

LYCHING CASE HEARING HALTED

COLLINSVILLE, Ill., April 9.—Official investigation of the lynching last Friday morning of Robert P. Prager, a German, was halted today to allow Coroner Lowe and several of his assistants to appear elsewhere in Madison county on court affairs of a different nature. The inquest, which was started yesterday was postponed until tomorrow at which time the coroner will again start examination of witnesses who are expected to divulge details of the hanging upon which evidence may be secured to make arrests of guilty parties possible.

The first day of the hearing was consumed in an examination of Mayor J. H. Siegel, Chief of Police Tony Staten and the four policemen who were present at the time the mob made its demand for the surrender of Prager.

Other witnesses who have been subpoenaed are supposed to have been in the crowd that clamored for Prager at the City Hall or who were acquainted with the extent of the disloyalty with which the dead man was charged.

U.S. DEPT. OF AGRICULTURE HOW TO GROW TURNIPS

The turnip requires a rich soil and may be grown either as an early or late crop. For an early crop, sow the seeds in drills 12 to 18 inches apart in the early in the spring as the condition of the soil will permit. A half ounce of seed is sufficient for a 100-foot row. After the plants appear thin to about 3 inches apart. The roots will be ready for use before hot weather.

For late turnips, the seeds are usually sown broadcast on land from which some early crops have been removed, and for this reason the turnip is a good crop for storage for winter. They are quite hard, and the roots need not be gathered until after the first frosts. They may be stored in banks or pits or in the outdoor cave or cellar, and keep best when kept rather cool.

The turnip is a good crop for interplanting between rows of late corn or late beans.—U. S. Department of Agriculture.

Liberty Inaugurates Drive for Liberty With Mammoth Meeting

LIBERTY, Ind., April 9.—The commemoration of the first anniversary of the entrance of the United States into the war, and the opening of the third Liberty loan drive took place here Saturday afternoon. The work started with a street parade by the school children, who represented in costumes the people of the nations fighting Germany. A number of the older citizens joined the parade over the principal streets headed by the Liberty band. This was followed by a meeting at the Coliseum, which was crowded to capacity. The principal addresses were given by Mrs. Grace Julian and Ralph Moss of Indianapolis.

The patriotic enthusiasm shown by the people during the meeting said emphatically that this little county of Union was determined to stand by the government in this war until the German autocracy was whipped. It was one of the most patriotic meetings yet held in the county. The addresses of Mrs. Julian and Mr. Moss were full of fire. Barnard's orchestra furnished the music.

The allotment of bonds for Union county to take is \$315,000. The county chairman, C. D. Johnson, said there need not be any doubt but what this amount would be subscribed and more too, as in the other two drives the county subscribed a large amount above the quota.

William Gavin, aged about 23, single, died Saturday at the home of his father, Thomas Gavin, east of this place, after a long illness. Burial was held Sunday.

Kaiser Inspects His Latest Baby Killer

AMSTERDAM, April 9.—Emperor William, on March 25, inspected the gun with which the Germans are bombarding Paris. Karl Rosner, war correspondent of the Lokal Anzeiger of Berlin, says. It looks more like an enormous gray crane than a real gun, according to the correspondent, and can throw a shell for a distance of 130 kilometers (80.6 miles). Firing a shorter distance than that on March 25, he adds, it required exactly 183 seconds for a shell to reach Paris.

PARISIANS, SHELTERED FROM FOE'S BIG GUN DON'T LET IT WORRY THEM A PARTICLE

Showing that our French allies take their troubles lightly.

Though a dark cellar isn't such a very cheery place and enemy bombardments are not pleasant experiences these Paris folks seem able to enjoy the excitement. Cellars are a favorite refuge in time of air raids or bombardments from the enemy's new monster gun though subways or anything else underground are used if handy.

Typewriters Almost as Expensive as Autos

LONDON, April 9.—Typewriters are almost as expensive in London as small automobiles. Owing to the restrictions on importation and the enormous demand due to increased clerical work in government departments, the prices of all available machines have more than doubled.

War Will Give America Broader View of All Things, He Says

The war has taught America breadth of vision, Dr. E. M. Linton of Indiana university, said in an address on "America's Aims and Hopes in the War," at the meeting of the Commercial club Monday evening.

"It will tear down our isolation, and is already giving us a broader attitude sectionally, politically and religiously," he said.

The war is primarily for the vindication and defense of national rights, Dr. Linton said.

"We did not declare war on Germany until she had already declared war on us," he pointed out. "We witnessed the desolation of Belgium, Poland, Serbia and Armenia without protest. We had maintained our policy of isolation, the feeling that Europe and America had nothing in common. It would have been psychologically impossible for us to have entered the war in 1914."

Dr. Linton characterized the Kaiser as a fouler murderer than Herod the Great, since no childhood, not even that of his own country, was sacred to him; as a greater incendiary than Nero, with thousands of ruined villages in the train of the German army; as a greater blasphemer than Judas Iscariot, for he has claimed God as his partner in all his lawlessness and murders. He is more dangerous than Napoleon, for he is aided by modern science, and a trained military clique.

"More of good than evil will come out of the war," he said, "when peace has been concluded, we will see the establishment of international relations on a new basis."

Frank Albus, secretary of the Commercial club, who is leaving to accept a position as secretary of the Evansville Chamber of Commerce, made a short talk expressing appreciation of the manner in which the business men of Richmond have co-operated with him, and predicted a great industrial future for the city.

Howard Dill, president of the club, praised the work which Mr. Albus had accomplished for the organization.

INDIANAPOLIS, April 9.—Young women between the ages of 25 and 35 are needed immediately for Red Cross canten work overseas, Mrs. L. Dean Holden, director of the personnel department of the Lake Division, American Red Cross, has notified local workers. If applicants have their expenses paid by the Red Cross they must sign for a year's service.

"Each applicant must give three references from American citizens who are not relatives. One of the references should come from a woman.

"Applicants should be capable of hard and continuous physical labor under uncomfortable conditions. No woman not ready to give full time and conscientious service should apply. GIRLS! MAKE A BEAUTY LOTION WITH LEMONS

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as sallowness, freckles and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smoothen rough, red hands.—Adv.

Jap Admiral Did Not Have Orders to Land

(By Associated Press)
MOSCOW, Sunday, April 7.—The Japanese representative at Vologda, where allied and neutral diplomatic missions are stationed, has sent a communication to the Russian foreign minister, minimizing the significance of the landing in Vladivostok, according to the Izvestia.

The communication said that the incident was local and that Admiral Kato acted on his own initiative and without specific orders from his government. M. Tchitcherin, however, is reported to be skeptical.

Reports received here from Vladivostok indicate that the Japanese have not interfered with the life of the city and that they only patrol the streets. Admiral Kato visited the mayor and the president of the zemstvo, who protested against the landing. The municipal council also passed a resolution of protest.
