

LAND TAX SYSTEM GROWS IN COUNTY, BOWMAN DECLARES

Study of the taxation problem in Wayne county that has been made by County Auditor L. S. Bowman, will be used as the basis for a revision in the state tax laws. This revision has been suggested by the state commission on taxation.

Governor Ralston recently appointed a Wisconsin university expert to make a preliminary study. Mr. Bowman is vice-president of the state tax association, which instigated the revision demand. The recent hearing in Indianapolis was attended by Mr. Bowman who rehearsed the conditions as he found them in Indiana. To Mr. Bowman has been assigned the study of county and township taxes.

This country is witnessing a great change in the methods of taxation," said Mr. Bowman. "The state is gradually approaching the Henry George system of land tax, which is a single tax on real estate. One hundred years ago, I find that in Wayne county, 40 per cent of the taxes were on real estate and 60 per cent on personal. Today I find that 65 per cent is on real estate and 35 per cent on personal property."

PEACH BASKET SHAPE FOR SPRING BONNET

This attractive satin and braid hat just escapes being the one time popular peachbasket shape. The arrangement of the braid at measured intervals is an interesting detail, according to alternate panel of satin and braid. A towering cluster of roses sets on the top of the crown, adding a bright color note.

A firm of American papermakers has a book containing 660 leaves, each one of which was made from a different substance.

Life of Savage More Sensible Than Modern

The theory that most of the ailments of today are caused almost entirely by those habits that distinguish the white man from his long ago brother, the savage, is more widely discussed every day.

The savage, in many ways, was a more sensible being than the man who today wars on him and then seizes his birthright. It has been said by medical authorities that nine out of ten cases of sickness can be traced to a disordered stomach, and that the ailments are due, in a large measure, to excessive eating and drinking and to little healthful outdoor exercise.

Common sense should be used in our mode of living. It was with this end in view that Joseph Von Trimlach, the noted chemist and originator of so many health aids, gathered herbs, roots, bark and flowers from the most remote parts of the world and spent years of his life in experimenting and study before he arrived at the solution of the problem of relieving stomach troubles. He named his discovery Tanlac. Tanlac has met with instant favor wherever it has been introduced. It has created a romance in the business world. Hundreds of thousands of sufferers have realized the benefits of this great reconstructive tonic.

Tanlac is believed to act more favorably, because of the nature of its ingredients, on ailments of the stomach, liver and kidneys, and on catarrhal affections of the mucous membranes, which, when neglected, are so often communicated to the vital organs themselves, than any other known preparation. This ideal reconstructive tonic, appetizer, invigorant and builder of tissues has been lauded by men and women in all walks of life. It has proved a boon for sufferers from those all too common ailments.

Tanlac now is being especially introduced in Richmond at Clem Thistlethwaite's drug stores, where the Tanlac man explains its merits and the results which may be expected from its use.

Tanlac may be obtained in the following near by Ohio towns: New Paris, E. M. Kessler; Eldorado, O. H. Martin; New Madison, Thomas E. Wank; Eaton, Lake Drug Co.; Camden, J. H. Bohn; West Alexandria, H. N. Price; Greenville, Kipp Drug Co.—Adv.
