Compare the Tone!

Buy your phonograph with your ears open!

Phonographs are NOT "all alike." Far from it! Each claims superiority—but your judgment says this cannot be. You must rely upon your own ears. Though you lack "an ear for music"—though some sound similar—when you hear the tone of

no other will ever please you so much.

Our five decades of musical experience and Silver Grain Spruce, the sounding-board wood used for centuries in the world's greatest musical instruments, make this so.

The rich, mellow, resonant tone from the Starr "Singing Throat" must be heard to be appreciated.

We urge comparison!

Your ears will prove that no other phonograph has a tone equal to that of the Starr.

Call and compare. That is all we ask. Starr Phonographs play ALL records in addition to Starr Records. Convenient terms.
