

## U. S. SOLDIERS ARE FIGHTING IN SIX COUNTRIES

Units at Work in France, Germany, Russia, Austria, Italy and Belgium.

(By Associated Press)

WASHINGTON, July 25.—The War may with its trench lines straggling athwart international boundaries, shows American fighting men holding their footing on strangely alien soils. As it now stands army units of the United States are at their grim work in six countries, France, Germany, Russia, Austria, Italy and Belgium.

The swelling volume of their movement overseas has been so necessary a response to the emergency of the nation's responsibility, so thoroughly implied by the original war declaration, and so entirely natural a picture to a people prepared by three years' observation of world war, that it may take a historian's perspective to visualize completely the departure from traditions and the smashing of precedents that the movement involved.

Checking the six, American artillery has been reported on the French line opposite Mulhausen, several miles inside the border of the German empire. In Austria, the olive-drab uniform supports Italian sectors which swing round the toe of Lake Garda, and American fliers have maneuvered over the Venetian lowlands where the Austrian drive was forced back this spring. In Belgium, they have gone over the top with Australians and in France their forces in action now can be counted by army corps. In Russia, at Vladivostok and now on the frozen reaches of the Murman coast, they are putting disciplined force behind the manifold manifestations of national purpose. Likewise, in England, Scotland and Ireland, they fill up the school camps and prepare themselves for action.

Nearly All Drafted. These men, drafted nearly all, are the agents in the far-flung journeyings of a nation whose military history has shown more than one instance in which volunteers, ordered to cross a boundary, have sat down, private and officer alike, to debate the constitutionality of a warlike expedition to foreign soil, and still more instances where militia organizations have successfully opposed national attempts to send them beyond their own state lines.

Yet today, under the urge of the war resolution which directed the administration "to exert all of its power and employ all of its resources to carry on war against the Imperial German government and to bring the conflict to a successful conclusion," drafted men and volunteers have not raised a single protest of serious import.

It was not until January of the present year that the supreme court formally construed the constitution to allow any sort of war operation the nation desired to carry on. The court said of contentions opposing that view that they "were too frivolous for notice."

Yet long before the decision the first drafted American had fallen in battle overseas and legions more had streamed after him to every quarter, almost of the European continent.

Thus the historian has been given a large and interesting mile-post to build in the future, but for the average American, the news of the day shows that this interest is purely abstract. It having been definitely decided, upon due and formal consideration, that a complete defeat of Germany was necessary to democracy in the world, the nation has not even remembered precedents of history or traditions of the past.

Apparently, the men least inclined

to consider that have been the soldiers who have gone gravely but with good cheer into the valley of the shadow overseas, and there are making good the purpose.

### Brother of New Paris Woman Killed in Air Plane Flight

NEW PARIS, O., July 25.—Mrs. E. E. Bevington received news Tuesday morning of the death of her brother, Donald Charlton, which occurred at a Texas aviation field on Monday. Charlton and a lieutenant were making a flight when they struck a pocket in the air. The machine fell and both men were killed instantly. Mr. Charlton is well known here, and it was with sincere regret that his many friends learned of the accident. The body was taken to his home in Bucyrus, Ohio.

### U. S. DEPT. OF AGRICULTURE HOW TO CAN PEACHES.

Before preparing fruit make sirup (3 pounds 9 ounces sugar to 1 gallon of water or 5 pounds 3 ounces of sugar to 1 gallon of water), allowing about 1 cup of water for each quart jar. Put in one cracked peach pit for every quart of sirup. Boil sirup for 5 minutes. Strained honey or other sirups can be used in place of a part of the sirup usually required.

Sort the fruit, using firm, sound uniform peaches for canning and putting aside the broken or soft ones for jam. Peeling may be done by immersing in boiling water about 1 minute or until skins slip easily. Remove, plunge for a minute in cold water, and slip off the skins. Cut into halves and pack at once in previously boiled jars, placing the halves in overlapping layers, the concave section of each half being downward and the blossom end facing the glass. Fill each jar with hot sirup and paddle carefully to remove air bubbles. Partially seal jars. Boil (process) quart jars in a water bath for 20 minutes and half gallon jars 35 minutes. When thoroughly cold test jars for leaks. Store in a cool, dark dry place.

Firm, perfect peaches may be floated in boiling water for about 20 seconds after being peeled. They are then cut in halves, seeds removed, and packed as indicated above. Peaches floated in this manner are made more flexible and pack to better advantage. They also become mellow, absorb more sirup and are finer in flavor.—U. S. Department of Agriculture.

### WOMAN'S DANGER PERIOD

The period between forty-five and fifty-five years of age is said to be a crisis or danger period in a woman's life which tests her for her fitness to continue in the race. It is then that she suffers from such annoying symptoms as heat-flashes, nervousness, head aches, "the blues," or dread of impending evil, or some dormant disease in the system becomes active. When a woman is passing through this crisis there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, which after forty years of success is now considered the standard remedy for woman's ailments.—Adv.

### Her Family Loans Millions to Enemy

Mrs. Adolph Busch.

Mrs. Adolph Busch, widow of the millionaire brewer, and other members of the family purchased \$1,000,000 worth of German bonds. Part of the money derived from the sale of these bonds was used to corrupt the minds of Americans and win sympathy for Germany. It was used to purchase and control newspapers.

EATON, O., July 25.—These reunion dates have been announced: Black family, August 18, at Eaton water works park; Geeting family, August 14, at the county fair grounds.

### Heavy Storm Causes Damage to Growing Corn

EATON, O., July 25.—Service of the Eaton Lighting company and the Eaton Telephone company was crippled by the electrical storm Tuesday night, but by Wednesday night all the damage had been repaired.

The storm was accompanied by hail in the northern and northwestern part of the county, resulting in damage to growing corn, and tobacco. Reports from many sections of the county stated that wind blew down growing corn. So far as could be ascertained, no serious damage resulted from lightning.

### Hair Often Ruined By Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary multifid coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multifid coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Adv.

## PESKY BED BUGS

A MILLION BEDBUGS. Just think, a 35c package of the new golden chemical P. D. Q. (Pesky Devil Quicker), is enough to make a matter how large they may be, where they came from, their age, color or sex, and at the same time leaves a coating on their eggs and prevents hatching.  
CUT THIS OUT. This new chemical can be had at any first-class drug store. A 35-cent package makes a quart of P.D.Q. and will go farther than a barrel of old-fashioned bug killer. Don't let anybody impose upon your intelligence by offering you something else. Insist on what you ask for, then you'll have what doctors prescribe.  
KILLS FLEAS ON DOGS. It's fun to see the fleas drop off your pet dog.  
KILLS CHICKEN LICE. No use for your chickens to have lice. A 35c package mixed makes a gallon of chicken lice killer. Your druggist has it, or can get it for you.

## Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food.

Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man.

So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any druggist.

This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life.

People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their

old-time confidence and energy in less than two weeks.

No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lactidum; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Oleoresin Capsicum; Kola.
