

GIANTS WIN ONE GAME ON SUNDAY; SECOND IS TIE

The second game at Exhibition Park yesterday showed the strength of the Muncie Valentines and ended in a 4-4 tie. The first game Richmond won to the tune of 6-1.

Richmond started out in her usual way in the first game making two runs in the first inning. Richmond scored one run in the third, one in the fourth and two in the fifth. In the seventh Muncie scored her only run of the first game.

Holland, a youngster, did the hurling for the Giants in the first game. His pitching was the best seen on the local diamonds this year in Sunday games. He struck out eleven men in nine innings and allowed but one hit in that time. That hit was a Texas leaguer and helped to score Muncie's only run.

The second game was the "thriller" of the afternoon for the fans as the Muncie boys used Richmond tactics and scored three runs in the first inning. At this point in the game Holland was removed. They made one run off McKunne's in the second inning but after that run they were held scoreless.

In the second inning Richmond also scored one run but instead of being their last run it just started making more. In the fourth Richmond scored two more runs. With one run to tie in the eighth inning and Lynch at bat things began to take a more hopeful aspect. Lynch did it. He knocked the ball to the left field fence and made a home run on the spot and scoring the tying run.

This ended the scoring of both sides as in the ninth inning the score was still tied and at six o'clock the game was stopped.

Scores (First game)—R. H. E. Muncie..... 000 000 100—1 2 2 Richmond..... 201 120 000—6 8 1

Batteries—Longfellow and Lewis; Holland and Webster. Second Game—R. H. E. Muncie..... 310 000 000—4 5 1 Richmond..... 010 200 010—4 5 2

WORLD'S SERIES HOLDS INTEREST

NEW YORK, Sept. 2.—While neither gate receipts nor attendance figures are expected to be broken at the coming World Series, baseball fans throughout the country are certain to watch the daily returns with more than the usual interest owing to the changed conditions under which the series will be played. Two outstanding features are apparent which have not heretofore been faced by either the players or the managers at any time in the history of the baseball classic.

No such national or international crisis has even prevailed during the playing of a World Series as exists at this time. Under normal conditions the annual clash of the pennant winning clubs of the rival major leagues has each season been one of the events of the year. The play was followed each day by hundreds of thousands of baseball enthusiasts in all parts of the country. Great cities and little hamlets in isolated sections of the continent have witnessed the daily gathering of throngs before the bulletin and player boards to follow the fortunes of the competing teams. Today the mind of the public is burdened with great responsibilities and cares and the World Series at best can be but a momentary diversion.

Under the circumstances it appears certain that, while the games may be well attended, there will be nothing like the great outpouring of fans which have each year filled the parks to capacity and swelled the coffers of the clubs and players. Strange to say this will make little difference to the men who will participate in the diamond battles for under the new system of apportioning the winner's and loser's individual share of the receipts they can secure but a fixed sum, regardless of the total of the gate receipts.

As adopted last winter by the two leagues and the National Commission the amended regulations provide that each member of the winning club shall receive \$2,000, as his share of the World Series proceeds while the loser's individual end will amount to \$1,400. The total of these sums will come from the usual sixty percent of the receipts for the first four games of the series. The new arrangement, however, calls for a further distribution of the balance of this sixty percent fund among the players of the three clubs which finish the pennant race of both leagues respectively; second, third and fourth.

After the money apportioned to the players of the two competing teams has been deducted from the original sixty percent the residue will be divided upon the following basis: To the players of the National and American league clubs finishing second in their respective pennant race, fifty percent; to the third place clubs, thirty percent and to fourth place clubs, twenty percent.

This new arrangement does not effect the club owners of the National Commission, however, for the rule of distribution still prevails. Of the percent of the gate receipts of the first four games, the National Commission will receive ten percent and the club owners thirty percent. After four games have been staged the players cease to participate in the distribution and the National Commission will receive ten percent and the club owners ninety percent. The winning and losing clubs are called upon, however, to divide twenty-five percent of their World Series share with the other seven clubs in their respective leagues.

The largest and fastest battle cruiser in the world is being built by the United States. It will have 180,000 horse-power and a speed of thirty-five knots.

On The Screen

WASHINGTON. The first German prisoners taken by American troops in France will be on exhibition at the Washington today and tomorrow. At best they are not a handsome group, these Huns who fell into the hands of Pershing's men after a brief call by the Sammies on a Boche trench.

There are a score or more of them, including two officers, who reluctantly gave the camera man a glimpse of their Prussian profiles after a polite request that the American people would like to see something besides their highly indignant backs. One of them is trying to look as much like the Crown Prince as possible.

This scene is only one of many in "Pershing's Crusaders," the big government feature film that have come straight from the American trenches. For the first time in this country the public will have a chance to see what our boys have done to get ready and what they are doing "over there."

MURRAY.

Miss Theda Bara will be seen today at the Murray theater in William Fox's 1918 version of D'Ennery's famous story, "The Two Orphans." The scenes in this play show that expense was not spared in the making of the picture. The street scenes in Paris have never been equalled, except possibly in "Les Misérables." The Salpêtrière prison is another stunning set.

The snow storm scene was not particularly expensive because they were taken during a real storm, but in these instances the real is better than the manufactured kind.

MURRETTE.

After playing the part of a Canadian girl in the far Northern woods, where in she used furs and dog sleds and lived the haxardous life of a dance-hall denizen, pretty Dorothy Dalton, the famous Thomas H. Ince-Paramount Star, will appear in a strong domestic drama entitled, "The Matings of Marcella," written by Joseph Franklin Poland, and directed by R. William Neill under the supervision of Mr. Ince.

As is the case in all of her photoplays, Miss Dalton is finely supported in "The Matings of Marcella," which will be displayed at the Murrette theater today. The players in this picture are the most important that have been chosen for her support in a long

time. These include Thurston Hall, Juanita Hansen, William Conklin, Milton Ross, Spottiswoode Aitken, Donald MacDonald, Buster Irving and others.

Peter Chase, of Newbury, Vt., in driving his new automobile the other day, drove the car through the side of his barn and emerged unscathed.

HERE IS ONE THING THAT IS ABSOLUTELY IMPOSSIBLE

Rheumatism Has Never Been Cured By Liniments or Lotions, and Never Will Be.

You never knew of Rheumatism—that most painful source of suffering—being cured by liniments, lotions or other external applications. And you will never see anything but temporary relief afforded by such makeshifts.

But why be satisfied with temporary relief from the pangs of pain which are sure to return with increased severity, when there is permanent relief within your reach? Science has proven that Rheumatism is a disordered condition of the blood. How then, can satisfactory results be expected from any treatment that

does not reach the blood, the seat of the trouble, and rid the system of the cause of the disease? S. S. S. is one blood remedy that has for more than fifty years been giving relief to even the most aggravated and stubborn cases of Rheumatism. It cleanses and purifies the blood by routing out all traces of disease. The experience of others who have taken S. S. S. will convince you that it will promptly reach your case. You can obtain this valuable remedy at any drug store.

A valuable book on Rheumatism and its treatment, together with expert medical advice about your own individual case, will be sent absolutely free. Write today to Medical Department, Swift Specific Co., 431 Swift Laboratory, Atlanta, Ga.—Adv.

Emphatically Asserts worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food.

Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man.

So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any drugist.

This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life.

People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their

old-time confidence and energy in less than two weeks.

No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Leothin; Calcium Glycero-phosphate; Iron Peptonate; Manganese; Potassium; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Oleoresin Capsicum; Kola.
