WHEAT PRICE EASED BY SHIPPING NEWS

CHICAGO, June 30.—Announcement of the first arrivals of new wheat this season at the Atlantic seaboard ready for shipment to Europe tended today to ease prices here. Business, however, amounted to scarcely enough to establish quotations. The opening, which ranged from 1 to 1 1/2 lower, with July at 2.00 and September at 1.80, was followed by a slight rally. Favorable weather and prospect of its continuance led to down turns in the value of new crop deliveries of corn. The July option, though, as a result of scarcity of old corn, proved firm. After opening 1 cent off to 1 1/2 cent up the market weakened a little further for September and December, but hardened for July.

Reports that new oats were moving freely from first hands eased the oats market perceptibly. It was said crop conditions could not be improved. Provisions headed down grade, influenced by lower quotations on hogs.

Finger-Prints to Mark Blue-Jackets

WASHINGTON, June 30.—Officers and men of the navy are to wear facsimiles of the prints of the index fingers of their right hands on their identification medals, according to orders made public today by the navy department. The order directs that every man in the service be provided with a tag of non-corrodible metal with "U. S. Navy" and his finger print etched on one side and the date of his birth and enlistment and the rank he holds in the service indicated on the other. The finger print will furnish additional means of identification.

AMERICAN OFFICERS TOLD HOW ITALIANS CHECKED SUBMARINES

WASHINGTON, June 30.—Heavy Austrian reinforcements from the Russian front have been thrown against the Italians in the Trentino according to Italian embassy dispatches. They deny that the Italians have been driven from their new position on Mount Ortigara.

Some of the means by which Italians reduced the submarine sinkings of the Italian vessels last month to only one vessel of over 1,600 tons were also described in the dispatches. The coast at present is guarded, among other things, by coast guns on trains, fast motor boats, hydroplanes and small dirigibles, torpedo boats and even submarines.

The prince of Udine, head of the war mission here, in a talk today to American naval officers, told of his experiences during two years of warfare as commander of a destroyer and explained Italy's system of hunting submarines.

Gray Will Become Chaataqua Orator

CONNEERSVILLE, Ind., June 30.—Finly H. Gray, recently defeated in the Sixth district congressional election has announced that he has accepted chaataqua engagements which will include between 60 and 70 speaking dates in three of the northwestern states.

Mr. Gray is a lover of the great outdoors and he intends to purchase a farm, spend six of 12 months in agricultural work and the other six months in chaataqua and winter lyeum duties.

Mr. Gray said today he has a message to put before the American people, a lecture on the European war. So much impressed were the chaataqua managers that they wired the former congressman that they could guarantee him audiences of three years to come.

COMMERCIAL CLUB AND SOUTH SIDE IMPROVERS HAVE GET-TOGETHER RALLY

Talks by President Lents and Secretary Albus of the Commercial club were made at the meeting of the South Side Improvement Association last night.

The South Side club responded through President Adolph Blickwedel and Secretary Hans Koll. The meeting was a get-together affair between members of the two clubs, and assurances of mutual support and co-operation were made by all the speakers.

but this class will be the last American battleship to be equipped with that type of propelling machinery; future ships to have the turbo-electric drive.

There are no secrets about the Idaho's construction, except modifications made after her hull had been laid down to give her greater security against submarine attack. Navy designers believe the vessel will be a hard problem for a submarine and she cannot be sunk with a single torpedo.

Anti-Aircraft Guns
There will be 22 five-inch 51 calibre rifles swung along the Idaho's sides as her protection against torpedo craft; four 3-inch anti-aircraft guns of the long range type recently designed by the bureau of ordnance will make it dangerous for hostile aircraft or Zepplins which seek to approach her, her great battery of powerful searchlights will turn night into day when the ship has need to use her armament after dark.

AMERICAN GOLD REMINTED

MEXICO CITY, June 30.—American gold coins are being reminted in Mexico at a profit to the Mexican government. Many taxes, federal and state are paid in American gold which by decree is accepted as the equivalent of \$1.90 Mexican money. The gold in each \$10 American piece, however, is sufficient to make two "hidalgoes" or Mexican ten dollar pieces.

torpedo tubes supplement the terrific broadside weight of the ship's guns. Like the Pennsylvania, the Idaho will need 26 senior, 16 junior and ten warrant officers; forty chief petty officers and more than 800 men, as her fighting complement.

May Be Flagship.
She will carry seventy marines and be fitted with quarters for an admiral and his staff in addition to the regular officers' quarters, so that she may carry the flag of the commander-in-chief of the fleet if necessary.

The Idaho, Mississippi, California, New Mexico, Arizona, Pennsylvania and Tennessee will be the last American battle craft afloat to carry twelve 14-inch rifles in their main batteries. They will complete a wing of seven gigantic vessels with this armament and next from the ways will come the West Virginia, Washington, Maryland and Coring sisters, eight 16-inch rifles. Behind these will come the new class of 42,000 tonners, five of which have already been authorized which will carry twelve 16-inch rifles.
