## PAGE W. J. BURNS!

LOS ANGELES, Cal., July 12.—Mail bags said to contain more than ten thousand registration cards for the selective draft which were sent from here Friday night directed to the office of Adjutant General Borne in Sacramento, had not arrived today, according to the county registrar of voters. The cards should have arrived in Sacramento last Sunday draft officials say. The matter has been referred to postal authorities.

Just before graduating last June as honor man at the Harrisburg, Pa., Technical high school, modest John Watchman disappeared leaving a note that he could not stand "all this raving about being the head of any class." A few days ago his parents received a letter which said, "I am with the British army in France."

## HOW TO GET RID OF CORNS

People suffering from tired, swollen, aching feet, or from stinging, burning corns or calluses will be glad to know that these nerve-racking, misery-bringing afflictions can be quickly overcome by a simple home treatment that will not cause one bit of pain or soreness.

From your druggist get a small jar of Ice-Mint. Rub a little on any painful corn or callus. Instantly the pain will disappear and in a short time the corn or callus will loosen and can be lifted out easily with the fingers—root and all—leaving the surrounding skin in a healthy, normal condition.

When you stop to consider that the simple, pleasant process of rubbing a little Ice-Mint on the foot at night will shortly rid you of every painful corn or callus and will keep the feet cool, comfortable and rested on the hottest days, it is easy to understand why it is thought that foot troubles will soon be a thing of the past.

Ice-Mint is an entirely new departure from the disagreeable old time foot remedies, inasmuch as it is absolutely harmless and comes in the form of a snow white creamy preparation, which is delightful and easy to apply. It costs little and can be obtained here from any of our local druggists. —Adv.
