Sticklers for Accuracy

The Pennsylvania railroad has concluded that
"diners" are "restaurant cars," and hereafter all
cars in which food is served on that railroad will
be known as "restaurant cars."

A bulletin of the road says: "The term 'dining
car' is a misnomer, as the word dining properly
applies to a place to eat dinner. As breakfast
and luncheon, as well as dinner, are served in the
so-called 'dining cars,' it is actually a 'restaurant
car,' and the Pennsylvania railroad has decided to
take the initiative in abolishing the misnomer
and in giving the car its proper title."

The traveling public cares little what name is
applied to the car where meals are served, so long
as the car is there, the prices right and the food
good. The name "diner" has been applied to this
kind of car for so many years that the public will
keep on saying "dining car."

The Original Bonehead

Speculation has been rife ever since prize
boneheads were pulled on the baseball diamond
as to the ancestors of the breed. Experts of the
geological survey have discovered bones of the
enormous Titanotheres, a prehistoric monster
which overran Nebraska and Wyoming in ages
long ago. This beast was the bonehead of its
contemporaries. The brain cavity of the animal was

only a few inches in diameter, while the head was
mostly bone.

Some fantastic baseball fan, peev'd at the
faulty judgment of a player, may this summer
call him a Titanotheres, and the appellation will
not be far fetched.

The Titanotheres belonged to a comparatively
short-lived family, Director Smith declared. It
seems to have been confined almost entirely to
North America. They were clumsy brutes about
the size of the largest sized elephants, having on
the front of the skull a pair of great bony pro-
truberances, which although hornlike in form,
probably were not sheathed in horn. The head
was large and fantastic in shape.

"This creature was a veritable bone-head,"
Dr. Smith declared. "The thick body was sur-
mounted by a head small, comparatively in size
and mostly bone. The brain cavity was only a
few inches in diameter and heavily surrounded
by massive bone, as if to withstand the shocks of
battle. So far as is known this animal was the
most formidable of any species in that epoch."

Why Not?

Copenhagen is the immaculate city of Europe.
The municipality has demonstrated that streets
used by thousands of vehicles can be kept as
clean as a Dutch doorstep, that public buildings
may be beautiful and yet inexpensive. When the
burgomaster of the city was asked how the city
did it, the official expressed his surprise that
anyone should believe that any city should be
dirty. Keeping Copenhagen clean has become
municipal religion. The Danes cannot understand
why their cities should not be spotlessly clean.

The viewpoint on civic problem governs
everything. If Richmond were in the habit of
keeping its main street immaculately clean, every
citizen would be outraged if he saw filth there.
A person who keeps himself absolutely clean,
cannot understand why a tramp has a holy horror
for water. A city that keeps its streets clean,
cannot comprehend why dirt should be tolerated
on the thoroughfares. It is natural that the
Danes should wonder why the Americans express
wonder when they see clean streets.

Concluding an account of funeral
services of a citizen a newspaper
adds this incomplete bulletin—"was
resting comfortably."

After reading about the Domes-
tic Science Association, did you
stop to imagine what it would be
like if women in congress were
trying to solve the Mexican situation?

**Your Sick Child
Is Constipated!
Look at Tongue**

If Cross, Feverish or Bilious
Give "California Syrup
of Figs."

No matter what ails your child, a
gentle, thorough laxative should al-
ways be the first treatment given.

If your little one is out-of sorts,
half-sick, isn't resting, eating and act-
ing naturally—look, Mother! see if
the tongue is coated. This is a sure
sign that it's little stomach, liver and
bowels are clogged with waste. When
cross, irritable, feverish, stomach sour,
breath bad or has stomach ache, di-
arrhea, sore throat, full of cold, give
a teaspoonful of "California Syrup of
Figs," and in a few hours all the con-
stipated poison, undigested food and
sour bile gently moves out of its little
babies, children of all ages and for
grown-ups printed on each bottle.

Mothers can rest easy after giving
this harmless "fruit laxative," because
it never fails to cleanse the little one's
liver and bowels and sweeten the
stomach, and they dearly love its
pleasant taste. Full directions for
babies, children of all ages and for
grown-ups printed on each bottle.

Beware of counterfeit fig syrups.
Ask your druggist for a 50-cent bottle
of "California Syrup of Figs," then see
that it is made by the "California Fig

Reliable Laxative Relieved This Baby

Child Was Badly Constipated Until
Mother Tried Simple Remedy.

In spite of every care and attention
to diet, children are very apt to be-
come constipated, a condition responsi-
ble for many ills in after life unless
promptly relieved.

Mrs. C. W. Wilson, of Shelbyville,
Tenn., had trouble with her baby boy,
Woodrow, until she heard of Dr. Cald-
well's Syrup Pepin. She writes, "I
can safely say Dr. Caldwell's Syrup
Pepin is the best remedy of its kind
on earth. It acts so gently and yet so
surely. Little Woodrow was very
badly constipated and we could find
nothing that gave relief until we tried
your Syrup Pepin, which gave imme-
diate relief."

Dr. Caldwell's Syrup Pepin is a
compound of simple laxative herbs,
free from opiates or narcotic drugs,
in action, positive in effect and pleasant
to the taste. It has been prescri-
bed by Dr. Caldwell for more than a
quarter of a century and can now be
had for fifty cents a bottle in any well-
stocked drug store. A trial bottle of

Tooth Loose?
Watch out for Pyorrhea!

When you find a tooth that gives back and
forth, even just a little, see your dentist at
once.

He will find conditions which you might
overlook. He will find a gum recession,
even though slight, where the gums have
pulled away from the teeth. And he will tell
you that you have the dread disease pyorrhea.

But Senreco does more. It cleanses
the greater part of all tooth troubles.
Unless treated and checked, it will
result not only in the shrinking and
malformation of your gums and of
the bony structure into which your
teeth are set, but in the loss of the
teeth themselves.

A specific for pyorrhea has been
discovered recently by dental science,
and is now offered for daily
treatment in Senreco Tooth Paste.
Senreco combats the germ of the
disease. Its regular use insures your
teeth against the attack or further
progress of pyorrhea.
