Mr. Earley has gained a prominent place in the manufacturing life of Pittsburg.

ITCHING, SCRATCHING, SKIN DISEASES THAT BURN LIKE FLAMES OF FIRE

Here is a Sensible Treatment That Gets Prompt Results.

For real, downright, harassing, discomfort, very few disorders can approach so-called skin diseases, such as Eczema, Tetter, Bolls, eruptions, scaly irritations and similar skin troubles, notwithstanding the lavish use of salves, lotions, washes, and other treatment applied externally to the irritated parts.

No one ever heard of a person being afflicted with any form of skin diseases whose blood was in good condition. Therefore, it is but logical to conclude that the proper method of treatment for pimples, blotches, sores, bolls, rough, red and scaly skin, is to

Oxford Passes Law Against Sunday Movies

OXFORD, O., Aug. 16.—Oxford had its first Sunday picture show about a month ago, and a protest went up from the ministers and church people. Another is advertised for next Sunday, but this will be the last. The village council last evening passed an ordinance prohibiting Sunday shows of any description. The penalty is a fine of not less than \$5 nor more than \$50 for the first offense, and a fine of not less than \$50 nor more than \$100 for each subsequent offense. The first Sunday picture shown was "My Four Years in Germany"; next Sunday's attraction will be "Forsyth's Crusade." A number of prominent citizens were in favor of permitting the showing of patriotic pictures during the war, but they were in the minority.

Miracles of Surgery Are Performed on Wounded Soldiers

AN ATLANTIC PORT, Aug. 16.—Bishop Joseph M. Francis of the Protestant Episcopal diocese of Indiana, who has been a Red Cross worker at the American front, on his arrival here today on a French steamship, described "miracles of surgery," which he had seen at Red Cross hospital No. 2, in the Toul sector, where he was stationed.

"Men with great holes in their abdomens," Bishop Francis said, "are soon made fit again, while bullets through the neck, which formerly would have been considered more than grave, are treated lightly by the wonderful surgeons who are making over the mangled in the great war for democracy."

"The wounded men in the hospitals are the bravest of the brave. You never hear a whimper, and it makes an American proud to be of the same blood and faith as these heroes. When I saw what the marines did at Chateau Thierry it made me thrill with pride and there have been many occasions since when an equal pride possessed me because of the wonderful work of the boys of the new army."

SUPPORT SCHOOLS, PRESIDENT URGES

(By Associated Press)
WASHINGTON, Aug. 16.—Generous support for schools of all grades during war time is urged by President Wilson in a letter to Secretary Lane today, approving the bureau of education's plan for an educational campaign this summer and fall.

"I am pleased to know," says the President's letter, "that despite the usual burdens imposed upon our people by the war they have maintained their schools and other agencies of education so nearly at their normal efficiency. That this should be continued throughout the war and that, insofar as the draft law will permit, there should be no falling off in attendance in elementary schools, high schools or colleges is a matter of the very greatest importance, affecting both our strength in war and our national welfare and efficiency when the war is over."

"So long as the war continues there will be constant need of very large numbers of men and women of the highest and most thorough training for war service in many lines. After the war there will be urgent need not only for trained leadership in all lines of industrial, commercial, social and civic life but for a very high average of intelligence and preparation on the part of all the people."

NOTED SCULPTOR WILL SPEAK HERE

Lorado Taft is distinguished as America's foremost Sculptor and Art Critic. To him has been entrusted the designing of plans for beautifying Chicago's lake front at an expense of many million dollars, which when completed, will make that spot one of the most attractive in the world.

While Mr. Taft is a dignified, polished and highly educated gentleman, he is full of spontaneity and alive with humor. His plan is to first model his subjects in clay before chiseling them from marble, and it is the clay-modeling process that he presents from the platform. He is an easy, fluent speaker, and as he works in clay, talks all the time, giving what he calls a little lesson on anatomy, a sermon, and some fun.

He has two assistants, carries a ton or two of paraphernalia and sets up on the platform a sculptor's studio. His rare ability to present a discourse on classic art in such a way as to make it interesting to everybody, places his lecture in the front rank among the educational features of the program, and at the same time it will be one of the most entertaining. He will be at the chautauqua Tuesday evening, August 20.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

APELLA

At the Country Club

Apella is as delightful and pure as the country air. It is as healthful as the sound Autumn apples from which it is made. The flavor is distinctively new—just sweet enough and tart and snappy enough to be wonderfully fascinating. A drink for red-blooded men and women.
