## This Veteran Traveling Man Says He's Cured

A. Lynn of the Adams Bag Co., Volunteers a Wonderful Nerv-Worth Story

This widely known Columbus, O., man, who for 17 years has represented the Adams Bag Co. of Cleveland, on the road, not long ago signed his name to the following:

Nerv-Worth Co.: At my home in Columbus I had doctored for some time for indigestion, weakness, etc., without getting relief. While in Cambridge, O., I bought a bottle of Nerv-Worth and put it to the test. Soon found it was helping me. Found decided relief after taking the first bottle. Two weeks later at Clarksburg, W. Va., I bought another bottle of Nerv-Worth. After taking that I felt still better—stomach much improved. More strength, vim and vigor. I used four bottles of Nerv-Worth and AM ENTIRELY WELL. Can eat anything I want without distress. A. LYNN.

## MILTON, IND.

The Juniors gave a reception at the home of Ernest Jones, Thursday evening, honoring the Seniors. The house decorations were very beautiful features being ribbons, festooned around the rooms and in the dining room in which the colors purple and white formed attractive arrangements. Flowers also in the colors were used very effectively for artistic arrangement. The evening was very pleasantly spent by the company, which included the guests, as follows: Prof. and Mrs. L. E. Thompson, Miss Cora Wise, G. W. Crull, trustee, Miss Nellie Jones of Economy, supervisor of music, Misses Blanche Moore, Alma Wagner and Marie Snyder, grade teachers. The Seniors Minnie Higham, Laura L. Bertsch, Dorothy Hoshour, Harry L. Gause, Rollin W. Davis, Howard L. Passon and Robert Kirtley. The evening was delightfully spent in music and games. Pretty refreshments, in which the class colors were carried out as nearly as possible, were served by the Juniors. Ernest Jones, Clarence Trine, Glen Wolford, Neal McMahan, Lisle Null, Ruth Kimmel, Irma Shaffer, Katherine Snyder, Vivian Bennett and Olive Bryant. The Sophomore girls, Mary Ballard, Beulah Hall and Mary Connell acted as waiters. Favors were the cream roses, the class flower. The Class Prophecy was given by Vivian Bennett and the Class History by Olive Bryant.

## Knocks Obstinate Coughs in a Hurry

A Simple Home-Made Remedy that Gets at the Cause.

Thousands of people normally healthy in every other respect, are annoyed by a persistent hacking-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will and such a cough easily and quickly.

Get from any druggist "2 1/2 ounces of Pinex" (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract combined with guaiaac and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

## ECONOMY

A telegram was received today from Linden Hiatt, one time a resident here and now of Fruita, Colo., by relatives stating he was in the hospital where he was recovering from an operation for bladder trouble. He has many friends and relatives here, also at Richmond. Mr. and Mrs. Nain Mundelle and daughter, Mary, Indianapolis, arrived here Thursday as the farm guests of Mr. and Mrs. Oliver Hiatt. Mr. Mundelle has been connected with

the Indianapolis postoffice for 20 years and is yet, but he came here to fight the H. C. of Living by putting in a vegetable garden on Mr. Hiatt's farm. Not a hill of field corn planted in Perry township yet. Thursday afternoon dozens of plowmen worked in the fields with strong anticipation of planting "just one field this week for early corn," but Friday morning rain put a quietus on all farm work for the present. Thomas Frasier reports that Irish potatoes he planted some 3 weeks ago are rotting. Some early oats and clover are also reported killed and were resown.

## The "Millionaire Regiment" and Fatimas

Last summer while New York City's famous 7th Regiment (sometimes called the "Millionaire Regiment") was encamped on the border at McAllen, Texas, a record was kept of all cigarettes sold.

Fatima's sales averaged 42,680 per month; the next most popular cigarette averaged 17,600.

This big preference for Fatimas is simply one of the many indications that more and more men,

every day, are finding that Fatima's delicately balanced Turkish blend is not only more pleasing in taste, but is far more comfortable too.

More comfort while you're smoking and also afterwards. For, even though you may smoke more than usual, Fatimas never remind you of it. They're a sensible smoke.

The next package you buy—get Fatimas.

## MILTON, IND.

Andrew Kerber of Milton, an up-to-date young farmer, who has been conducting some germination tests, found that the seed corn that was taken from a field well advanced before frost and properly stored, that the percentage was 99. A test made from corn from cribs, filled from another field did not germinate 8 per cent. For those who will not be able to germinate corn because of the shortness of time before planting, Mr. Kerber states that a great deal may be done by the eye by a careful examination of the corn. He warns farmers to avoid bleached ears, ears with dull, or discolored cobs, ears that the tips of the grain breaks off too short when shelling. He also states that ears with shriveled corn should not be used and that blisters in the heart indicate low vitality. The heart of the grain should be oily, or soft and not shelly or hard, and the germs should be white. He also warns farmers to be watchful of corn from seed houses. He states that he purchased seed from a seed house and found that it did not test over 50 per cent of really strong ears. The C. W. B. M. of the Christian church met with Mrs. F. C. McCormick at the Christian church parsonage Friday afternoon. An interesting program was observed.
