Miss Carol Harriman, daughter of Mrs. E. H. Harriman, who was injured while following the Glen Arden hounds when her horse fell while taking a fence, is reported much improved today. Miss Harriman is an excellent horsewoman.

## FURTHER POWER REDUCTION PROMISED BY CITY PLANT

That by April or May next year the Richmond Municipal Electric plant will have paid for all the new equipment now being installed, which is to increase the plant's capacity about fifty per cent., and in addition, there will be in the plant's general fund an amount sufficient to provide for an \$80,000 plant bond issue which matures next July, was the satisfactory report made by Mayor Robbins to the council last night.

Mayor Robbins also announced that the plant, free of this indebtedness, would be in a position to provide a further reduction in power and, possibly, lighting rates.

**Bond Puts Purchase Over.**  
The \$80,000 bond issue was floated the first of this year to provide a part of the purchase price for the electric plant of the Light, Heat & Power company, which amounted to \$213,000. There will still be outstanding against the plant the \$139,000 of refunding bonds after the purchase bond issue is retired.

Council put its foot down on the practice of passing appropriation ordinances the session in which they are introduced, a practice known as "passage of ordinance under suspension of rules." Councilman Howells voiced the protest against the practice after an ordinance, providing an additional appropriation of \$5,000 for city plant payroll, had been put through.

**Council Grows Restless.**  
The council indicated last night that it was becoming fretful over the continued delay in the fulfillment of contracts for fire and police department contracts. The city is still awaiting the delivery of four motor chemical wagons and a motor ambulance-patrol, all ordered last summer.

The ordinance appropriating an additional \$5,000 for the city plant payroll was made necessary through the purchase of the L. H. P. electric plant. When the payroll budget was provided the increase in the plant's working force by the competing plant's purchase had not been anticipated. Supt. Kleinknecht, however, made his payroll appropriation last for ten months. The additional \$5,000 is for payroll for November and December.

**Burn Leaves On Street.**  
Councilman White called attention to the common practice of burning leaves on paved streets. He said he really did not blame householders for this because of the failure of the city trash haulers to make prompt collections of such refuse.

Councilman Weisaupt complained that trash collectors had not gone through many south end alleys for at least three weeks.

## In Fashion's Realm

Curious hat shapes have appeared recently. The designer is ever anxious to obtain something different and new. Apparently in the case of the illustration, she has succeeded and the result is that one finds a hat of pressed beaver with one-half of the brim cut and bent up to meet the crown at a severe angle. A spray of coque feather is placed flat on the brim.

### MOOSE INITIATE SIXTY CANDIDATES

Sixty candidates were initiated by the Moose lodge last night.

A publicity committee consisting of Benjamin Price, George Brenizer and Lynn Shaw was appointed to look after the advertising of the Moose minstrel show to be given at the Washington theatre, November 20. Rehearsals for the show will start tomorrow evening in the Moose hall.

**VOTES OF WOMEN**  
Do women realize that they already vote in the most effective way on important questions?

Every time a woman buys an article it is a vote, backed by money, for that article, a sincere approval of its merits.

So women have been voting on the question of health. When they have suffered from woman's ailments their vote has been overwhelming for Lydia E. Pinkham's Vegetable Compound, which they have bought and used with satisfaction.

## JOHNSON DENIES FIGHTING HERRMAN

GARRY HERRMAN

President B. B. Johnson, of the American League, is on record today as having denied that he said, as quoted by two local newspapers, that August Herrman, chairman of the National Commission would be deposed from that position. At the time of issuing this denial, "Ban" added this statement: "There will probably be a change in the complexion of the National Baseball Commission."

Herrman is president of the Cincinnati club of the National League, and has been chairman of the National Commission since the formation of that body under the agreement between the National and American League.

### GEORGE HODGE SINGS

A miniature automobile horn blown by pressing an electric button has been invented to replace doorbells.

## Feared Blood Poison; It Was Eczema

John H. Campbell, 1534 Main St. Tells of Remarkable Experience.

I have been cured of one of the severest and most obstinate cases of eczema that mortal could possibly be afflicted with. My case dates back ten months ago. My hand has swollen to twice its normal size and the itching, burning sensation was almost unendurable. My finger nails came off. I could not sleep and had no appetite. Could not feed or dress myself. A number of persons who saw my hands shook their heads and said I had blood poison.

I was seriously alarmed and thought of going to the hospital. In looking over my evening paper I was fortunate enough to note the D. D. D. ad. I went at once to my druggist. He was amazed and told me I had one of the worst cases of eczema he had ever looked at. But he told me he knew of some bad cases that had been cured and entirely cured by the D. D. D. eczema remedy. After the first two or three applications of D. D. D. I found to my utter and very agreeable surprise a marked improvement. After using the third bottle my hand, wrist and arm had a new soft skin almost without scar or blemish.

Any afflicted as I was and so miraculously cured, may address me and learn more of this wonderful remedy, D. D. D., and what it did for me.

JOHN H. CAMPBELL,  
Ex-Soldier of the Civil War, 1534 Main street.

Drop in and let us tell you more about this remarkable remedy D. D. D. Prescription. Or write at once to the D. D. D. Company, Chicago, Department 512, for Free Sample Bottle. Quigley Drug Company.—Adv.

## BOYS CAST BALLOTS

Politics supplanted mathematics and history at the high school this afternoon when the boy students cast their "first" ballots. The Junior municipality election was the occasion. Although "ward heeling" and "lobbying" among the student body in halls and class rooms was a common occurrence no "rough stuff" or "crooked work" was "called." The girls were not allowed the ballot.

## Peeling the Skin is Better Than Bleaching

Ever since the discovery that mercorized wax would scorb and remove a discolored complexion, its use by ladies as a substitute for bleaching creams has grown rapidly. A perfect complexion can be maintained indefinitely if this remarkable substance is used. Its beneficial cleansing, clearing and preservative action is quickly apparent, and ladies who have been paying high prices for "special bleach" from beauty specialists, soon recognize that mercorized wax outranks them all. It has become so popular that it can be obtained at all druggists, who have it in original one-ounce packages. The favorite way of using it is to apply it like cold cream, before retiring, washing it off in the morning.

The salolite lotion for wrinkles and the facial contour has also become extremely popular. One ounce powdered salolite is dissolved in one-half pint witch hazel. Bathing the face in this has a splendid effect in erasing wrinkles and improving contour.—Adv.
