## BOTH RICHMOND SCHOOL TEAMS ARE DEFEATED

## First and Second Squads Lose to Anderson High Quintets Friday Night.

Both Richmond high school basketball teams lost to the superior Anderson five on the Anderson floor Friday night, the high school seconds by the score of 14-3 and high school varsity by the score 34-12.

In the first game of the evening the effects of poor training showed, while the Anderson second team started. The team, crippled by the leaving of the Schafers, has not reached a scale where it can play fast, well trained teams.

The same lack of training prevailed in the second game of the evening's bill as in the first. The Richmond high school team, although playing a fast game, did it at the expense of accuracy.

Miller-Brown Strong. In the second game, Coach Mullins' proteges were unable to handle the fast, accurate Miller-Brown combination which managed to run in eleven field goals throughout the game.

Simmons played a splendid game, fighting hard to put Richmond high school basketball team prestige back on the map. Simmons' three free throws in the basket out of four Richmond team's play.

February 1, Richmond high school plays the fast Martinsville five at Richmond and next Friday it plays the Eaton five on the Eaton floor. The score:

## MOWE TO FINISH YEAR AT SCHOOL

Manager Guy Pontius of the Earlham basketball squad Friday night, confirmed the rumor that Ray B. Mowe would finish the basketball season as coach of the team.

Mowe has been putting such a keen edge on the team that Earlham basketball fans for some time have been advocating that Earlham retain him the rest of the season.

Saturday afternoon at 2:30 basketball fans will have a chance to see what kind of work Mowe has been doing with the Earlham basketball squad when it meets the strong Franklin team on the Coliseum floor.

The man who buys War-Savings and Thrift Stamps not only saves money but saves also goods and services for use in prosecuting the war.

## Sport Snap Shots

Ball players this season will have the enjoyment of totting their uniforms around the circuit with them, as in the days of yore. They will pack their monkey-suits, as they are known to the trade, right in a little old suitcase and be their own baggage men. The players of more recent years have always had wardrobe trunks wherein to wait their costumes, from one town to another, but with the railroads up against it in various ways the players will have to see to their own luggage. Last season when there was a railroad strike threatening the secretary of the New York Yanks dashed out and ordered thirty large steel grips for the players, and for the rest of the season the Yanks packed their duds with them. So the Yanks will be in good training for the stunt next season. The players of the other big league clubs will have to get the habit. Those who have no valets—and there are a number of them—might hire a caddy to help them out in the difficulty.

Buck Herzog first joined the major leagues under the name of McGhee with the Phillies and Eddie Collins began his major league career under the name of Sullivan.

Harry Tate, ex-ball player—he was with the Athletics a few seasons back—and the heavyweight who won from Fulton on a foul, has the distinction of having been the world's champion for a period of several weeks. Now that Fulton has flattened Tate upon meeting him a second time the heavy-weight title returns to Fred. But the way Fulton figures Tate was really the world's champ for that brief space in order to get the idea it must be understood that Fulton is now the world's champion, having claimed the title when Willard didn't come through with a reasonable offer to meet him. However all that may be, Tate has announced that he will retire from the prize ring and take up baseball again. He will probably enjoy it more at that. Tate was managed by a wise head, however, old Billy McCarney, who had Luther McCarty at the time the youngster was going his greatest clip.

## NEHF TO BE STAR

BOSTON, Jan. 18.—After sending Jess Barnes to the Giants and George Tyler to the Cubs, George Stallings has so depleted the Braves' pitching strength that it looks like he will have to put most of his dependence next season on young Artie Neff, the Braves' kid southpaw. John Scott, a youthful right-hander, appears to be a good prospect, but just what he will do is not yet a known quantity.

It has been seen that Stallings has a high opinion of Neff and the opinion is shared by many others in the National league. More than a few declare Neff to be the best southpaw in the league today. He came to the Braves from Terre Haute of the Central league in the middle of the 1915 season and immediately pitched three shut-outs just to show that he had his nerve with him in fast company.

In 1916 Neff did not work in as many games as did the rest of the Braves' pitchers, but the pitching he did was of a high enough order to land him well upward toward the top of the pitching lists. Last year he had a good season, but he is yet a bit too young in the big show to be as widely celebrated as any one of the Braves' once illustrious trio, Tyler, Rudolph and James.

Stallings hopes that Bill James will be with the Braves to pitch more than a few games next season and he is banking considerably on the reliable Dick Rudolph. It is also likely that the veteran Tom Hughes will come through with a number of victories. But the individual star of the Braves' pitchers will be Artie Neff, in Stallings' opinion and George declares that Artie is all set to win the honors in the National league his talents deserve.

of the Williams college football team last fall, was with the Giants for a time some years ago.

Cy Williams and Dode Paskert, traded for each other, were pretty evenly matched in one respect last year. Williams drove in forty-six runs and Paskert forty-five.

A. K. Macomber, who owns the biggest stables in America, was the largest turf winner last season, with a sum of \$68,578. W. S. Kilmer was second with \$64,902 and H. P. Whitney third with \$50,000.

The Pacific Coast league will start the 1918 season with one change in its circuit, Sacramento taking the place of Portland.

Tony Brottem, the Cardinals' young catcher, has been released to the Little Rock club of the Southern association. Branch Rickey expects to sign a college backstop very shortly.

Jack Dunn is agitating a movement to have the headquarters of the International league shifted from New York to Baltimore, but as yet he hasn't won over any of the other club owners in that circuit to his idea.

Ed Klepper of the Cleveland Indians pitched in forty-one games last season, yet he did not hurl a single complete game.

Max Carey played in only five games last season in which he did not have a fielding chance.

These are times of self denial and sacrifice. Cut out the non-essential and buy Thrift and War-Savings Stamps.

## FIGHT FOR YOUR LIFE

## Duty Demands Robust Health

## Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to ill after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind. It is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains those mighty strength-producing agents, lecithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, sallow pale complexions that "fall in" feeling and frail bodies are due to lack of lecithin-and-iron peptonate in the system. Your mental and physical strength and endurance depends upon a lecithin-and-iron peptonate laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature meets every essential demand of the human organism. It is safe and sure and a boom to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the cheeks strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of effecting beauty is not needed by hypoferrin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone. Hypoferrin may be had at your druggist or direct from us for \$1.00 per package. It is well worth the price. The Sental Remedies Co., Cincinnati, Ohio.

## THOUGHTS TO THINK ABOUT.

Bitterness against a human being for a good cause blinds you to all of nature's beauties; your morbid senses murder happiness.

Pessimism is a pygmy, not a power; it puts a brake on progress and never booses you onward.

Fate whispers "to exist you must persist"; you are as you desire and you fare as you dare—dogged determination delivers the goods.

## AVIATION CORPS NEEDS MECHANICS

That America's air fleet is about to have exciting adventures is evidenced by the announcement that the Aviation Corps is in urgent need of 194 chauffeurs and motor-truck drivers, 3,562 auto and gas engine men, 1,399 machinists, 220 blacksmith forgers, 220 wheelwrights, 504 cabinetmakers, 460 sheet-metal workers and others to a total of 7,000 for service in France behind the lines.

They will belong to the "Motor Mechanics" Regiment, the first of its sort in American history. Only men outside the draft ages are acceptable under this call, and they must be at least eighteen and not over forty. There are also wanted for the same regiment 200 cooks, 100 canvas workers, 80 house and sign painters, 20 harness makers and 80 acetylene welders.

## HAVE COLOR IN CHEEKS

## Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

ers. The United States Public Service Reserve of the Department of Labor, which has undertaken to get 7,000 men for the Aviation Corps, states that the men specified are urged to enlist at any recruiting station, and that they should not leave jobs in shipyards or war industries for this service, attractive as it is. The regiment will have a short period of training at Fort Hancock, Ga., before going to France.

Guy Roble will be glad to consult with applicants here for this service.
