## CIVIL WAR PRICES BEING APPROACHED BY STAPLE FOODS

This alleged un about old H. C. L. (high cost of living) is getting to be too serious a proposition to be appreciated now that a resume of the present situation brings forth the fact that "near Civil war prices" are being paid for staple food stuffs right here in Richmond.

Sugar, for instance, now quoted at \$7.50 a barrel is bringing the same price that featured Civil war days back in 1862. And many other staples foodstuffs are quoted not far above the high water mark of the days of the "sixties."

### Advance in Last Year

Especially during the past year have prices in food stuffs advanced. Wholesale and retail prices of such common staples as potatoes, cabbage, navy beans, flour, lard and fruits have doubled and even trebled in some instances during the past twelvemonth.

A year ago today potatoes were wholesaling at sixty cents. The quotation today is \$1.30. Flour has advanced \$6.20 to \$8.60. Eggs are selling fully twenty-five percent higher this year. Price of cabbage had quadrupled, lemons, tripled.

The following comparison of wholesale prices is alarming:

Article	Present price	Year ago
Cabbage, barrel	\$2.00	\$ .50
Peaches, bushels	3 25	1 00
Lemons, box	7 50	3 00
Green beans, barrel	7 50	50-75
Onions, 100 pounds	3 00	1 00
Potatoes, bushels	1 30	60
Sugar, pound	7.32	5.92
Apples, bushel	1 75	75
Navy beans, bushel	6 25	3 10

## FLIES ARE CAUSE OF MUCH ILLNESS

According to Dr. F. W. Krueger, county health officer, the fly is responsible for the epidemic of intestinal disease which is prevailing in Richmond at the present time. Dr. Krueger inspected the Chautauqua camp this morning and instructed the officials in the use of the proper antiseptics to prevent the carrying of infection by the flies.

Richmond physicians are reporting a great deal of intestinal trouble, and the number of flies and lack of protection against infection from them on the Chautauqua grounds might make the situation worse.

Dr. Krueger also condemned the bucket of water and tin cup which were being used by the speakers and entertainers at Chautauqua. He ordered that individual drinking cups be provided.

## APPLY GOLDEN RULE TO LABOR DISPUTES DR. JORDAN ADVISES

Declaring the trouble between labor and capital to be the result of mutual ill will and dishonesty, Dr. O. F. Jordan, speaking at the Chautauqua, said that the golden rule is the remedy for such disputes.

"The capitalist is not willing to pay the laborer the wealth that he creates and the laborer tries to cheat the capitalist by giving a dishonest amount of work," he said.

Dr. Jordan spoke on "Millionaires and Paupers," and discussed the proper use of money. Money given unscientifically for charitable purposes is an encouragement of fraud and dishonesty, he said.

## BEFORE ELECTION MEXICAN CLOUDS WILL BE CLEARED

WASHINGTON, Aug. 23.—Settlement of all questions in dispute between the present de facto government of Mexico and the United States is expected by President Wilson before election. Secretary of State Lansing and Ambassador Designate Arredondo planned to confer today to perfect arrangements for the meetings of the joint commission. It is expected that Ashbury park or some nearby New Jersey summer resort will be chosen as the meeting place. This will put the commission close to the summer White House so that President Wilson will be available at all times for consultation. Ambassador Designate Arredondo also will move his staff to the place selected so that he can keep General Carranza fully advised of everything that is going on.

The commission as finally selected, is admittedly one of the strongest that has yet passed upon Mexican affairs and its personnel is as follows:

Lane, secretary of the interior; Judge George Gray, of Delaware, retired federal jurist and since 1900 a member of the international court of arbitration under The Hague convention; John R. ## ALCOHOL IS BLAMED FOR PROSTRATIONS

CHICAGO, Aug. 23.—Ninety eight per cent of heat prostrations can be directly traced to use of intoxicants, according to Dr. Karl Meyer, medical warden at the Cook county hospital, whose wards have been overflowing the last month with heat victims. "Out of the hundreds of cases here," said Dr. Meyer, today, "one without an alcoholic breath was a rarity. Alcohol increases the bodily supply of heat and lessens the power of resistance."
