MATERIAL DECLINES IN WHEAT PRICES DEPEND ON BREAK

(By Associated Press)

CHICAGO, Feb. 14.—Material declines in the wheat market resulted today from the unpromising outlook for an avoidance of hostilities with Germany and because of the absence of relief from railway congestion. Commission houses were generally on the selling side. Support was limited. Opening prices, which ranged from 1/2 to 2c lower with May at \$1.72 to \$1.73 1/2 and July at \$1.47 to \$1.47 1/2, were followed by a slight rally but then by a fall further than before.

Corn turned down grade with wheat. Elevator companies headed the selling. After opening 1/4 lower, the market underwent a moderate additional set back.

Oats followed the descent of other cereals. Trade was light.

Weakness developed in provisions despite firmness of the hog market. The causes were the same which bearishly affected grain.

I sleep sound all night and my appetite is fine. I have tried medicines without success until I used Vitalis. I can highly recommend Vitalis to my friends as a general all around reconstructive tonic, for enriching the blood, strengthening the nerves, aiding digestion and building up the entire system. (Signed) C. L. Weekley."
