

## PROTEST TO LOCATION SELECTED FOR TOWNSHIP HIGH SCHOOL

The following statement has been submitted:

We understand, the plans are being quietly made to build a Wayne township high school building at Sevastopol, District No. 10.

These plans were defeated in 1915, by the patrons from districts No. 13 and No. 15, compelling the authorities to build them new buildings. At that time, Spring Grove put forth an effort to secure the township high school building in connection with their grade building.

Offering them fire protection, gas, and water supply, thinking this would be an inducement, when they were a mile nearer the center of the township than Sevastopol. But the authorities seemed to think the latter was the ideal location.

**Object to the Location.**  
However the location is all right, if we did not wish to take into consideration where the pupils were to come from, that would hope to attend the school which their funds had built. The pupils from district No. 11 are now put into Garfield school, and then to the Richmond high school.

Graduates from Sevastopol, and an occasional one from No. 15 are the only pupils from the western part of the township. Why should we have the school so far removed from the pupils?

The school authorities "hobby" for locating the building in such an unreasonable location, is on account of the street cars, they say.

We would like to ask, who of the country pupils, which mostly drive to school, would leave their horses and take the car, then leave the car to walk through three squares of the worst mud road in the township?

They would rather have the school nearer the pupils, till many more could walk, and over improved roads. Most of the pupils would come from the East or North part of the township, and no one seemed opposed to Spring Grove but the authorities.

**Asks for Central Location.**  
Why not use the central location of the township, the Twelfth street hill? This affords good roads from all di-
