

CUB GIVES THANKS THAT IT'S ALL OVER; HE SHOWED DIET SQUAD FEW POINTERS

BY THE CUB

Now that Thanksgiving is over I am thankful. Thankful for several reasons.

In the first place I am thankful that Thanksgiving does not come again for 365 days. Second, I am thankful that Christmas is still, some twenty-five days distant. But mostly, I am thankful that I will get a square meal again today.

No doubt it may sound sacrilegious for me to talk this way about the day that was set aside by our Pilgrim Fathers as a day on which to give thanks for the good things that have been forthcoming in the year. My impression, however, is that fellow who elaborates on the worth of Thanksgiving Day is making his effusion while under the influence of numerous helpings of turkey, chicken, sweet potatoes, dressing and other sundries essential to the completeness of a typical Thanksgiving Day observation.

Consider This Menu.
The fellow who would be unjust and hard-hearted enough to criticize my criticism on Thanksgiving Day should but pause for a moment and consider apples, crackers and canned milk as a Thanksgiving Day menu before spilling the harsh words. Can you blame me—a well meaning and sometimes hard working young man whose home folk were thoughtful enough to journey to the country at a time when the home commissary department held only those three articles, viz: apples, crackers and canned milk.

Pause a moment and peruse the facts carefully. No matter what your previous convictions might have been, you

Like A Boy at 50 Bubbling Over With Vitality---Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders—Often increases the strength and endurance of delicate, nervous folks 200 per cent. in two weeks time.

NEW YORK, N. Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was not without standing his age. The secret he said was taking iron—nuxated iron had filled him with renewed life. At 30 he was in bad health; at 40 careworn and nearly all in. Now at 50 a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while,

double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron. If you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.—E. Sauer, M. D.
Note—Nuxated Iron, recommended above by Dr. Sauer is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Conkey Drug Co., Thistlethwaite Drug Stores and all other druggists.—Adv.
