

# PERMIT WILSON TO ARM SHIPS; PLOT ADMITTED

(By Associated Press)  
WASHINGTON, March 2.—Passing of the first shock of yesterday's authenticated disclosure that Germany plotted to incite Mexico and Japan to war against the United States, found government agencies today more closely united in spirit against threatened danger, and waiting with keen interest official statements from Mexico and Japan defining their attitudes.

Officials confidently looked for expressions of friendship from both, and consequent collapse of the German intrigue.

Nevertheless, preparations were hurried long for whatever may confront the nation. The bill authorizes President Wilson to arm ships and providing a bond issue of \$100,000,000, passed by the House late last night by a vote of 403 to 13 after ten hours debate, was in the Senate's hands, and action was expected late today or tonight.

The Senate, in response to its formal inquiry, had President Wilson's official assurance that the version of German foreign minister Zimmerman's note to the German minister at Mexico City, proposing the plot, as revealed yesterday by The Associated Press, was authentic.

The President disclosed that the communication came into possession of the government this week, but expected the opinion that it was "incompatible with the public interest" to give the senate further details concerning it at the present time.

# SYMPTOMS RABIES DISCOVERED IN HEAD

Dr. Lou Clem, city veterinarian, has been informed by the state health department that an examination of the head of a dog recently killed in West Richmond had revealed symptoms of rabies. It is known that this dog attacked several other dogs before he was killed.

George Jenkins, superintendent of the crematory, reported today that during the past month fifty-eight dogs were killed and cremated at the plant. "Almost as many dogs were killed in January," Jenkins said, "and if the present dog killing rate is maintained all year there will not be many howls left in this city."

# LATIN-AMERICANS SCOFF AT INTRIGUE

(By Associated Press)  
SANTIAGO, March 2.—Germany's attempt to involve Mexico and Japan with the United States, in the event of hostilities between Germany and America, has attracted wide spread attention here. It is scoffed at by the press which regards it as a futile move. La Nacion draws the conclusion from this event that Latin-American countries should come into closer union and formulate a policy of conserving neutrality.

# HOG RAISERS GET RICHMOND GARBAGE

The February report of the city crematory shows a decided falling off in the amount of garbage reduced there. Superintendent Jenkins states this is due, in a great measure, to the number of farmers who are now collecting garbage in Richmond to feed to their hogs. "Corn is so high now that a number of farmers have stopped feeding it to their hogs and are collecting garbage," Jenkins reported.

# Court Records

Thomas Hughes, 16, charged with petit larceny was permitted to go free pending good behavior by Judge Fox in circuit court today. It was alleged that Hughes was in a party of boys who recently went on a chicken thieving trip.

Sheriff Clem Carr today started serving subpoenas for the grand jury session which starts Monday.

Ten cases, some of a sensational nature, are scheduled to be investigated. Prosecutor Strayer said today that grand jury can probably clean up all cases in a week's time.

The nature of the alleged law violations which are to come under the X-Ray is being carefully guarded. It is generally understood, however, that the crusade against resorts will be continued.

City Attorney Bond said today that the appeal of the City of Richmond from the award of the public service commission establishing new gas rates for the Light, Heat and Power company will be tried some time this month. All preliminary issues have been disposed. Judge Gause, New Castle, is the special judge in the case.

Twenty-eight arrests were made by Sheriff Carr last month.

The estate of the late Thomas J. Reilly is valued at \$3,000 in the application for the appointment of an administrator filed in circuit court today. The heirs are Eliza Reilly, mother; Katherine Reilly, sister; Bernard Reilly, brother; William Reilly, brother.

Again Revealing the Health-Giving Power of Sweet's VITALIS

It is the old, old story of the marvelous work of the great reconstructive tonic, VITALIS, told in this instance in a remarkably frank manner by a very grateful woman. Read what she says:

"I have been sick for a long while and was in the hospital for several weeks last summer. My whole body was out of order and it seemed I never would recover. I was not able to do my work and could not get around. Was advised to try Sweet's Vitalis and purchased some. After taking but a few bottles I have not an ache or pain, am doing my own work and can go

any place with ease. I am so thankful to the Vitalis people that I can hardly express my thoughts and want anyone that is overworked or in a nervous condition to try this marvelous tonic. Call and see me and I will tell you what it has done for me. It touches all the aches. (Signed) LEONA ZINK"

Sufferers from nervous disorder, kidney, stomach or liver trouble—people in a general run-down condition, who cannot sleep—have no appetite. To those sufferers VITALIS brings a message of relief, pointing the way to enjoyment of health and happiness.

# SECRET DIPLOMACY LEADS TO INTRIGUE OPINION IN LONDON

(By Associated Press)  
LONDON, March 2.—"The wickedness of secret diplomacy," is the moral the Manchester Guardian draws and which it believed most people will draw, from the account of German intrigues in Mexico.

"President Wilson would seem to have drawn it," the newspaper says, "and we are inclined to think the publication of the story the most significant thing that has happened between neutrals and Germany since the United States broke off diplomatic relations with Germany."

While the Guardian contends that German methods are worse than those of the diplomacy of other nations it believes the vices "which are nauseous in the Mexican story are inherent in every system of secret diplomacy," and it advocates the cleansing of diplomatic stables after the war and a return to candor, integrity and straightforwardness in international affairs.

"One cannot read a story like this," the newspaper adds, "without falling in love with the virtues of candor, simplicity and loyalty in public affairs."

Sore throat may mean a number of disagreeable and perhaps dangerous things to come. Ward off sore throat by using Turpo liberally. Rub it in.

The turpentine penetrates; the camphor and menthol cool and soothe the surface. Turpo takes the place of turpentine and lard—it's the old-fashioned remedy in a newer, better form.

It has many other uses besides relieving colds—it heals cuts, burns, bruises, sprains; and relieves headache, earache, neuralgia, and other aches and pains.

Buy Turpo at any drug store. The 50c size is three times as large as the 25c size.
