

86 CANDIDATES OUT OF 109 ARE FOUND TO BE FIT

High Percentage in Fourth
Call Issued by Preble
County Board.

EATON, O., Sept. 22.—Eighty-six registrants out of a list of 109 were found physically fit for military service Friday when examinations were conducted by the Preble county draft board.

This list, the fourth drawn, probably will be the last summoned for some time, because in addition to these the names of more than 200 have been certified to the district board as held for service. Should the action of the district board result in materially cutting down the list of eligibles, those included in the last drawing will be called.

The result of Friday's examinations is as follows:

have found a rich field for his activities. A handsome young "copper" in plain clothes with all the evidences of prosperity in his make-up saunters about the streets or drives an inviting looking automobile, seemingly looking for a damsel yearning for a touch of high life.

The first week he was on duty nine women smiled upon him and later paid fines in the police court. This is one measure of a general clean-up inaugurated by Chief of Police Dunn before the annual fall festivities of the Knights of Ak-Sar-Ben which always draw big crowds of sight-seers to Omaha and incidentally not a few undesirables of both sexes.

FIRE IN GARY COAL YARDS IS CHECKED

GARY, Ind., Sept. 22.—A fire in the reserve coal yards of the Michigan Central Railroad near here threatened to destroy 170,000 tons of coal last night, but fire engines from this city, Hammond and Michigan City brought the flames under control early today. The amount of coal destroyed could not be estimated.

Regular Newspaper Issued by American Ambulance Section

SOMEWHERE IN FRANCE, Sept. 22.—(Correspondence).—So far as is known, it has remained for the Sixty-third Ambulance Section of the American Red Cross to be the first to distinguish itself by issuing a genuine, regular newspaper. The paper has considerably less than a million-a-day circulation but it is a God-send to the members of "Soixante Trois," which it calls itself.

The first issue of "Soixante Trois" is strictly handmade and is produced by a manifold process. Nearly all the section comprises the editorial staff, and about ninety percent of this staff has devoted itself to humorous efforts.

The "Own-Lee" Laundry company is the most liberal advertiser with a lurid page invoking everyone to "fall in line" and "follow the example of the cook who washed his face in the dishpan."

Then there is a "tonorial parlor" that invites the readers to "come in and enjoy the show"—which the advertisement continues includes "microscopic animals contributed by our patrons."

There is a bit of "poetry" or two, also a couple of rough sketches, and four pages of reading matter, including "Personalities" and a "Diary of Our Own Samuel Pepps." News as it is ordinarily conceived is conspicuous by its absence, but the Soixante Trois is chock full of fun, which is perhaps just as welcome as news to the members of the section.

Conservation---the Easy Way

Conservation is the cry of the nation. Now as never before we are being impressed with the demand for consistent, rational economy. Every man and woman in every family is aiding in the task which confronts our nation. And they are not stopping at the mere conservation of foodstuffs.

The supply of materials which enter into the manufacture of clothing must be in great measure diverted to our new national army. We do not begrudge it to them. The men who are representing our country in the struggle for world rights deserve all that we can give. The alarming shortage in clothing materials is reflected, however, in the present price of all clothing. You yourself are aware of the enormously increased cost of your garments this fall.

These are the things which make our work of conservation necessary, and which at the same time make it appear difficult. We are discovering, some of us for the first time, the easiest road to clothes-conservation.

CONSERVE in the easy way---the most convenient and the most practical. Bring out the clothes you thought were "done for." Look them over. You'll be surprised at the good you will find in them.

Then call Wilson. Let him call for your clothes. When they are returned to you, you will find them just as new and fresh and full of style and snap as they were the day you bought them.

Easier than selecting new clothes from the restricted selections offered you this fall---isn't it? More satisfactory---and the demand for conservation will be met.

Railway Diners to Have Beefless Day

NEW YORK, Sept. 22.—Roast beef, steaks, filet mignon—in fact all cuts, or dishes made from beef—will be missing from the Tuesday menus of dining cars on railway trains beginning Oct. 2. It was announced here today. Wheat bread will not be available to patrons of dining cars, unless it is specifically requested.

These rulings, made by the American Association of Dining Car Stewards, an organization embracing the principal railways in the country are the result of efforts to aid the government food administration program of conservation.
