Poet D'Annunzio Aboard One of Planes Which Bombed Pola

ROME, Aug. 7.—A detailed report on the air raid at Pola, the Austrian naval base, on Friday night shows that it began at 11 p. m. and ended shortly after dawn. Each machine carried eight bombs and six grenades. The first arrived over Pola an hour after departure and the last at 4 a. m.

The squadrons carried out the task which comprised a flight of 320 kilometres 160 of which were over enemy territory, without the loss of a single machine.

D'Annunzio, the poet, was aboard one of the larger planes piloted by Capt. Gori. The damage effected was most important. In addition to bombing the arsenal, a naptha depot and a seaplane station were set afire and burned like paper.

The Italian aviators who kept at an average height of 2,500 to 3,000 yards were able to judge to the extent of the destruction by the enormous sheets of flame and columns of smoke which shot up to a height of 500 yards.

The Austrians were unable during Sunday where they visited Russell Hlatt and family. Mrs. William Pickett of Williamsburg spent the week-end with Frank Pickett and family here. Misses Bonnie and Blanch Carman entertained at their home in Chester Saturday afternoon and evening in honor of Miss Beryl Johnston, who is leaving for her home in New Holland, O., next Saturday. Supper was served on the lawn to the following guests: Misses Beryl Johnston, Lucile Huffman, Carrie Boerner, Opal Skinner, Marjorie Pickett, Marjorie Huffman, Adolalde Kemp. Miss Amelia Ruger is attending the Young Friends' conference at Cedar Lake. Mr. and Mrs. Ollie Boerner and daughter, Carrie, spent Sunday afternoon at Glen Miller park.

A human life has a money valuation simply as a money-making machine. At twenty, the average person is worth \$4,000, at thirty, \$4,100. This sum presents the present worth of his future power to make money minus the cost of his maintenance.
