

KAISER THINKS SMALL NEUTRALS FAVOR TEUTONS

(By Associated Press)

AMSTERDAM, Via London, Feb. 15.—The German newspapers print telegrams from Vienna describing a conversation between the German emperor and Dr. Hans Mueller, "the poet of royalty," at the Hofburg. Dr. Mueller mentioned the emperor's letter to Chancellor Von Bethmann-Hollweg supporting the peace offer of the central powers. The emperor replied:

"The letter had to be written. Now the entire world knows who is imposing this crime war on it."

"On our side are right and morality and to make these triumph every clean weapon must be welcome to use. Look at the European neutrals. Read the Swedish reply. It is a document written as if for eternity. Now, all neutrals know how they must estimate our strength and also our will for peace. For the first time, in a certain sense, the declared will of small states is against the Anglo-Saxon world. Napoleon's continental blockade becomes a reality which hits England harder than anything heretofore."

PACIFIST OFFERS FORTUNE TO NATION

HENRY FORD.

Henry Ford, millionaire auto manufacturer and organizer of the Ford Peace Mission, who's slogan a year ago was "Get the boys out of the trenches!" has evidently determined that Germany cannot be induced to a reasonable viewpoint of international law.

Mr. Ford has offered the United States his entire fortune in the event of war, to be used for defense and without interest. He stated the pacifist is the worst kind of a fighting man when aroused, and it is evident that Mr. Ford is aroused. This is practical patriotism and is only another evidence of the speed with which America responds to the call in time of danger.

WOUNDED CUBAN KNOWN IN FRISCO BY MANY PERSONS

(By Associated Press)

SAN FRANCISCO, Cal., Feb. 15.—General Enrique Lozano Del Castillo, reported wounded yesterday in the Cuban revolt, represented Cuba at the Panama-Pacific Exposition here in 1915.

The Cuban commissioner was one of the most picturesque figures in the foreign colony and was most punctilious where his honor was concerned. On two occasions he issued challenges to mortal combat, thinking his dignity or the honor of his country had been affronted.

He challenged Director General Skiff, of the exposition and in order to avert hostilities President C. C. Moore and his staff, attired in full dress, made formal apologies on behalf of Skiff. On another occasion the general challenged Charles Page Bryan, former ambassador to Japan, because Bryan playfully slapped him on the back.

Mrs. McKinley alleges that her right hand was badly mangled in a drying machine with which she was working at Brown's factory and that she has been unable to use it since. SHORTAGE OF CARS DUE TO EMBARGOS ON EXPORT PRODUCTS

(By Associated Press)

NEW YORK, Feb. 15.—The immediate cause of the serious freight congestion reported by many interior cities, railroad men declare today, is their policy of refusing shipments to New York of freight for export until the shipper can prove that he has cargo room engaged so that his goods can be loaded on a boat immediately after its delivery here.

The rigorous application of this rule has transferred the accumulation of freight, that otherwise would be piled up here to the warehouses at manufacturing and producing centers in the west and south.

As the base of the freight transportation situation a number of causes are assigned. Among these are the reduction on the amount of freight leaving New York because of Germany's new submarine policy, cold weather and snow which has delayed trains and interfered with truck deliveries in cities, and shortage of cars.

The car shortage, according to W. G. Besler, president of the Central Railroad of New Jersey is due to the congestion of loaded cars at terminal points and the difficulty experienced by consignees in unloading their goods.

Our conscience is the policeman who has arrested us and every soul of us is brought to the judgment bar of God."

Dr. Deever will preach tonight on "Christ, Our Only Hope."
