BROKE LAW BUT HE AIDED DRAFT

Brig. Gen. Johnson.

Despite the fact that he broke the law and had 30,000,000 draft cards printed before congress had passed the law declaring conscription the method to be used in raising the new army, Brig. Gen. Hugh S. Johnson won promotion. The thousands he spent were worth hundreds of lives in that they expedited in countless ways the sending of an adequate force overseas. General Johnson since has been placed at the head of a bureau to co-ordinate the purchases of the war department.

Lemon Juice is Skin Beautifier, Also a Whitener

Many women use just the juice of lemons to bleach or whiten the skin, but pure lemon juice is acid, therefore irritating, and should be mixed with orchard white.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to bring back to any skin the whiteness, the sweet freshness and flexibility of which it has been robbed by carelessness or trying atmospheric conditions. —Adv.

16,407 Pennsylvania R. R. Employees in Service

There are now 16,407 employees of the Pennsylvania Railroad System, including the lines both east and west of Pittsburgh, who are engaged in the military or naval service of the United States. This is shown by reports just received from all portions of the system for the purpose of revising the figures on the system's service flag in Broad Street Station, Philadelphia.

The figures on the flag were recently changed to correspond with the new number.

When the flag was first hung on March 20, 1918, the single blue star in the center contained the number 11,769. The increase of 4,638 since that date indicates the number of additional employees of the Pennsylvania Railroad system who have, in the meantime, been called into the nation's service.

HERE'S NEW PHOTO OF RICKENBACHER WITH A PRESENT FOR KAISER'S GANG

Eddie Rickenbacher.

It is reported now that Lieut. Eddie Rickenbacher of the American aviation force has downed his fifth German airplane, thereby qualifying him for the title of "Ace." Rickenbacher finds more fun in downing a Hun fier or dropping a bomb on a nest of Germans than he did in flashing under the wire in the lead in auto races. The above picture, just arrived from the front, shows him with an airplane.

PESKY BED BUGS

A MILLION BEDBUGS. Just think, a two ounce package of the new golden chemical P. D. Q. (Pesky Devils' Quietness), is enough to make a quart and enough to kill a million bedbugs, no matter how large they may be, where they came from, their age, color or sex, and at the same time leaves a coating on their eggs and prevents hatching.

CUT THIS OUT. This new chemical can be had at any first-class drug store. A two ounce package makes a quart of P. D. Q. and will go farther than a barrel of old-fashioned bug killer. Don't let anybody impose upon your intelligence by offering you something else. Insist on what you ask for, then you'll have what doctors prescribe.

KILLS FLEAS ON DOGS. It's fun to see the fleas drop off your pet dogs.

KILLS CHICKEN LICE. No use for your chickens to have lice. A 25c package mixed makes a gallon of chicken lice killer. Your druggist has it, or can get it for you. Owl Chemical Co., Terre Haute, Ind.

New Ideas Needed in War-Time Advertising

AT Federal there was a quick recognition of a war-time needs in advertising. To analyze nation-wide conditions at first hand a Federal director recently made a fact-gathering trip to the Pacific Coast, the results of which are most enlightening.

There is, unquestionably, an open door for new products conducive to comfort and cheer, as well as for products that will conserve work, wheat, meat, fuel, wool and other essentials.

It is also evident that the advertising of older products must, of necessity, be more forceful, more original and less wasteful than ever before.

At Federal we believe in making sensible originality increase the value of the advertising dollar.

If you feel that a new angle on your advertising problem might be advantageous in these critical times, may we suggest that you
