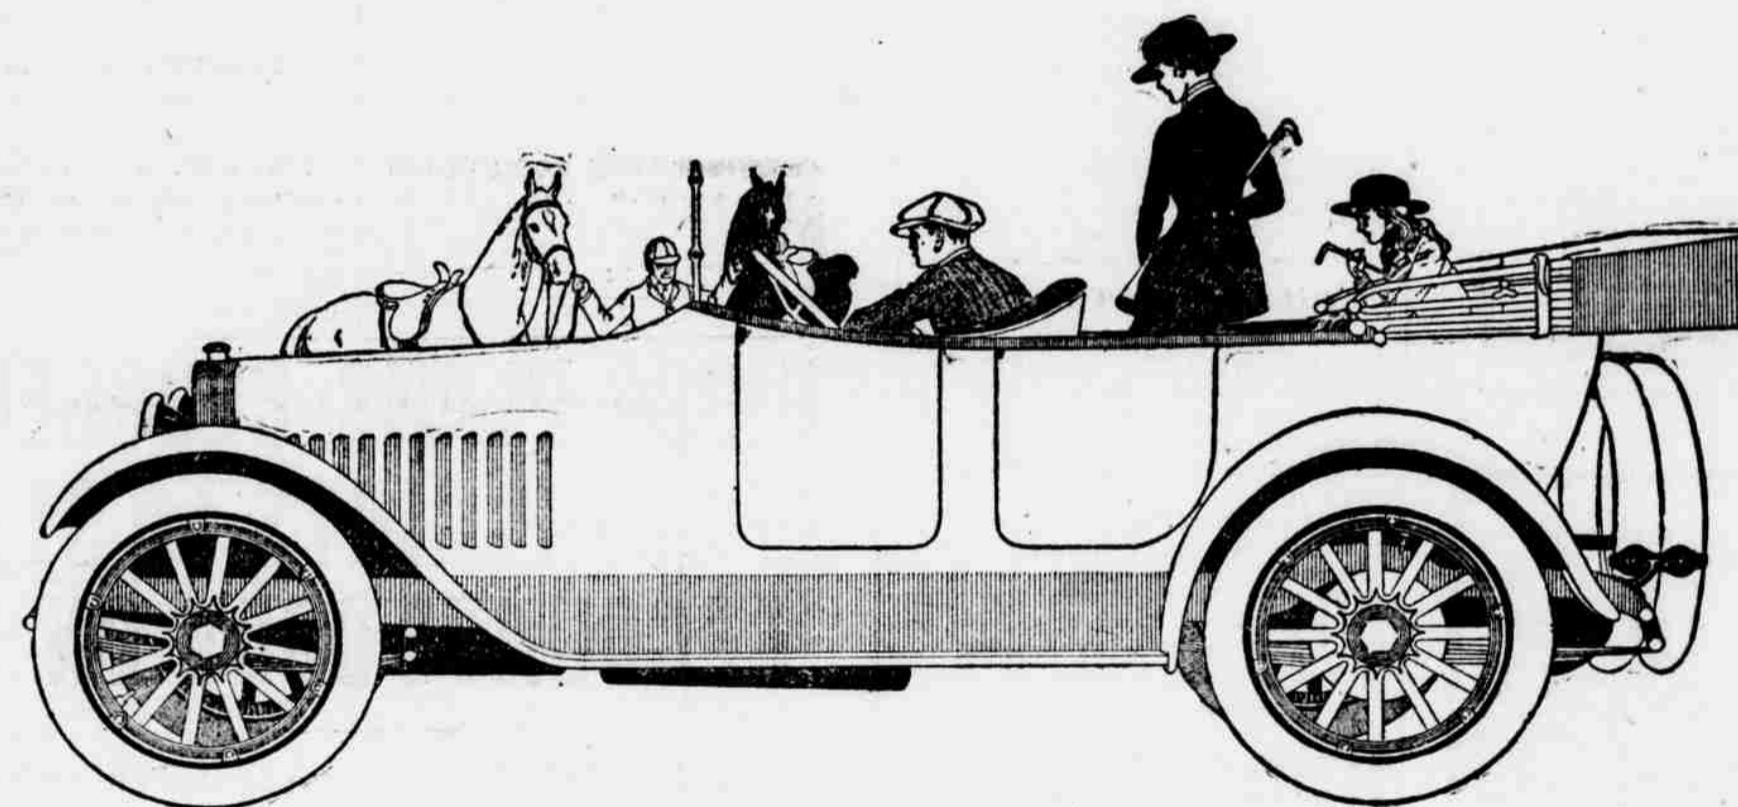

Walter Seward, aged 15, said to be a Richmond boy, is being held for safe keeping by the authorities at Pewee Valley, Kentucky. They have written that the boy wandered into that town and that he informed them that he left Richmond about six months ago, where he lived with his uncle, Albert Seward, 403 West Main street. The lad's relatives cannot be located here by the police.

For a Weak Stomach.
If you have any trouble with your digestion you should read what Mrs. J. C. Bauer, Zanesville, Ohio, has to say regarding her experience as follows: "I was troubled for months with a weak stomach and constipation and it was all I could do to drag myself about the house. Chamberlain's Tablets afforded me the first relief I got, and after taking them a short time I was restored to health." Obtainable everywhere.—Adv.

Inexpensive to Run and Easy to Drive—the New 3400 r. p. m. Chalmers

The mist of gasoline that whirls through the tiny perforation in the carburetor jet of the 3400 r. p. m. Chalmers, rushes into action that has changed the whole aspect of automobile engineering.

The conditions surrounding the manner in which its dormant energy is awakened, brought to life, and compelled to perform, explain the strange ability of this new car.

The six cylinders of its engine are small—3 1/4 by 4 1/2 inches. The small area from which heat can be thrown away by radiation, reinforced by the incredibly short cooling process between the swift succession of its explosions, create maximum energy with minimum waste.

"Make her perform," said Hugh Chalmers to his engineers. "Get acceleration, long mileage on gas, activity."

The result—18 miles for every gallon of gas, anything up to 60 miles an hour, and supremacy of pick-up.

3400 revolutions per minute means that every gram of energy is wrung from every drop of gasoline that is

inhaled by the powerful suction of the motor pistons.

It means that when, at the point of highest pressure, a spark from the distributor ignites the oxygen of the air with the carbon of the gasoline, every mechanical condition is such that loss of energy is cut down to the lowest possible degree.

It means that the 3400 r. p. m. Chalmers gets twice the mileage on gas that many another high-speed engine will deliver.

The speed of its uncanny carburetion makes flight satin-smooth by bringing the explosions of gas so close together that you are unconscious of anything but an uninterrupted stream of might.

Unlike cars of superfluous might, the 3400 r. p. m. Chalmers has a pick-up so flexible that it's the first to make its get-away at the crossings, and the last to take another car's exhaust.

It's a cheap car to run and an easy car to drive.

Price, \$1050 Detroit
