### FOUR-FOLD BENEFIT

From Two Grand Medicines in Spring. You know that physicians often give two prescriptions, perhaps more medicine to be taken together or alternately, or at different times.

One reason may be that the medicines are "incompatible"—do not agree when closely mixed in taking—or that desired results cannot be secured by one medicine alone.

The most successful combination spring medicine treatment that we know of—because perfectly "compatible" and productive of the best results—is in Hood's Sarsaparilla and Peptiron Pills. The former thoroughly searches out and expels impurities from the blood, while Peptiron Pills give the powerful tonic—they literally "put iron into your blood."

Hood's Sarsaparilla should be taken before meals and Peptiron Pills after meals—patients taking them so report the benefit is four-fold—prompt, positive, permanent. Both these medicines are economical and pleasant to take.—Adv.

## MRS. HICKS-ROBBINS ATTEMPTS SUICIDE ON TRAIN PLATFORM

Mrs. Georgia Sauer-Hicks-Robbins, wife of Ray Robbins, residing over 713 Main street, is recovering today at the Pennsylvania station yesterday afternoon following a quarrel with her husband.

Mrs. Robbins' suicidal attempt was a most dramatic one. The screams of the agonized woman caused great excitement at the station. She was hurried to Reid hospital after first aid treatment had been administered and her recovery is now assured unless unexpected complications set in.

Witnesses to Mrs. Robbins' suicidal attempt state that they saw the woman standing on the steps of a car on a train which leaves for Cincinnati about 4 o'clock, talking excitedly with her husband, who was standing on the platform of the train shed. As a climax to what was said to have been a stormy argument between husband and wife, Mrs. Robbins took a small bottle of carbolic acid from a hand-grip and swallowed its contents.

Screaming from the agony of her burns, Mrs. Robbins, it is said, called to her husband to help her. Robbins and the brakeman of the train seized the woman and carried her to the station rest room where she received first aid treatment before being taken to the hospital.

It is said that Mrs. Robbins was despondent, because she feared her husband intended to separate from her. She decided to go to Cincinnati and Robbins accompanied her to the station. In saying farewell to him, it is said, Mrs. Robbins denied charges that her husband is said to have made against her.

Robbins accompanied his wife to the hospital and has been at her bedside most of the time.
