

## WHOLE NATION ASKED TO CAN FRUIT SUPPLY

NEW YORK, July 5.—In order to prevent waste now that fruit and vegetables are coming into the market in large quantities, an extensive food canning and drying movement has been started by organizations of prominent women of the city.

These women, members of the Junior League, co-operating with the Women's University club and the mayors committee of women, have divided the city into 46 districts.

System of Organization.  
Each district has a central office, in charge of an expert whose duty it is to work out the special problems of that district, whether these are reducing waste in the homes of the wealthy or making more food available in the homes of the wage earners.

A number of debutantes and young matrons of society are helping in the movement, by which the daily surplus of vegetables and fruit which would otherwise be wasted, is sorted on one of the piers by members of the organizations, then canned or dehydrated, according to approved methods. The sorting is done by volunteers.

Each worker receives a daily work card, which will be redeemable this winter in vegetables. It was said it might be necessary to have day and night shifts, as quantities of fruits and vegetables are now in season and the canning and dehydrating must be done as the produce comes to the market.

## NO UNREST IN SPAIN SAYS AMBASSADOR

WASHINGTON, July 5.—The Spanish ambassador, Juan Riano, today received dispatches from Spain refuting reports of internal disturbances published in France, on the basis of which he made this statement:

"The situation in Spain is completely normal. Absolute tranquility prevails everywhere and there is no reason for supposing that there are political or social disturbances. There is, however, a manifest interest in creating an atmosphere of doubt and of alarm by means of false rumors circulated daily which fortunately very soon find a contradiction in facts."

## French Town Thrills on July Fourth With American Soldiers

A FRENCH SEAPORT, Wednesday, July 4.—(Delayed)—For the first time in its history this little seaport today celebrated the Fourth of July. The majority of the inhabitants scarcely knew what they were celebrating, but they had been told it was the American "Fourth of July," corresponding to their fourteenth of July, greatest of all French holidays, and they did their utmost to give the town a festive air. The scarcity of United States flags, which was apparent when the American troops first landed a week ago, was remedied by sending to Paris for quantities of the Stars and Stripes and the seaport awoke under the first cloudless skies for a week radiant with bunting.

The townspeople took a sort of a holiday though they did not close their stores which these days are such an usual source of income with the thousands of new customers. Such American soldiers and sailors as were allowed liberty, numbering into the thousands, were made welcome everywhere. Countless families gave little dinner parties to lonehome stranger soldiers from the United States.

At the camp where the troops are stationed the day was passed with relaxation from drills. Baseball games were played and athletics and sports of all kinds were indulged in by the Americans. American vessels at anchor in the harbor gave liberty for the day to as large a number of sailors as possible. Officers of the ships entertained their American friends from ashore at luncheon and at dinner.

## King of Dips Held 30 Years in Jail

NEW YORK, July 5.—Henry Morgan, 75 years old, who has too many aliases to recount, and who is known along the Bowery as the "King of the Dips," recently added twelve hours more to the thirty years he has spent in jail since he began his long career as a shoplifter, pickpocket and till-breaker.

Morgan was arrested on the charge of Anna Wild of 380 Prospect street, the Bronx, who says he abstracted a dollar bill from her purse while she was walking through Washington Square park. At police headquarters he was identified by the finger print system.

The old man is well known to the police not only of this city but of many other cities of the United States and of Paris and Berlin, as well. His record, dating from Sept. 27, 1887, shows he has been arrested eighteen times.

### FORT NEEDS HELP

INDIANAPOLIS, July 5.—Fort Benjamin Harrison, where several thousand soldiers and embryo officers are in training, sent out a call for help to the state free employment bureau today. Ten colored mess boys, one colored head cook, two white second cooks and one white third cook are needed. The mess boys are paid \$35 a month with board and lodging, the head cook \$80, second cook, \$70 and the third cook \$65 a month. The men are needed at once.

### EAST ST. LOUIS NORMAL

EAST ST. LOUIS, Ill., July 5.—Resumption of work after the holiday was accomplished today without any indication of a renewal of the race riots in which more than a score of negroes and several white persons were killed earlier in the week.

## Secretary Baker Explains Censorship Over Cable News

WASHINGTON, July 5.—Secretary Baker today issued a statement explaining the operation of the war department censorship over cable dispatches from France dealing with the American troops saying that the present arrangements are temporary and soon would be supplemented by a method that will not delay delivery.

"Pending the complete organization of General Pershing's headquarters in France," the statement said, "with the arrival there of correspondents accredited to represent American newspapers, the temporary arrangements by which cablegrams are transmitted to the war department here for distribution will be continued."

"It is in the interest alike of the army and the newspapers to afford a certain reliance as to the propriety of the publication of messages from France. The arrangement is temporary and will be replaced speedily by a more direct method of dealing with this news. In the meantime an adequate force to deal promptly with the dispatches on hand twenty-four hours a day will deliver the dispatches received in the order in which they come so that no disadvantage will result in anything beyond the brief delay in sending the dispatches to Washington and back to the center of distribution."

The work of reading over the press dispatches is being done by the committee on public information, much of it personally by George Creel, the chairman. Secretary Baker explained that the plan worked out provided, however, that the opinion of Brigadier

General McIntyre, censor for the war department here, was sought where there was any doubt as to the advisability of publication of any item. Mr. Baker has made no effort to find legal authority for the establishment of the new censorship he said and does not intend to ask for legislation in that regard.

"The secretary of war," he said, "by unanimous consent, is empowered to take any steps necessary for the protection of American soldiers."

The censorship arrangement to be set up by Major-General Pershing, it is understood, will cover British or French publications regarding American troop movements as well as dispatches to this country. Mr. Baker added that it might be found necessary to supplement that censorship with an additional reading at New York in order to make certain that every press or personal dispatch had been read to prevent information of value to the enemy from leaking out. Neither Secretary Baker nor Secretary Daniels would express any opinion today as to whether word of the departure of American troop transports had been transmitted to Germany in such time that a U-boat trap had been laid. Both indicated that they had no specific information on this point.

Vice-Consul G. H. Krogh at Rotterdam, the Netherlands, reports that a market for Southern pitch pine can be developed in that country as the shipments from Russia and Germany have stopped.

## KERENSKY CHARGES GERMANY PROPOSED TREASON TO RUSSIA

WASHINGTON, July 5.—Kerensky's final order to the Russian troops before leading them in person from the trenches to the first military victory of the new Russian democracy was received today by the Russian mission. It charged Germany with having proposed treason to Russia and commanded an advance in the name of freedom and a lasting peace.

## GERMAN AGENT ENDS LIFE IN NEW YORK

NEW YORK, July 5.—Richard Adam Timmerscheidt, representative of German Commercial Interests in China, committed suicide here today by jumping from his rooms on the tenth floor of a bachelor apartment house. He had first slashed his wrist with a razor blade.

Timmer Scheidt, who was said to have been at one time an agent for the Russian government, took out his naturalization papers here in December 1914. He was apparently a man of considerable wealth. No motive for the suicide has been ascertained by the police.

## REPORT SUBMARINES IN AZORES REGION

WASHINGTON, July 5.—Secretary Daniels announced today that the navy department had received information that German submarines were operating in the vicinity of the Azores islands. For military reasons, he said, no further information would be given out for publication.

Press dispatches from Ponta Delgada, in the Azores, yesterday told of the bombardment of that city at dawn by a German submarine.

A little girl was killed and several persons injured. The forts replied to the submarine. Another dispatch from Lisbon said the minister of marine had made an official announcement that an American transport joined in the firing on the German submarine which bombarded Ponta Delgada. The transport, he said, was discharging coal and aided the batteries in forcing the submarine to withdraw out of range. The submarine was still off the port, the announcement said.

### BENBOW FINED \$25

Edward Benbow, of Hagerstown, was fined \$25 and costs in police court Thursday morning, for carrying concealed weapons. Clarence Stewart, marshal of Hagerstown, where the arrest was made, testified that Benbow was drunk and flashed the revolver several times. Benbow went to jail.

## Obliging Druggist Gave "Little Snort"

KANSAS CITY, Mo., July 5.—Two police detectives walked into the drug store of James H. Mulvaney, 6711 Independence road.

"We want a little 'snort,'" one of them said he whispered to Merriam Andrew, a clerk in the establishment.

When the drinks were served, at fifteen cents each, the detectives poured them from the soda glasses into a bottle. The store was searched and beside the bar bottle, from which the drinks were poured, several cases of whisky were confiscated. The druggist and his clerk were arrested.

## DEFLECTS CABLES

WASHINGTON, July 5.—The war department here continues to censor news dispatches from France which have already been passed by foreign censors. It deflects incoming cablegrams at New York to Washington, where they are censored and turned over to representatives of the press associations and newspapers, to whose New York offices the cable messages are addressed. The Associated Press accounts of the Fourth of July celebration in Paris were among the dispatches thus deflected and delayed.

### PALLADIUM WANT ADS PAY

## REGISTRATION SLOW FOR FALL ELECTION

Unless there is a decided increase in the number of persons registering daily for the special election at the clerk's office, it will be necessary to increase the size of the registration boards for the final part of the session, members of the board declared today.

Few people are making special trips to the court house to register and those who have had other business at the court house make up the greater part of the applicants. The greatest rush at the registration desk is in the afternoon from two until four o'clock. During these hours the clerks are kept busy receiving the applicants but for the rest of the day they have little to do.

Applications from women for registration have been increasing in the last few days and they are again making up the majority of the applicants.

### DEMANDS WITHDRAWAL

LONDON, July 5.—A despatch from Tsin, China, to the Morning Post says that Tsao Hun, military governor of Chi-Li whose attitude hitherto has been dubious, repeatedly sent an ultimatum to General Chang Hsun, who restored the emperor, demanding that he withdraw from Peking within twenty-four hours. Tsao Hun is now mobilizing his forces. His action, it is considered, will endanger the chances of the monarchy.

## AT THE MURRETTE

"Although my father was a New Hampshire man and my mother a Virginian," recently said Douglas Fairbanks, who is playing Friday, Saturday and Sunday at the Murrette theatre in "Wild and Woolly," his second Aircraft production, "where riding is accepted as a matter of course, I was born in Colorado. I had never ridden one of those wonderful creatures of the devil known as a 'bucking broncho' until I started working in 'Wild and Woolly.' To stick to one of these creatures, one must be a combination of sailor, bareback rider, freight brakeman and lots of other things, so unexpected and multifarious are his motions. He can move in more acute angles than any other beast in the world."

RICHMOND, INDIANA

## Home Seeking Used to be Footwork

Finding a new dwelling place used to be like looking for a needle in a hay stack and as fatiguing as a six day bike race. The only means we had was to trudge the streets seeking "To Let" signs—a very discouraging and provoking method indeed—fine business for the chiropodist who doctored our sore feet after a day at it—but heart-breaking and souring to the home-seeker.

But Oh! How times have changed! No longer are we obliged to look for homes. They look for us. Where? In the "For Rent" Columns of the Palladium.

Get the Palladium Want ad habit—whether you have a home for rent or want to rent one. Home seeking isn't a matter of footwork any more.

## Now it's Headwork
