This 3400 r. p. m. Chalmers Will Last Any Man 5 Years or More.

She hasn't a weakness. And the sturdiest part of her anatomy is her 3400 r. p. m. engine. Now there has been a lot of talk about 3400. I find some of my prospects come in here a little bit doubtful about 3400. They have been told by my contemporaries that an engine turning up 3400 r. p. m. is doomed to short existence. That's absurd. Why, there are at least three cars in America that do 3100 r. p. m. or better. Ten years ago in Europe there were cars that did 4000 r. p. m. Take the electric fan. It does around 4000. A turbine reaches about 4800. Now, the argument set forth against 3400 is the "wear and tear on bearings." How ridiculous! Of course, if we had an old-fashioned engine with heavy iron pistons and arm-and-hammer type of connecting rods—then, to be sure, I'd have little to say. But, to the contrary, this is a very modern engine. The pistons are aluminum, which cost a whole lot more, but weigh a whole lot less. Then the connecting rods are much lighter. That takes a lot of weight off the bearings, and permits about 500 r. p. m. more engine speed. That isn't a very big increase, I know, but it's

just enough to make a very foxy, silken affair in action. And then, too, in traveling 10 miles an hour her engine speed is only 500 r. p. m. At 20 she turns up 1000. At 30, 1500. How often do you travel faster than 30? So unless you want to sink the little button to the floor board and hold her there all day, you're not using 3400 r. p. m. all the time. I hope none of my friends will swallow whole any story deriding 3400. You know you will always find the largest number of clubs under the best apple tree in the orchard. This car has doubled my sales. As Mr. Post says, "There's a reason." One little ride and you will want to pass up your old gondola. Ask me about our service inspection coupons. They are negotiable with all Chalmers dealers everywhere. This system is an important consideration in buying your car. **CAUSE OF SLEEPLESSNESS.**  
Sleeplessness often results from a disordered stomach. Correct that and you can sleep as well as ever. Mrs. Mae Ingersoll, Pulaski, N. Y., was troubled with indigestion and headache. "I was so restless at night," she says, "that I could not sleep. Chamberlain's Tablets were so highly recommended that I got a bottle of them and soon after I began taking them I was very much improved. Two bottles of them cured me." Obtainable everywhere.—Ad.

## RED PIMPLES ON NECK AND FACE

Spread Rapidly on Shoulders and Body, Itching and Burning Intense, Completely

HEALED BY CUTICURA SOAP AND OINTMENT

"My trouble began in small red pimples which soon grew larger, festered and came to a head, then dried and formed a crust somewhat of a yellowish color. My neck and face were entirely covered with eruptions which spread rapidly on my shoulders and body. They were in the form of blotches and the itching and burning were so intense that I was obliged to scratch and irritate the affected parts. A friend recommended Cuticura Soap and Ointment. They instantly cooled and relieved the trouble and one week's use completely healed me." (Signed) Miss Cecilia Wells, Valence, Ind., July 21, 1915.
