

## REDS TO PLAY QUAKERS HERE ON AUGUST 7

Announcement was made today by Manager Gilbert of the Richmond Central League baseball club, that Christy Mathewson and his flying Cincinnati Reds will play the Quakers in an exhibition game at Exhibition park on Tuesday, August 7. This is the first of a series of exhibition games with big league clubs that will be staged here this season, according to Manager Gilbert.

In connection with the appearance of the Reds, the local Elks Lodge is planning to make the day an Elks' day in honor of August "Gerry" Herrmann, president of the club, and past grand exalted ruler of the lodge, who will be in the city with the team.

Plans are being made by the lodge for the reception of Mr. Herrmann and the members of the team, during their stay here.

Reds are Popular.

The Cincinnati Reds' appearance here, promises to be one of the biggest baseball attractions of the season in Richmond. The Reds have made a better showing under the leadership of Mathewson than they have for the last ten years and are now one of the strongest teams in the league.

This year will be the first time also, that the Reds will have played against a league representing Richmond, all of their former exhibition games here having been played against an independent semi-pro organization that was far below the class of the present Richmond club.

In order to make the exhibition game a go, it will be necessary to push the game at all times and Manager Gil-

## Stock Company Owns Chemical Truck; Hollansburg Citizens Fight Own Fires

Farmers within a three-mile radius of Hollansburg, just across the state line in Ohio, and citizens of the town, beat the entire United States to it, when they dedicated their new chemical, motor fire truck Wednesday night.

The new truck is owned by a stock company composed of householders in the neighborhood, and is to fight fire anywhere in this territory. Each member of the company holds certificates, and the services of the truck are his, free, when he needs them. A charge of \$50 will be made for fighting fire for any one who is not a member of the company.

So far as is known, this company is the first in the United States to organize to fight fire throughout the country, and the stockholding arrangement is also unique.

See Dedication.

More than six hundred people crowded the village Wednesday evening for the dedication. An exhibition run was made by the machine, and Charles

Jordan of Richmond, made the dedication talk. The last \$200 of the cost was also subscribed.

The truck is of the most modern type, and can make thirty miles an hour, so that it can be anywhere within the radius within six minutes after an alarm. It has many small hand chemical containers, besides two large tanks, and has 200 feet of hose. While one tank is in action, the other can be charged, insuring a continuous stream of chemicals.

Five members of the company in Hollansburg who understand the machine's operation thoroughly, live within a square of the firehouse, and others are near by.

With telephones and good roads to help, farmers living in the radius won't have to fear fire in the future, Hollansburg thinks. Insurance rates also will be cheaper.

Norman Williams, Gaar Armacost and Val Whitteman are leaders of the company.

### EVERYBODY HELPS HOOVER

WASHINGTON, July 19.—Wives of members of congress making their homes in Washington hotels will do their "bit" toward food saving in spite of the fact that they have no opportunity to conserve as housekeepers during their stay here. Mrs. Edward T. Taylor, Mrs. Dorsey W. Shakesford and Mrs. Samuel M. Taylor have suggested to the food administration plans for eliminating waste in hotel dining rooms.

It is expected every Richmond fan, many of whom are also Red fans, to do his duty.

### DETROIT IS NEAR TOP

DETROIT, Mich., July 19.—The last of the 26 local exemption boards has completed its work of re-numbering the draft registration cards in Detroit, making this city one of the first of the largest cities to complete preparations for the drawing of the numbers in Washington.

### NEW CONTRACT

[Continued From Page One.]

The old franchise would not have expired for two years. However, councilmen thought they

would save the city \$1,500 yearly, which they would have been forced to pay for street lights for two more years until the old franchise was expired, by the approval of the new franchise which repealed the old one.

Mentioned First May 7.

Mention that the Liberty Light and Power company would apply for another franchise was first made at a meeting of the council May 7. The Liberty company's rates were made known, but a committee consisting of Mayor Glenn and Ed Young was appointed to investigate rates to be obtained from other companies.

Strange to say, the committee made no investigation and neither did they report, according to Councilman Young Thursday. Mayor Glenn could not be located for a statement. No other investigation was made to learn the scale of rates of other companies.

The Greenville company was mentioned and Ashe is alleged to have said that he owned stock in the Greenville company and their rates would be no cheaper.

"I am Greenville company."

After the twenty-five year franchise was granted it was learned from officials of the Greenville company, in a

position to know, that Ashe held no stock in the company.

When Ashe was granted a ten-year franchise eight years ago the villagers were of the opinion that they could have gotten better rates elsewhere and determined to see to it that another franchise was not granted at the expiration of it.

The villagers claim they did not know that the petition for the franchise was coming up for hearing on May 27 when it was unanimously passed by C. W. Bennet, W. S. Colvin, C. F. Freed, Ed H. Young and G. C. Fournier, the councilmen. J. S. Benner was absent at the meeting, and C. F. Fred, who at first opposed it, was won over when he saw the opposite side had a majority.

According to Clerk Mickells the ordinance was handed him to be read in the middle of the meeting. It was 1

o'clock before they were finally disposed of.

Under section four of the twenty-five year franchise, the award was made to Robert S. Ashe: "It is understood and agreed that the said Robert S. Ashe, his successors or assigns, shall have the right to transfer to his successor or assigns all rights granted under the ordinance and such assignment and transfer shall vest in his success-

ors or assigns all rights granted under the ordinance and such assignment and transfer shall vest in his successors or their assigns all the rights, privileges, interests and claims of the said Robert S. Ashe as fully as originally granted to said assignees."

Ashe or the company is not required to furnish bond for carrying out the terms of the contract.
