## THOUGHT DEAD, HE WRITES FROM HUN PRISON

NEWTON, Mass., Jan. 2.—The first direct communication from Lieut. Harold B. Willis of the Lafayette Escadrille, who disappeared while flying over the German lines Aug. 18, was received by his parents here recently. The Red Cross had discovered the missing aviator in a German prison camp, but Willis' letter revealed for the first time the story of his capture.

"My last flight was some distance within the lines," he wrote. "One of the boys in front of me attacked and I was able to put away my assailant, but was immediately jumped on by two others, later by a third. To avoid being riddled from the rear I had to turn and engage, and was thus separated from friends on my level. French machines above me evidently did not see my situation."

"Almost immediately my motor was hit and only ran intermittently, so that they could always keep above me. My efforts became the avoidance of fire on the line of flight and to regain the group of lines. I did not succeed, however, in any of these on account of loss of motor, and the odds against me. I landed twenty kilometers in the rear. An adversary landed beside me and proved very correct and sympathetic. My machine was hit thirty times, in body, motor and windshield. Half the cables were cut, tire shot away and an unknown number of holes in the wings."

"They took me to lunch and later to the rear. The treatment since continues correct."

"My chief distress has been my inability to tell you of my safety, and, further, my exile from the front and the fighting."

"Am with splendid French officers. Am studying German, doing sketching and wood carving."

The letter was three and a half months on the way.

Lieut. H. B. Willis.

## Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to: Eugene M. Pullen, Carpenter, 139D Marcellus Avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

## CIRCUSES MAY BE MOTORIZED

PERU, Ind., Jan. 2.—Owing to recent developments in connection with government control of the railroads, the proprietors of the John Robinson shows, of this city, and other big circuses of the country, are uneasy over the probability of not being able to take the road the coming season. When the various big shows closed for the season last fall, and also since that time, the circus managers have been officially advised by the railway transportation department that they could not guarantee transportation for the coming season.

Among the big shows affected are the John Robinson, the Hagenbeck Wallace, the Ringling Bros. and the Barnum & Bailey, in particular, on account of their size, while the smaller railroad shows will be affected in proportion, but it may be that they will resort to the wagon route.

The managers of the Robinson shows say that if the big circuses are unable to take the road in the spring it will result in losses of many thousands of dollars to the owners. They are expending now large sums of money wintering their stock and otherwise making preparations for the coming season. As a last resort it is said it would be deemed advisable to

motorize the circus business and in this manner traverse the country, or to divide the shows up into units and go back to the wagon style. There has been some talk to the effect that the government may require all the draft stock of the big circuses for use in the army.

## Give The Stomach A Chance To Work

We can't expect the stomach to act normally if the natural avenues of elimination are blocked so it cannot dispose of its refuse. When the bowels are constipated the stomach is called upon for work beyond its capacity and the result is bloating, belching, headache, and discomfort generally, and, unless the condition is promptly relieved, serious illness.

An effective remedy for constipation is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin that acts on the bowels in a gentle, natural manner, without griping or other pain or discomfort, affording speedy relief. Get a bottle of Dr. Caldwell's Syrup Pepsin from your drug store and have it in the house when you need it; it costs only fifty cents and is the ideal family remedy, mild enough for children and old people, yet sufficiently powerful for the strongest constitution. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 436 Washington St., Monticello, Illinois.

# THE HANDY ORCHESTRA'S Jazz Dance Blues on Columbia Records

Old Mr. Jazz himself has been out-jazzed! The trick has been turned by the newest note in novelty, the last word in wizardry, the big, sweeping sensation of the hour—the most delicious dance music of the day.

THE muffled boom of the tom-tom flirts with the crash of barbaric cymbals; the hollow moan of weirdly swept strings is overwhelmed as jungle-land's wild symphony swells to its maddest height. Through it all, the fierce rhythm, the frenzied swing of a super-syncope that is sweeping the dance-world into a vortex of new delight. The Jazz Dance Blues are here!

W. C. Handy, of Memphis, Tenn., is the originator and composer of these famous "Blues" successes. The Handy Orchestra of southern negro musicians plays "Blues" dance numbers as no other orchestra ever could.

This unique organization makes records exclusively for Columbia. You want its Jazz Dance Blues records for your party—they'll make it a success. You will respond to these records, whether you dance or not—they're great!
