

# DUTCH PEOPLE STARVING FOR LACK OF GRAIN

Sixteen Vessels Loaded With Food Unable to Leave New York.

NEW YORK, July 10.—Officials of the Holland steamship firms which have sixteen vessels loaded with grain and foodstuffs waiting in this port to sail for Europe, declared today that some of the consignees in Holland had been forced into bankruptcy and many people were actually starving, while waiting assurances from the British government that the ships would be given safe conducts.

It was estimated that between thirty and forty Dutch steamers of 10,000 to 12,500 tons were tied up in Atlantic ports.

Although the shippers declared that the delay was serious, as many people in Holland had consumed their supplies of grain and foodstuffs, an English diplomat said that according to the most reliable information the Dutch people are not in danger of starving as has been stated.

He also said the question of permitting foodstuffs and grain to be sent to Holland was most serious, considering the reports that some merchants of that country were smuggling all available supplies into Germany to profit by the high prices.

The shippers were said to be particularly anxious for their consignments to leave American ports before July 15, when America's embargo on foodstuffs goes into effect.

## Sunshades and Shady Hats

Models from Vogue Hats  
New York

Leghorn crowns itself with green taffeta and perks one loop of a taffeta bow up in the air. Add a green tie and a sleeveless green sweater to this, and a white linen frock, and you are bound to look like Summer-time incarnate. And if you don't believe it, just watch the admiring glances that will be cast in your direction as you go your triumphant way.

A chic little hat of pale mauve adds a top of black velvet and thrusts some daisies and periwinkles and wheat into the circle of its charm. To emphasize its complete Frenchness, the hat takes unto itself a mauve parasol with two roses, one old blue and one cerise, nestling against the bow which decks the cream white handle.

## Barleycorn Buyers Face Big Advance

NEW YORK, July 10.—The central committee of the Retail Liquor Dealers' Association of New York county met this afternoon and it was expected that action would be taken to regulate the price of mixed and imported drinks.

The move was taken, it was said, following the advance in price yesterday of nearly all mixed drinks sold in uptown cafes and saloons.

Cafe proprietors explained the advance in the price of mixed drinks had become necessary because the agitation in congress over the prohibition issue had stirred both wholesale and retail consumers of liquor into a frenzy of buying, with an immediate effect on prices. Drinks which have formerly cost 15 cents were advanced to 20 cents in many places uptown yesterday.

### WOMAN KILLED IN CRASH

BRAZIL, Ind., July 10.—Mrs. W. L. Nicolson was killed instantly and her husband, a retired minister, was probably fatally injured this morning when their automobile was struck by a T. H. I. & E. traction car at a crossing near here.

turpentine or carbolic acid has been added to the quart.

Mr. E. F. Murphy, Civic Gardener, Care of Palladium.

Is it too late to plant string beans, peas, or beets?—B. A. W.

Answer: These mature for use in about six or eight weeks, depending of course, on the soil, and aside from a drought which is likely to occur during August, there would be no objections to planting them now as they will mature before frost.

## PHILOMATH

Mr. and Mrs. Earl Doddridge and family of Milton spent Saturday night with Mr. and Mrs. Samuel Fisher and daughter, Miss Darlie, Mr. and Mrs. Willard Rodenberg and sons, Elmer and Charles and Mrs. M. J. Weber motored to Richmond Friday afternoon.

Misses Cora and Gertrude McCashland attended Eastern Star chapter at Brownsville Saturday evening.

Samuel Fisher and daughter, Darlie, and Misses Lola, Piccola and Doris Doddridge of Milton were in Connersville Sunday.

Mr. and Mrs. John Plessinger, Mr. and Mrs. Frank Plessinger of Hope, Ind., and Mr. and Mrs. LaMott and family of Richmond were the Sunday guests of Mr. and Mrs. M. J. Weber.

Mrs. Tillie Henson of Glenwood called on her sister, Mrs. Rachel Wainwright Sunday afternoon.

Mr. and Mrs. John Hendrix and son, Russel, and Mr. and Mrs. Ora Hendrix and daughter, Thelma, Mr. and Mrs. Ora Hendrix and daughter, Thelma, visited relatives at New Madison, Ohio, Sunday.

Mr. and Mrs. Earl Doddridge of Milton, visited Sunday with Mr. and Mrs. M. B. McCashland and daughters, John Rodenberg and son, Russel.

Mr. and Mrs. George Reibsoner and son, Lemmon, of Alquina, and Mr. and Mrs. Byron Nickles of Lebanon spent Sunday afternoon with Mr. and Mrs. Samuel Fisher and daughter.

Mr. and Mrs. Charles Shank and family of near Waterloo and their daughter, Mae, and family, of Oklahoma were guests of Mr. and Mrs. Jacob Shank Sunday.

Miss Vera LaMott of Richmond is visiting her grandparents, Mr. and Mrs. M. J. Weber this week.

Mr. and Mrs. Oscar Russel and son of near Centerville were in our burg Sunday evening.

### SHARKS ARE SIGHTED

NEW YORK, July 10. — Several schools of sharks, some of them of

large size, have been sighted between the Delaware and Hatteras capes, according to word received today by the local weather bureau from a marine correspondent. The sharks appeared to be traveling northward.

## A Drop On a Touchy Corn

Instant relief! Then corn or callus lifts off with fingers.

Just think! You can lift off any corn or callus without one twinge of pain.

A Cincinnati man discovered this ether compound and named it Freezone.

Any druggist will sell a tiny bottle of Freezone for very little cost. You apply a few drops directly upon a tender corn or callus.

Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the skin.

Hard corns, soft corns, or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards.

No soreness or smarting. Women should keep a tiny bottle on the dresser and never let a corn ache twice.—Adv.

## CENTERVILLE, IND.

A play entitled "Melvina" will be given by the Order of Modern Woodmen of Richmond on next Friday evening at the town hall. The proceeds after the expenses are deducted will be given to Bert Gallinger and family.

Mr. Gallinger has been seriously sick for a number of months and unable to work.

Mr. and Mrs. Benton Shriver of Muncie were the guests of Mr. and Mrs. Mark Stevens over Sunday and attended the Chautauqua.

Mrs. A. C. Scott and son Hugh Beverly Scott of Austin, Ind., are guests of Rev. and Mrs. O'Conner.

The Band Boys will have another festival in the town hall next Saturday evening. Although they did well at the one given a couple of weeks ago they need a little more money for payment on the uniforms and will endeavor to raise it this way.

Mrs. Lizzie Jackson entertained Mr. and Mrs. Erk and Miss Lucile Erk and Mrs. Fannie Farwig of Richmond Sunday. They attended the Chautauqua.

The Methodists will hold an all-day meeting next Sunday. In the morning the sermon will be given by Dr. Somerville Light. This will be followed by a basket dinner in the basement.

At 1:30 there will be a love feast, then quarterly conference, and in the evening Rev. O'Conner will deliver the sermon. Special music at all services during the day.

## Garden Question Corner

Editor's note—E. F. Murphy, civic gardener, will answer all questions about your garden in The Palladium; write to him.

Mr. E. F. Murphy, Civic Gardener, Care of Palladium.

The lower leaves on my tomato plants are dying and there are small brown spots on them. I notice some green and some brown plant lice on the leaves. Are these insects the cause of the leaves dying and can you tell me what to do to exterminate them?—K. D. W.

Answer: The plant lice are not causing the leaves to die. Tomato leaf spot is a fungus disease which causes these lower leaves to have small brown spots and die. Later in the season more of the leaves will die, the disease progressing upward on the plant, and the plant will become so weakened that the fruit on the lower portion of the plant will become exposed to the sun and sunscald, while the fruit on the upper portion will fall to develop properly.

The disease is controlled by spraying with Bordeaux mixture at intervals of about two weeks until the close of the picking season.

The plant lice may be killed by using one teaspoonful of "Black Leaf 40" in one quart of water as a contact spray.

Mr. E. F. Murphy, Civic Gardener, Care of Palladium.

Is it necessary to stake tomatoes up?—Y. W. B.

Answer: Staking is not a necessity, but it has its advantages: Fruits ripen more readily during a cool season if the vines are staked up than they would if allowed to lay on the ground; they are less apt to rot during wet weather; and if the rows are far apart, they may be cultivated.

Mr. E. F. Murphy, Civic Gardener, Care of Palladium.

What will kill the little black bugs which eat the leaves of eggplant?—H. D. Z.

Answer: A small black beetle usually attacks the eggplant from the time it is set into the garden until frost. Sometimes they eat small round holes in the leaves, and sometimes they cut the midrib of the leaf and thus do a great deal of damage. These insects may be controlled by repeated applications of Bordeaux mixture containing Paris green.

repeated applications of Bordeaux mixture containing Paris green.

Mr. E. F. Murphy, Civic Gardener, Care of Palladium.

What will destroy the striped bugs on melon vines?—C. V. G.

Answer: They may be killed by Bordeaux mixture containing Paris Green. These striped beetles may be repelled by the application of a material offensive to their sense of smell. A good method is to dust the plants with ashes to which a tablespoonful of
