

NEW CHANCELLOR IS ACCLAIMED AS SECOND BISMARCK

Michaelis Getting Farther and Farther Away From Peace Idea.

COPENHAGEN, Aug. 9.—The democratic movement in Germany which reformers were sure was getting such a splendid start in the recent Reichstag crisis now seems to be slipping backwards down grade. The liberal and radical newspapers in Germany generally interpret the selection by Dr. Michaelis, the chancellor, of his colleagues as a distinct rejection of the principle of parliamentarism or parliamentary influence upon administration.

The socialist organ Vorwaerts announces that the cabinet members Spahn, Krause and Mueller enter the government as individuals, not as party representatives. Therefore, the party assumes no responsibility therefor but retains completely a free hand toward the government. Herr Mueller, particularly, has long had no executive connection with the socialist party and has a purely administrative non-political post.

For a "Powerful Plea." The Vorwaerts declares that the present government must be the last of its kind and must be supplanted by a government of the people. Dr. Michaelis is also getting further away from the Reichstag peace resolution even as he interprets it as the days

GOES TO MICHIGAN CITY

William H. Harris, given a life sentence in the state prison for the murder of Hensley Trachtenberg, railroad employee, was taken to Michigan City early Thursday morning by Patrolman Hanning. Harris is 53 years old and has four grown children living in Richmond.

Commercial automobiles shipped abroad in 1916 far outstripped pleasure cars shipped in the same year.

Rainfall Fails To Affect K. of C. Picnic

A slight rainfall Wednesday afternoon failed to dampen the spirit of the some 300 or more members of Richmond's Catholic churches who enjoyed an afternoon outing at Glen Miller park.

There were races for fat men and races for "skinny" men, sack races and baseball games besides heaps and

heaps of "eats" and ice cream for all.

The picnic was given under the auspices of the entertainment committee of the Knights of Columbus and every Catholic in Richmond was invited. John F. Harrington was chairman of the committee.

FALLS IN SHAFT

Walter Steinkamp, who formerly lived in Richmond, was seriously injured when he fell through an elevator

shaft of the Starr Piano company in San Francisco where he is now employed. He is a son of John Steinkamp.
