EATON, O., March 31.—To celebrate its centennial anniversary, residents of the village of Grati, second oldest corporation in Preble county, will hold a big home-coming June 11. Tentative plans have been made and committees have already been named to arrange details.

The town was laid out in June, 1817, and given the name of Winches-ter, which was later changed to Grati.

New Way to Remove Hairs Creates Sensation (Actually Takes Out The Roots)

What beauty specialists regard as one of the most important discoveries in recent years is the phelactine method of removing superfluous hair. Its great advantage, of course, lies in the fact that it actually removes the hair roots. It does this easily, instantly, harmlessly. Sufferers from the affliction named need no longer despair. The actual hair-roots come out before your very eyes, leaving the skin as smooth and hairless as a babe's.

Because it offers such complete relief a stick of phelactine is the most inexpensive thing a woman can buy for the removal of hairy growths. For the same reason druggists do not hesitate to sell it under a money-back guarantee. You can use it with entire safety; it is so harmless one could even eat it without any ill effect.
