WHEAT JUMPS FAST ON EXPORT REPORTS

CHICAGO, Nov. 22.—Wheat went up swiftly in value today owing to rumors that export business yesterday far exceeded the total which had been announced. The December delivery was especially strong. Argentine crop advices were the most bullish yet received, doubt being expressed whether there would be any exportable surplus at all this season. Opening prices which ranged from 2% to 2% higher, with Dec at \$1.83% to \$1.84% and May at \$1.89 to \$1.90%, were followed by decided further gains, and then a material downturn.

Corn advanced with wheat. Unfavorable crop conditions in Argentina tended to accelerate buying. After opening unchanged to 3% higher, the market score sharp gains all around, and then underwent a sag. Oats was sympathized only to a moderate extent with the upturns in other cereals. Trade was light.

Higher quotations on hogs gave firmness to provisions. The market was also bullish affected by the action of grain.

Miss Helen Clark and Herman Seelye Show How Mechanical Genius and Artistic Endowment Can Work in Perfect Harmony.

We live in an age of wonders which to determine the line of musical cleavage.

This was illustrated yesterday afternoon when an audience which packed the Murray theatre, as guests of Harrison's Edison Section, listened to a program presented by one of the most widely known Edison stars, Miss Helen Clark, the possessor of a rich and melodious contralto, assisted by Mr. Herman Seelye, cellist, in combination with the Edison phonograph, the purpose of the recital being to show the accuracy and truth with which the latter recreates the tones of the human voice and of musical instruments either singly or in the aggregate.
