

Jones Sees Car As Best Ally When War Hits

In case of war, Uncle Sam's ally will be the motor car, says J. Morris Jones, manager of the Auto Sales Company, Wayne county agents for Monroe and Chevrolet cars.

War with its attending confusion would soon tie up the leading railroad lines. Transportation of men, munitions and supplies would tax the capacity of the roads even where they are not confronted with doubly difficult task of first supplying needs at home, is the opinion of Mr. Jones.

"Right at this stage of the game is where the motor car will come into its own," says Mr. Jones. "Motor trucks and motor vehicles of every sort and description will be pressed into service in answer to the call of transportation facilities."

Buick Models Prove Winners

During the last year the distinctive design of the Buick Motor Company's latest models have been seen more frequently on Richmond streets and Wayne county roads.

This is due in large part to the impetus given to the selling work in this section by the labors of Harry Chenoweth, proprietor of the Chenoweth Garage at 1113 East Main street.

During the last two weeks Chenoweth has brought 41 Buicks overland from the factory at Flint, Mich. Since he came to Richmond a year ago he has sold more than 60 Buicks in his territory, which includes the eastern half of Wayne county.

Reid Reveals Chalmers Code

Increased popularity of the Chalmers models is due to that company's ever-increasing regard for the comfort of the purchaser, according to Irvin Reid,

Meritol
ADAPTA
POSITIVE EVIDENCE
from many people who have been cured of Eczema by using
EZEMA REMEDY

is proof of its merit. Try it today. Sold only by us, 50c and \$1.00. This is the best of the Drug Stores, Richmond, Ind.—Adv.

Woods Handles Two-Power Car

There have been gasoline-propelled automobiles on the market for nearly a score of years and electric motors have been sold for a somewhat lesser period.

But the first practicable combination of the two forms of propulsion was evolved by the Woods Electric company.

Harry Wood, widely known Richmond motor car dealer, has the agency for the Wood Dual-Power machine in this territory and has a model on exhibition in his sales room at 1120 East Main street.

Wood also is agent for the Detroit Electric and the Detroit, a gasoline machine.

who is Richmond agent for these high-grade motor cars.

The new Chalmers sedans have won the name of "sun parlors on wheels" because of their luxurious appointments.

In addition to displaying Chalmers cars in his sales rooms at Seventh and Main streets, Reid has a full line of Allen machines.

This season's Allens are painted blue and the effect is at once unusual and distinctive.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if back hurts or Bladder bothers—Drink lots of water

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

Paige Makers Report Bright Prospect Ahead

Fairly bubbling over with optimism is the report received by Charles Knoll, local agent for the Paige-Detroit car, from the corporation's president, Harry M. Jewett. The fact that the Paige company has something like \$5,000,000 worth of bona fide orders on its books, is emphasized in this annual resume of the company's business and prospects.

A few reasons for the company's success as taken from Mr. Jewett's report:

The Paige was the first company to build into the motor of a car of the \$1,000 class an electric starting and

lighting system which became an integral part of that motor.

The Paige was the first car to offer in the \$1,000 class a car with fore doors and multiple disc cork insert clutch.

The Paige introduced the floating flexible drive.

Lexington Sells Here Rapidly

E. R. Draver and his son, Orrin, who are agents in Richmond for the Lexington motor car attribute some of the

success of their selling campaign to the fame of the head of the Lexington company.

E. W. Ansted is president of the Lexington firm, which manufactures this popular car at Connersville, and is one of the most widely known business men in Indiana.

The new Lexington model is the best ever developed by this firm and

a large sale is predicted for this season.

Orrin Draver is the chief salesman and demonstrator for the local firm.

The Aero Club of American recently acquired control of \$10,000 to be offered as a prize to the discoverer of a fuel more suitable for serial navigation than gasoline.

—the tooth paste that is fighting the most general disease in the world. Use it twice daily. See your dentist twice yearly.

Get a tube today, read the folder about this disease, and its symptoms and start the Senreco treatment tonight. 25c at your druggist. For sample send 4c stamp or coin, to The Senreco Remedies Co., Cincinnati, Ohio.

A DENTISTS FORMULA

VEGETABLE CALOMEL

Vegetable calomel, extract of the root of the old-fashioned may-apple plant, does not salivate. As a liver stimulant, it's great. It's a perfect substitute for ordinary calomel (mercury); in fact, it's better, because its action is gentle instead of severe and irritating—and it leaves no mean, disagreeable after-effects. Physicians recognize this and prescribe may-apple root (podophyllin, they call it) daily.

Combined with four other standard, all-vegetable remedies, may-apple root may now be had at most any druggist's in convenient sugar-coated tablet form by asking for Santal Laxatives. If you forget the name, ask for the box that has the picture of the soldier on it.

These tablets are small, easy to take and are really wonderful little performers.

They quickly clean out the poisons that are causing you headache, constipation, sour stomach, biliousness, dizzy spells, bad breath and coated tongue.

They are mild. They never gripe. And they are a bowel tonic as well as a cleanser and liver regulator. A 10c box should last one several weeks. A Physician's trial package (4 doses) will be mailed you free if you write mentioning this advertisement. The Santal Remedies Co., 802 Madison Ave., Covington, Ky.

Weeks of Waiting for a HUDSON SUPER-SIX A Situation You Can Now Avoid

Last spring we faced this condition:

Thousands of men waited weeks for delivery. Thousands turned discouraged to a second choice.

Last year we built 25,000 Hudson Super-Sixes. This year's output will be 30,000—not a great advance.

Early last year the Super-Six was unknown. It was a new invention—an enigma. Some said an experiment.

It has since won all the worth-while records.

Its praises are sounded by more than 25,000 owners.

It holds today undisputed world supremacy.

New York Show sales broke all records. In every section the demand is unprecedented for this time of year.

Another over-demand seems inevitable—and near.

Last year the Super-Six outsold any other fine car. This year's demand seems likely to be doubled.

So we urge that fine-car buyers decide the question now.

The first thing, and the chief thing, to consider is the motor. And its chief virtue is absence of vibration.

Vibration causes friction. In the average type it wastes half the motor's power. It restricts performance, it causes wear, it prohibits endurance.

The Super-Six invention—a Hudson patent—almost eliminates friction. So nearly that it added 80 per cent to the six-type efficiency, and made this type supreme.

It has proved that by winning all worth-while records. That is, all stock-car records for speed, for hill-climbing, for long-distance endurance, and for quick acceleration.

It excels in all sorts of performance. And

it probably doubles the life of a motor, due to this minimized friction.

FIRST IN ALL WAYS

All the latest Hudson bodies were designed for this top-place car. Every item of beauty and luxury shows their leadership.

In engineering, the Hudson staff has held first place for years. Everyone concedes the leadership of Hudson engineers.

This year, a new gasoline saver gives another important distinction. A shutter controls the heat and regulates the combustion efficiency of the motor.

So the fine-car buyer who buys on merit is bound to choose the Hudson. And this is to urge that you find it out in time to get prompt delivery.
