

1,000 INTERNED GERMANS REBEL IN DUTCH CAMP

Overpower Guards and Flee
in All Directions—Some
Rounded Up.

AMSTERDAM, April 29.—The report current last week that Germany had sent an ultimatum to Holland led to a revolt among Germans interned at the Vapenveld camp, according to a dispatch from Hattum, Holland, to the Het Volk. The guards are said to have been overpowered by 1,000 Germans, who fled in all directions.

Frontier points were notified immediately and mounted police searched the countryside. Many Germans succeeded in passing through Almelo or Hengelo on the way back to Germany, but the police rounded up the majority of them in groups of twenty-five or fifty.

WATCH FOREIGNERS CLOSELY
LONDON, April 29.—A bill introduced in parliament contains provisions for stricter supervision of foreigners resident in Holland during the present extraordinary war situation, according to a Reuter dispatch from The Hague.

As it is considered that there were various objections to the expulsion of foreigners, and as there may be undesirable elements among them, special regulations relative to them are believed to be necessary.

Cambridge City, Ind.

Mr. and Mrs. Will Guyton were in Richmond Tuesday evening to see the former's nephew, Cecil Bender, son of Mr. and Mrs. Joe Bender, who has been seriously ill. Miss Alma Garvin of Purdue university gave a lecture Monday afternoon in the Christian church on the subject, "The Conservation of Food." Miss Garvin came under the auspices of the Helen Hunt club. She stated that the diet must be well balanced, calling attention to the requisites, or that which constitutes a proper meal, and that starch, fats and greens should all enter in. She did not advise the baking of yeast breads, stating that the bakers had to conform to certain requirements. She advised the use of muffins, and other quick breads, with the use of buckwheat and rice flour, potato flour. Raisins and dried fruit may be used in steaming of bread, which may afterward be baked if one cares to do so. Miss Alice Bradbury has returned after a visit with relatives in Richmond.

Harry Allen of Indianapolis, spent Tuesday in this place. A concert for the benefit of the Red Cross will be given May 2 in the Christian church. The program will be presented in two parts: the first miscellaneous, including violin solos by Mrs. Walter Wadell, and Mrs. Ada Dennis, patriotic songs, while the second, "Lady of Shalott," a musical setting to Tennyson's poem in substance the same story as "Elaine." The music is by Bendel, and will be given under the direction of Miss Harriet Overbeck, with Mrs. Charles Kiese, accompanist. Strive To Have Healthy Skin

Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, some dry and rough, some smooth and glossy, some smeared with rouge, some streaked with heavy metallic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin. Every woman can have a good complexion if she will only use a little discretion. If you would acquire real beauty, the beauty of perfect health, you must replenish your worn-out nerves with lecithin, Nature's own nerve restorer, and put into your blood the invigorating iron which Nature intended it to have for health. In most of the modern foods these and other vitalizing elements have been largely eliminated. Yet to be healthy and beautiful the system must have them. They are found in Bio-ferrin, not only in proper proportions to restore weakened vitality but in such form as the system can best assimilate them. A treatment of lecithin and iron peptonate as combined in Bio-ferrin increases the appetite, aids nutrition and invigorates the patient. And Bio-ferrin in its tablet form is easy and palatable to take—no liquid

from discoloration of the teeth, no unpleasant taste.
There is no secret or mystery about Bio-ferrin. Doctors prescribe it regularly because they know exactly what it contains as well as what it will do and they know they could not formulate a better-upbuilding tonic. The action of Bio-ferrin on the system is so beneficial, we are so sure of its giving you positive health and vigor, providing, of course, there is no serious, chronic ailment such as cancer, tuberculosis, etc., that we only sell it on the condition that you agree to return the empty package and accept a refund of your money unless you are entirely satisfied. There is no use waiting for health and beauty. It is better to do things today than tomorrow. Go to your physician today—right now—be advised Bio-ferrin. Then start taking it at once as he advises or as directions on the package call for. The guarantee protects your money. Interesting booklet may be had for the asking. Large package \$1.00 at all leading druggists or direct if your druggist can not supply you. The Santal Remedies Co., Inc., Cincinnati, Ohio.

Entire Output of "Bull" Durham Called to the Colors!

THE Government has requested the entire output of the "makings"—"BULL" DURHAM tobacco. Our fighting men need it and we give it gladly.

Only absolute necessities—men, money, munitions, wheat, ships, and now the "makings," have been called.

One million six hundred thousand men are ready, and millions more to come. Unlimited billions in coin, and billions waiting. The entire output of all our munition factories, all our wheat; every ship we can justly lay our hands on—and, now, tobacco—the "makings"—36,000,000 sacks, 2,000,000 pounds, one hundred carloads every month—the utmost night and day production of all the "BULL" DURHAM factories.

Every "BULL" DURHAM smoker in the land must appreciate this call. It will come especially hard to the millions of men who have "rolled their own" with "Bull" for years, who have, indeed, known no other tobacco, and who look upon the little muslin sack as a close and very personal possession. But even these men, every one of them, I know, will be glad to give fully and wholly his share of a product, those who know say is needed by our boys over there—is necessary to their morale, their comfort, their will to win.

In turning over to the Government our entire output of "BULL" DURHAM, the American Tobacco Company has but one regret:—That, large as they are, its factories cannot satisfy both the demand at home and the call from the front.

Of course, there can be no choice with us or with you. The war-needs of our Government are our war needs—our commands.

Men and money, powder and bullets, wheat and ships, and now tobacco—the "makings," to carry to our fighters ammunition for courage, determination and hope—ammunition tied up in a little muslin sack and marked with a round paper tag.

Is there a man in all this united land who will not say: "Here's to you, good old 'Bull.' Take to the boys over there all you have been to me and more."

I am sure there is not—certainly not among the thousands who help to make "Bull," nor the millions who must, for the present, give it up.
