

EATON PHYSICIAN SUFFERS STROKE WHILE IN AUTO

EATON, Oct. 9.—While seated in his automobile going north on Barron street about 10 o'clock Sunday morning, F. M. Michael, pioneer physician and surgeon of Preble county, suffered a paralytic stroke which caused his death about 7 o'clock that evening. His entire right side and speech were affected.

His health and spirits Sunday morning were apparently never better. When he reached Mechanic street he felt the stroke coming upon him, and immediately stopped his machine.

A coincident in connection with the case lies in the fact that Dr. Michael's son, John A. Michael, chanced to be in the garage and answered the telephone call sent in by a passerby. He hurried to his father's side.

Taken Up Medicole

The deceased was a son of the late Fred Michael and was born 66 years ago near the village of Grati. Following the completion of public school courses he took up medicine. He located in Eaton and for the last 34 years had been actively engaged in his profession.

Besides having been the oldest practitioner, Dr. Michael was also accorded the distinction of having been the county's premier automobile owner. He also held membership in the local Masonic and Knight of Pythias lodges.

The deceased is survived by his widow, Minnie Foss Michael, and two children, John A. Michael and Miss Mary, both of whom live at home. M. F. Michael and John Fowble, both of this city, are half-brothers. Mayor Stanley B. Foss and Attorney C. C. Foss are brothers-in-law.

Arrangements for funeral services have not been announced.

SEES CAMBRIDGE FOR FIRST TIME SINCE CIVIL WAR

CAMBRIDGE CITY, Ind., Oct. 9.—Information of one of the earlier industries of the town was brought to light a few days since, when an elderly gentleman—Benjamin Scott, of Chicago, enroute from that city to Dayton, alighted from an interurban car, and made inquiry concerning George W. Shults, long since dead.

In conversation with Mrs. Ophelia Shults, his widow, and Mrs. Sarah Bronson, Mr. Scott stated that he came to Cambridge City, in 1862, with Messrs. Shults and James Lafever, father of Phillip Lafever, when they began the manufacture of wheels and hubs,
