

# TIME EXTENDED FOR APPLYING TO SECOND CAMP

Applications for Officers Reserve Will Be Accepted Until Monday.

One day's extension of time has been given by the government in which men may apply for the second officer's training camp, and applications which come in on Monday, July 16 will be considered, said Julian Cates, branch chairman, Wednesday morning.

Thirty-three Richmondtites have applied for the second camp seven of them coming in on Tuesday evening.

Bad Officers Lose 'Em.  
More battles and lives are lost by the mistakes and inefficiencies of officers than from any other cause, and the government is woefully in need of officer material of experience and business judgment, says the branch chairman.

When our boys go to France they will be opposed by the very best of officers Germany could get from just such business and professional men as the government is now seeking. Military experience is not necessary, as the country has really been stripped of its men of military experience for the first camp. It is civilians the government wants now.

Cates is to be at the Union National bank Thursday evening to receive applications, and he will also be in the bank during banking hours, Monday is the last day on which an application may be made.

Three salmon of thirty-two and one-half pounds, thirty pounds and thirty pounds, respectively, have been caught at Ringwood and Bisterne, in Hampshire, England.

# Sweden Roused by Report She Sells War Stuffs to Germany

STOCKHOLM, July 12.—General resentment and indignation has been aroused in Sweden by a news agency dispatch from Washington giving what is termed "an official report to the government" on Sweden's exports and imports.

The report, for which authority is not named, declares in brief that Sweden exported to Germany great quantities of materials for making ammunition, including especially iron ore, ferro silicates, manganese, steel, copper, sulphur, zinc and wood pulp and imported iron ore from America to replace the surplus exported.

Friendly Papers Yelp.  
Even newspapers most friendly to America join the chorus of indignant condemnation of these charges. The papers call attention to America's attitude regarding exports and arraign what they term the government's inconsistency. They declare that America repeatedly protested to England against precisely the same policy which Washington now threatens to adopt against Sweden.

The Associated Press received from an authoritative source the following statement: "It is no secret that we are exporting iron ore. We have been exporting it for more than twenty years. It is our chief article of export. But we export also to England and other countries and the proportions of our exports remain nearly the same as before the war."

Also to America.  
"We exported wood pulp to Germany but also to America, France, Italy and other countries. We exported ferro silicates to Germany and also to England and Russia."

"The statement that we are exporting sulphur and zinc to Germany is a ridiculous error. We must import sulphur for our own use and Germany produces more zinc than she uses."

"Another misstatement concerns our alleged imports of iron ore from America. We import no iron ore from there. Before the war we used to im-

port a low grade of pig iron from England. These imports have dropped to a third of the normal and we have been importing from America to cover the deficit, but the entire imports are insignificant.

Pig Iron Exported.  
"We export pig iron of a higher grade to both England and Germany. Our exports to England are still nearly normal."

"For our industrial life we must have dyes, coal and medicines from Germany and we have nothing to give in return but iron ore and pulp since the embargo on all provisions. We get some coal from England at the risk of sailors' lives and of their ships, but it is only a small portion of what we require."

"Germany brings us coal in her own ships without risk to us. We do not understand how America, which insisted on our letting her cotton through to Germany and protested so vehemently to England against efforts to interfere with her trade, can take such an attitude toward us."

VACATION PERIOD IS SET BY JUDGE FOX

Unless some emergency arises, circuit court will not be in session from July 16 until September 1, according to an announcement made by Judge Fox this morning. This recess is ordered that the court attaches may take their summer vacations.

# PATRIOTIC PARADE IS STAGED BY ELKS

BOSTON, July 13.—The Elks assembled in national convention here came more prominently before the public today than at any time this week. A patriotic demonstration was arranged, consisting of a parade of members of the grand lodge, accompanied by Marines and sailors from the navy yard and exercises on Boston Common. United States Senator James Hamilton Lewis of Illinois came here to deliver the principal address. Other speakers on the program were Governor McCall, Mayor Curley and Edward Richter, grand exalted ruler of the Elks during the last year.

The business of the convention was concluded at a brief session this forenoon, and a visit to Revere Beach was planned for the afternoon.

Russia is the only country in which the production of flax fiber has increased consistently in recent years.

PHONE COMPANIES DIVORCED

CHICAGO, July 13.—By a decree of the Cook county superior court, the Central Union Telephone Co., operating in Illinois, Indiana and Ohio, has been divorced from the American Telephone & Telegraph Co., and all stock held in the former company by the latter has been ordered sold at public auction.

Open your package this way. It's a lot handier.

Instead of breaking the seal and tearing open the entire top of the package tear off part of the top only. Cigarettes in paper packages of twenty are carried more handily this way, and keep better; less likely to spill into your pocket. It's easy to do and worth doing.

# Summer Furniture CLEARANCE

Phone 2411. Corner 12th and Main.

**Senreco**  
The double-service tooth paste, keeps teeth clean AND GUMS HEALTHY.

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay.

Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth.

Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard.

**SENRECO IS A WONDERFUL CLEANSER.**

In addition to its remedial properties Senreco is a wonderful cleanser; acts directly on the mucin film, the basis of tartar; leaves the mouth cool and clean-feeling. As some one has expressed it—Senreco gives one a new idea on mouth cleanliness.

Get a tube to-day at your druggists or toilet counter—enjoy the healthy, cleanly feeling its use gives your mouth and gums. Notice how brilliantly white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste—25 cents for a large 2 ounce tube.
