DOGS KILL SHEEP; MEN SHOOT DOGS

HAGERSTOWN, Ind., Sept. 2.—Mr. and Mrs. Edgar Lock, Edith Lock and Ruth Brown, attended the Labor Day exercises at Mooreland, Monday. As Mr. and Mrs. Albert Dines were passing the farm of Oscar Brown, north of town Sunday, about 5 o'clock, they saw two dogs among his flock of sheep, they immediately informed Mr. Brown, which probably saved the slaughter of some of the flock, but several were hurt. The dogs were owned by Charles Waltz and Guy Macy. The dogs were killed. Mr. and Mrs. John Retz, returned Sunday from a three days visit with Mrs. Clyde Temple of Portland.

The Wife of a Drinking Man Deserves Hunger, Cold and Rags, Says Druggist Brown of Cleveland

Unless She Does All In Her Power
to Break the Drink Habit,
Tells Her What to Do.

The craving for alcohol is a disease and a drunkard is a sick man. He is a victim of a vicious system of selling poison for profit and of almost criminal neglect on the part of relatives and friends. The wife of a drinking man, especially, deserves hunger, cold, rags and brutal treatment unless she does all in her power to break her husband of the drink habit, says Druggist Brown of Cleveland. The habit can be broken. Thousands of cases prove it. Every community has its reformed drunkard. You know one or more, we all do, and where one is known a hundred have been rescued before reaching the stage where their rescue became a topic for neighborhood gossip. When a drinker who has been in the gutter goes away to a sanitarium to take the cure his neighbors know about it. But if he gradually quits few notice it and the thousands who are saved before reaching the gutter stage attract little or no attention.

The drink habit should be rooted out at birth. The first whiff of liquor on a man's breath should be his wife's signal for action. No man at that stage would consent to take a treatment because he thinks he has perfect control of himself and can take a drink without danger or refuse one at

any time. This is the time to reach them with a home treatment. Go to your druggist and ask for powdered tescum. Put one powder, twice a day, in milk, coffee, tea or food. He need not know you are doing it, for powdered tescum is tasteless, odorless and cannot be detected. Soon liquor does not taste the same and it becomes less pleasant to take a drink. A possible victim is saved and knows not how or by whom.

If you are free from the curse of drink in your family tell your afflicted friend about powdered tescum, or mail this article to her without comment. By helping your friend you protect your own family because every drinker is a menace to the community. He puts temptation in the way of every man and danger in the path of every woman. For every man who drinks there is some woman who suffers and you may safeguard your daughter's future by helping your neighbor to save her drinking son.

Caution: Powdered tescum should be given only when it is desirable to destroy absolutely all taste for alcoholic drink. If you see no danger in moderate drinking cut this out, put it in some safe place and wait until the danger line is plainly near. The time is sure to come when you will need it. Powdered tescum is sold by Clem Thistlethwaite and all other druggists.—Adv.

PESKY BED BUGS

Doctors declare that bedbugs and other vermin are the most to be feared means of spreading such diseases as consumption, spinal meningitis and other infectious troubles. There is no disgrace in getting bedbugs in your home, because that can't be avoided, but it is a disgrace to permit them to remain and thrive when it is so easy to get rid of them with the new chemical compound, P. D. Q., which actually puts an end to these pesky devils.

A MILLION BEDBUGS
A 25-cent package of this golden chemical will make a quart of a mixture that is so deadly to bedbugs that it would kill a million of them if you could get that many together. If they were as big as your hand it would swat them just as well. And not only the live ones but the future generation as well, because once it hits their eggs they are gone.

CUT THIS OUT
Your druggist has P. D. Q. (Pesky Devil Quietus) and will be glad to furnish it for 25 cents. One 25-cent package makes a quart of the mixture and is equal to a barrel of old-fashioned bug-killer. Some druggists may try to sell you something else. Don't accept a substitute. If your druggist hasn't P. D. Q., send us his name and 25 cents and we will send you a package postage paid to your address.

WILL NOT DAMAGE GOODS
P. D. Q. will not injure delicate fabrics, clothing, carpets, furniture, bedding, wall paper or woodwork. In

fact, it is often used as a deodorizer and disinfectant.

KILLS FLEAS ON DOGS
If you have a pet dog who is infested with fleas take a little P. D. Q. mixture in your hand and rub it into the fur. Then watch the fleas loop the loop. They will be deader than Kink Solomon before they hit the floor.

CHICKEN LICE DESTROYER
Have your chickens got lice? Don't hesitate. Get a 25-cent package of P. D. Q., make a gallon of lice destroyer from it as directed and then get busy in the henhouse. It's so easy you'll laugh and so will the chickens. By the way, did you ever see a chicken laugh? Try this and watch 'em.

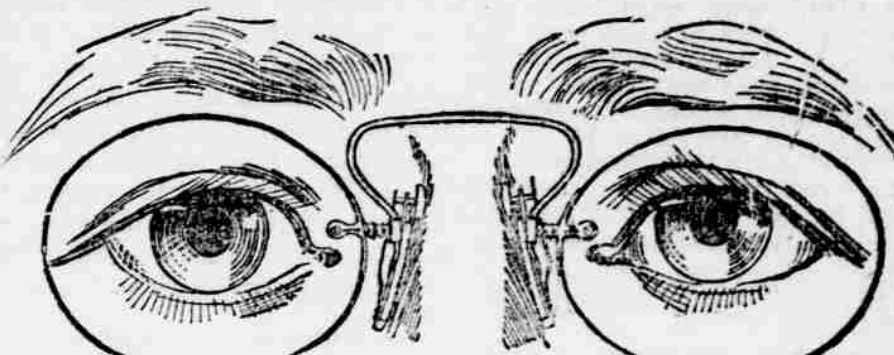

FOR ANTS
AND COCKROACHES

The ants and cockroaches stand just as good a chance of surviving a treatment of P. D. Q., as a snowball in a justly famed heat resort. It swats them and their eggs with a wallop that puts their whole generation out of business. Use it on furs in storage to kill and keep out moths.

A BEDBUG SPOUT
Every package of P. D. Q. contains a patent spout that fits any ordinary bottle. It will enable you to reach the hard-to-get-at places and save lots of juice. When buying look for the Devil Heads on every package of P. D. Q., then you'll be sure to get the genuine.
