

DEFENSE BOARD TO FORM UNIT OF HOME GUARDS

Frank Benn, Former Regular, to Have Charge of Troops.

Wayne county is to have a home guard.

Frank Benn, regular army veteran, was appointed by the county defense council Wednesday evening to take charge of its organization.

Benn is very enthusiastic about the guard, and began work on it Thursday. It is to be made up of men and boys from eighteen to twenty-one and from thirty-one to sixty. Guarding of bridges and general police work will be its most important duties.

Will Train Men for War. Members of the council, however, look for many more advantages than these from the guard. It will train men and boys for future military service, arouse interest in military matters, and bring home the war to Wayne county people.

V. D. Brammer, head of the Boys' Working Reserve, consulted with the council about plans for the enrolling of 800 Wayne county boys in the reserve. Additional supplies for advertising and for the enrollment were ordered by long distance telephone Thursday and are to be rushed to Richmond by Interurban. Enrollment week for the boys is from August 6 to 12.

McNally is Sleuth. Announcement was made after the meeting that Police Chief McNally had been made head of the secret service committee of the council, designed to hunt down any disloyal talk or actions in the county.

I. T. Beck, township agricultural director, also reported to the committee. He told of the war crop work in the township, and said several lectures are to be given throughout the county.

CHAMPION

Who is Air Champion of the West
Front.

CANADA TO BE PUT ON RATIONS

OTTAWA, Ont., Aug. 2.—Canada is to be put on rations and there is to be a penalty if the orders are not obeyed. W. J. Hanna food controller of Canada, has made recommendations to the minister of justice that the people of Canada shall be required to observe two meatless days a week, two baconless days a week and that every caterer in Canada who serves daily twenty-five meals, must supply bread that is other than pure wheat bread. The government, he says, must fix the penalties. War and the feeding of the allied nation are stated as justification for the recommendations of the Canadian food controller who is in touch with the authorities of both the United States and Canada.

FAMOUS ARTIST DIES

NEW YORK, Aug. 2.—Raphael Kirchner, an Austrian portrait painter who obtained fame in this country after coming here from London two years ago, died here today. He was stricken yesterday at his easel while at work on a large portrait.

In the case of the death of both the president and vice-president, the secretary of State would take up the president's duties. Following him the secretary of the Treasury, of war, postmaster general, secretary of the navy and secretary of the interior are eligible in order.

The automobile industry dates as far back as 1851.

The first airship made a successful flight in 1901, and the first airplane two years later.

WOULDN'T BE MAYOR

Preston P. Lynn is the General Manager of John Wanamaker's New York establishment. This in itself doesn't make him of particular interest to the man in the street, but when it is learned that he worked his way up from office boy and that he recently declined the nomination for the mayoralty of New York City who is the highest paid municipal executive in America, Mr. Lynn becomes an object of more than ordinary interest to every one.

Recently Mr. Lynn was tendered the nomination by the Business Men's League of New York, which is a non-partisan organization composed of representative business men, laboring toward municipal efficiency, with a business man in New York City's City Hall as the principal means to this end.

Joseph Yeska, chairman of the Business Men's League, who himself is one of the biggest specialty garment manufacturers in the country, expressed extraordinary surprise when told that Mr. Lynn had declined the nomination because of the pressure of business. Mr. Yeska intimated that Mr. Lynn may be "drafted" into the service of the municipality, and that if he still objects, Mr. Wanamaker may be appealed to release Mr. Lynn that New York may have the opportunity of enjoying better city government.

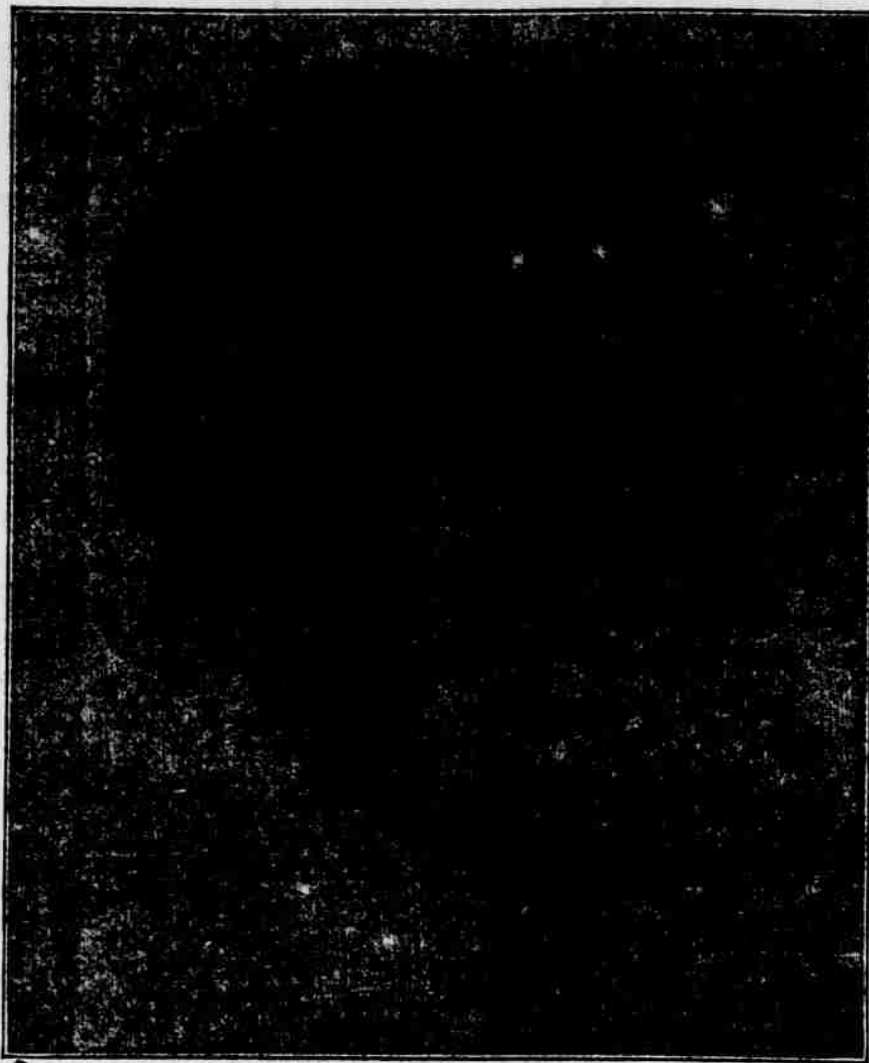

Russia's Weakness Prolongs War, Says General Maurice

LONDON, Aug. 2.—"Looking from the broadest aspect at the events of the past fortnight in Russia," says Major General F. B. Maurice, chief director of military operations in the war office, in his weekly talk today to the Associated Press, "it will necessarily mean a prolongation of the war. We cannot count longer on any great material assistance from Russia. This means a greater burden on the other entente allies and for the United States it means that she must come into the field as soon as possible and with the greatest possible force."

The Gatling gun has been in use since 1862.

The millinery workers in Boston average \$5 a week during the entire year.

Movement For Army of Women Spreading Throughout Russia

PETROGRAD, Aug. 2.—As the result of the heroic conduct at the front of Miss Vera Butchkareff's female battalion the movement for the creation of a great woman's army is progressing throughout Russia like wildfire.

Already Petrograd, Moscow and Kiev have formed regular recruiting bureaus and established barracks under the ordinary system of army administration, subject under a newly issued order by Minister of War Kerensky to the staffs of the local military district.

The government has issued arms and complete equipment to the woman and has appointed male commanders and instructors, and in view of the spread of the movement, it is planning a more suitable uniform for the women fighters.

In Petrograd a new battalion is being raised by the Chairwoman of the New Women's Military League, a university student, Miss Fromenko. The specious engineers palace has been turned into a barracks in which 700 girls and women are already in uniforms out of the 1,200 so far enrolled. For the remaining places in the battalion there are 1,500 applicants.

In the entrance hall today there was gathered a group of new recruits whose ordinary feminine attire, long hair and soft features contrasted sharply with the cropped heads and masculine bearing of the girls already in uniform.

The first charge of dynamite, as the explosive is now known, was prepared in 1868.

CASH SALE FRIDAY AND SATURDAY SUGAR---70,000 Pounds---SUGAR

BEST CANE SUGAR goes on sale Friday and Saturday at prices below carload lot price. Sugar is going to go much higher and will be very difficult to supply.

LAST YEAR at the NATIONAL TOURNAMENT

The concern controlling tobacco sales at the championship tournament at Forest Hills last fall states that the sale of Fatimas exceeded that of any other cigarette.

So at tennis, just as at the golf clubs and baseball games—Fatimas are a favorite.

—For the delicate relish of their finely balanced Turkish Blend

—For the comfort this blend gives to throat and tongue

—For the keen, alert feeling a man retains, even after smoking more often than usual

Fatimas are a sensible cigarette. Try them and see for yourself.

718 MAIN STREET

On the Porch

These Hot Summer Evenings—

a Starr Phonograph will bring forgetfulness of how "fagged out" you are from the day's heat. Enjoy the evening breezes while you listen to the finest music, the most talented entertainers, that the whole world affords. No need to "dress up" to go out for your entertainment.

(Use a flash-light when you wish to change records and your privacy will not be disturbed.)

\$50 \$75 \$100 **Starr** PHONOGRAPHS \$125 to \$300

Why a Starr? Because its tone is sweeter, clearer and closer to reality due to the Starr "Singing Throat" made of Silver Grain Spruce, the famous vibrant wood which master musicians have used for centuries past in their rare-old violins and chavichords.

Compare the tone! Let your ears tell you that here—in the Starr—is the finest toned phonograph you have ever heard.

Starr Phonographs play all records. Call, phone or write. We will gladly demonstrate and no obligation is incurred. Convenient terms.
