Industrial Arts: Voyle Hybarger, woodwork; Russell L. Brown, woodwork; Frank D. Walker, printing; W. Miller, drawing.

When You Wash Your Hair Don't Use Soap

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain unsulfured coconut oil, for this is pure and entirely greaseless. It's very cheap and beats soap or anything else all the pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, right, fluffy, wavy and easy to handle. Besides, it loosens and takes out every article of dust, dirt and dandruff—d.

BEECHAM'S PILLS

They act promptly on the stomach, liver and bowels, removing waste matters and purifying the blood. Not habit forming, never gripe, but leave the organs strengthened.
