CHANDLER SIX
\$1295
C. O. B. CLEVELAND

Chandler Price Will Advance December First

THE price of the famous Chandler Six will be advanced December 1st, 1916, and the present Chandler Model in every essential way will be continued for the forthcoming season. We have always listed the Chandler car at the lowest possible price consistent with manufacturing costs involved in producing this high grade automobile.

We had hoped earlier this season in spite of advancing costs of material to be able to continue the present \$1295 price. But conditions in the industry have now come to a point where this is impossible.

Our production costs today are fifteen and one-quarter percent (15¼%) higher than one year ago.

Our profit margin per car has always been small. And the price must, therefore, be advanced to make compensation for increased production charges.

You may purchase your Chandler car now with the assurance of a marked saving in purchase price, and with the equally important assurance that your Chandler car, purchased now, will be up-to-date next spring.

Distinctly superior Chandler features include the "Marvelous Motor" which with minor refinements from time to time has distinguished the Chandler car for four years past and which will be continued in the forthcoming series for next season; genuine Bosch high tension magnetos, the highest priced and most efficient form of ignition; Gray & Davis separate unit electric starting and lighting system; silent chain drive for motor shafts; solid cast aluminum motor base, extending from frame to frame; spiral bevel gear rear axle; and the most beautiful of all modern body designs.

Until the Close of Business November 30th
