

# BANKERS PLEDGE SUPPORT OF U. S. TO LAST DOLLAR

Nation of Spenders Converted Into Nation of Savers, U. S. Bankers Told.

(By Associated Press)  
CHICAGO, Sept. 26.—Charles A. Hirsch, president of the American Bankers' association, in his address before the annual convention of that organization today, pledged the fortunes and lives of its 19,043 members to continue the war until the last armed German is beaten to earth and a victorious peace assured.

Reaffirming the loyalty of the nation's bankers to President Wilson in his prosecution of the war, he declared that they will keep on fighting, "not to the last dollar, but to their last unit of credit."

The mission of America, he said, is to carry the gospel of freedom to the ends of the earth, and added that "no peace that German will approve will satisfy America. We must not conclude a negotiated peace. Nothing should be considered but an unconditional surrender."

In its prosecution of the war, Mr. Hirsch said, the government, instead of restraining business, is encouraging it, and he expressed a hope for a continuation of this policy after peace.

"Out of the chaos into which the nation was plunged, is coming the semblance of order," he added.

"Americans are following their natural creative bent. They are working for new ends—to produce what is needed for the joy of it as well as the necessity."

Pointing to the 10,000 banks as selling agents for the sale of war savings and thrift stamps and their part in marketing ten billion dollars worth of Liberty bonds, he predicted that the habit of thrift developed by the war would "convert a nation of spenders into a nation of savers."

After discussing social conditions, he advocated universal military training as essential to commercial expansion and industrial growth, and predicted that this would give the young men of the nation a new sense of the meaning and obligation of citizenship.

"The new era for business is not going to begin when the war ends, it has already begun," he said in conclusion. "This country stands firmly committed to a great policy of commercial and industrial expansion. If this is not our policy, we must admit we are willing to surrender our position in the world and lapse into a state of a second rate and decadent nation."

"The maintenance of this position demands of us an assembling of our forces and a co-ordination of our efforts, not only as great, but even greater than has been made necessary by the war. In this scheme the government looms large as the influence which alone can give us the compact organization necessary to meet the competition of other nations organized to the last refinement of efficiency."

## O'BRIEN'S MINSTRELS AT MURRAY OCT. 2

The Neil O'Brien Minstrels, new in every respect, will be the attraction at the Murray theater October 2. This attraction has rapidly grown to be the leading organization of its kind in America, and that the reputation of the company may be still further enhanced, Manager Oscar F. Hodge promises a number of new novelties for the present season, among these is a new sketch by Neil O'Brien, called "Meatless Day," which is said to be the best act the famous minstrel star has had in recent years. As the name implies it deals with the present day conditions in a humorous fashion. Among the comedians who will assist Mr. O'Brien in the merry making are John King, Billy Van Allen, "Sugarfoot" Gaffney, Wm. Cawley, A. B. Rains, Dixon and Miller, Chas. Strong, Louis Tracy, William Doran and Major Nowak.

Attention is called to the following list of vocalists: Vaughn Comfort, Chas. Larivree, James G. Brown, Lea Laird, Walter Lynch, Grover Schepps, Barton Isbell, Charles R. Wright, Ted Farnum, George Miller, F. W. Brannen, Jenkin Jones and Nile Verne.

## 500,000 Tons of Fruit Pits and Shells Collected

CHICAGO, Sept. 26.—The prune pit and peach stone drive for greater supplies of gas masks as requested by General Pershing is making splendid headway in the Central West, according to officials of the Red Cross here. It is declared that 500,000 tons of fruit stones, nut shells and seeds are needed each month to make charcoal for soldiers' gas masks. Only about 50,000 tons were obtained before the drive opened.

Along State street here are red, white and blue barrels into which are being placed large quantities of pits and shells daily.

## BACK TO SOIL PLAN FOR SOLDIERS MAY NOT BE POPULAR

(By Associated Press)  
ATLANTIC CITY, N. J., Sept. 26.—Speakers before the convention of the American Hospital association in session here, declared that soldiers returning from the battle fronts with the conclusion of the war, would not be so favorable to "back to the soil" movements as is generally believed, despite their months in the open. The mind training, along with vigorous bodies, they said, would create a desire to enter the commercial world and technical work.

It is a widely prevalent misconception that these men who have roughed it in the open will never go back to "inside work," declared T. B. Kidner, vocational secretary of the Invalid Soldier's commission of Canada, who is in this country assisting the United States vocational board prepare for the permanently injured soldiers.

"Most of them have had enough of the soil to last them the rest of their lives," Mr. Kidner said.

Mr. Kidner said crippled soldiers should be made to feel themselves capable of earning their own way. "The problem is not that of limbless and blinded men," he said. Of the 28,000 soldiers sent back to Canada, he added, but 1,400 had undergone major amputations and only sixty were blind. Canada is offering training in 200 occupations for such veterans, and America will give more than that, the speaker said.

Success of Loan Drive Is Supreme Motif of G. O. P., Hays Tells Party

NEW YORK, Sept. 26.—Chairman Will H. Hays of the Republican National Committee, has issued a statement to all Republican workers saying that "the success of the fourth Liberty Loan shall be the Republican party's supreme motif of thought and action until that objective is attained," and declared that everything else than making certain the oversubscription of the loan "is chaff."

## A CLEAN COOL SCALP

Parisian Sage Stops Itching, Keeps the Scalp Cool—Prevents Dandruff. Almost everybody nowadays knows that Parisian Sage, the invigorating hair restorer, is guaranteed to remove every trace of dandruff, stop falling hair and itching scalp, or the cost, small as it is, will be refunded.

But you should know more about this marvelous hair grower. You ought to know that it immediately destroys all odors that are bound to come from the excretions of the scalp, and in five minutes after an application, no matter how hot the weather, your head will feel cool and comfortable.

Everyone should have a bottle of Parisian sage handy because it is such a pleasant and exhilarating hair treatment. Ladies use it because they know it is delicately perfumed, not sticky or greasy, and surely does make the hair beautiful, silky and abundant.

Here's what a New York woman writes: "I have used Parisian sage two weeks only, yet in that time find my hair has wonderfully increased in beauty, thickness and luxuriance, but what surprised me most was the disappearance of all dandruff."

A large bottle of Parisian sage can be obtained from Quigley's drug stores or at any good drug or toilet counter—it's not expensive.—Adv.

## School Children of County Aid in Seed Corn Campaign

Much interest is being taken in the seed corn campaign which is now on. James Kline and C. O. Williams were in Webster, Economy, Dalton, and Hagerstown on Tuesday and Wednesday. The first outdoor demonstration was held at Hagerstown. The school children were taken to the field of Bert Souders just outside of town. Souders has been raising corn for many years and three-fourths of it will make good seed corn. It is interesting that the corn in this field is that which was chosen by the children last year.

In the two days that Mr. Williams and Mr. Kline were out, 607 persons attended the meetings. The meeting at Hagerstown was the best held. Boys and girls are both interested. In other townships the meetings

## BANISH NERVOUSNESS

Put Vigor and Ambition Into Run-Down, Tired Out People.

of the boy or girl who gathers the most seed corn taken with the seed corn gathered and published. A girl gathered the most last year.

Mr. Williams stated this morning that the girls have been doing splendid work. They have been permitted to stay out of school in order to turn the corn, and sow wheat. It is not an uncommon sight Williams said, to see three or four girls working in a field. The boys and girls, although they have been doing this sort of thing for some time seem to realize the seriousness and importance of it this year. The tone of the whole thing is changed, said Mr. Williams.

There is a very interesting orchid in Java, the grammatophyllum, all the flowers of which open at once, and they also all wither together.

TRIED MANY, FOUND THE BEST. Good digestion is the foundation of good health. Foley Cathartic Tablets keep the bowels regular, sweeten the stomach and tone up the liver. There is nothing better if one desires an old-fashioned, harmless physic—gentle in action, yet thoroughly cleansing in effect. J. P. Gaston, Newark, Ind., says he used a great many kinds of cathartics, but Foley Cathartic Tablets gave him more satisfaction than any other. He says they are the best cathartic tablets made. ## REED'S MUSIC

To keep the Home Fires Burning no better or more pleasant means can be found than with a good talking machine. The SONORA machine is constructed on the most beautiful lines and is worthy of a place in any home.

The Sonora has a richness of expression, a magnificence of tone that merits its consideration on the same plane upon which the musical instruments, the violin, the cello, the piano and the organ have won the crown of the world's approval for many years.

Playing all makes of disc records as it does those with Diamond, Sapphire or Steel Needles, the Sonora is all instruments in one; a universal instrument.

Today it is hardly necessary to mention the important place which the phonograph is taking in the life of America and elsewhere. Music and entertainment formerly limited to the few within audible range of the artist, are now carried faultlessly to the ends of the earth, ready at any time and any place to be of service to mankind.

Universality: The SONORA plays all makes of disc records perfectly without the use of additional devices of any kind.

Tone Quality: At the Panama-Pacific Exposition, in competition with the world's foremost phonographs, the SONORA won the highest score for tone quality.

its flowing lines (the bulge effect being a patented process.)

Sound Box: This assists in reproducing the golden tone, and sends forth notes clear, distinct, accurate and beautiful.

Tone Control: The tone is controlled at its source, the only proper place. This is one of the patented features that helps to make the SONORA the best that human ingenuity has been able to devise.

Automatic Stop: This attachment is thoroughly reliable, is very simple in its construction, and just as simple in its operation.

Motor: It is the supreme motor of the phonograph world, and plays nearly twice as long as others in machines sold at the same price.

Sound Amplifier or Horn: This helps to produce the wonderful SONORA tone. It is composed of wood throughout, and is made on scientific principles.

Envelope Filing System: This patented feature is a model of simplicity and convenience. The records can always be quickly located when wanted.

PRICED \$50, \$65, \$90, \$115 up to \$300

Cabinet Work and Designs: The beauty of the SONORA is due both to its finish and
