

# WHEAT GROWERS TO ASK WILSON FOR \$2.50 PRICE

Claim Present Price Not Sufficient to Insure Profit—Dispute Flour Advance.

WASHINGTON, Oct. 2—Senators and representatives from wheat-growing states and officials of the National Wheat Growers' Association, in conference here Tuesday decided to appoint a special committee to urge upon President Wilson immediate action fixing the price of wheat for 1919 at \$2.50 a bushel.

The president will be told that this price is necessary for the protection of most wheat growers over the country, who under the present price of \$2.20 a bushel, plus the freight differential, will not be able to raise wheat at a profit.

Appointment of a special committee to investigate the cost of wheat production also will be requested, it was announced, but in the meantime an increased price will be sought.

Dr. William J. Spillman, chief of the office of farm management of the Department of Agriculture, presented to the conference tonight figures compiled by his office designed to show that a price of \$2.50 a bushel is essential if the maximum production is to be attained next year.

Speakers insisted that the president had been misinformed as to the increase in the cost of flour that would result from \$2.50 wheat. They said the added cost on a barrel of flour would be 90 cents, instead of the \$2 estimated.

Senator Gore, of Oklahoma, author of the \$2.50 amendment to the annual agricultural appropriation bill, told the conference that the estimated \$50,000,000 increase in the cost of wheat to the allies at the \$2.50 price could be, and should be, absorbed by the American government.

In voting the agricultural appropriation bill recently because of the Gore amendment, the president said the proposed increase would cause disruption of economic condition, not alone in the United States, but in the allied countries. Congress last week passed the bill again with the wheat price amendment eliminated.

## WHITEWATER

Mr. and Mrs. L. E. Little and family spent Sunday with Mr. and Mrs. Coal Eastman. Mr. and Mrs. Charles Blose and family and Leonard Knoll were guests of Mr. and Mrs. Manford White. Miss Florence Boren, Mrs. Emma Anderson and Miss Nina Love were callers in the afternoon. Miss Madonna Newton spent from Friday until Monday with Miss Marjorie Robertson.

## RESIGNATION DECLINED

EATON, Oct. 2—Following tender of his resignation as secretary of the county election board, Secretary H. R. Gilmore has been advised by Governor Cox that the department declines to accept the resignation. Secretary Gilmore registered in the last registration and announced that he would tender his resignation, as in his opinion a member of the board should not pass upon his own case. He has served as secretary of the board ever since it was created.

## Resinol surely did relieve that eczema!

Pack up some Resinol Ointment in his "old kit bag." Nothing is too good for him, and he will need it "over there," where exposure, vermin, contagions, and the exigencies of a soldier's life cause all sorts of skin irritation, itching, sore feet and suffering.

Resinol Ointment stops itching almost instantly. It heals little sores before they can become big ones. It assures skin comfort.

For sale by all dealers.

## Seed Corn Proclamation

INDIANAPOLIS, Ind., Oct. 2—Gov. Goodrich issued a proclamation today urging every farmer in Indiana, who has not already done so, to gather enough seed corn by October 15 "to plant the crop, not only next spring, but the following year as well, and thus meet any emergency which may arise." The proclamation reads:

"There is no work of more importance now than the selection of seed corn, despite the fact that we are in the midst of wheat sowing.

"Selection from the standing stalk before heavy frosts is the surest way to get good seed. Every farmer knows that good seed is the first essential for a large crop, and a large crop in 1919 is necessary if we are to do our part in feeding the world.

"The Indiana Committee on Food Production and Conservation is wagging a campaign to have enough seed selected this fall to plant the entire crop next spring. I urge every farmer in Indiana, who has not already done so, to heed the requests of this committee and of the county agricultural agents and gather enough seed corn by October 15 to plant the crop, not only next spring, but the following year as well, and thus meet any emergency which may arise."

## MISSION SOCIETIES HOLD SESSION HERE

Symbolic missionary pageants presented by sixty young women and children were features of the evening session of the Women's Presbyteral Missionary Society of the First Ohio Presbytery, which held an all day meeting at the Red Memorial church Tuesday.

The meeting was one of the largest ever held by the society; more than 1,000 people from all over the world were present, among whom were Mrs. Frank Boyd of Cincinnati, Mrs. Myrtle Gaston, Rev. and Mrs. W. P. Cooley of Seaman, Mr. N. B. Caldwell of Hamilton; Mrs. A. C. Bailey of Fairhaven; Miss Johnson of College Corner; Miss Ellen Scouller of Fairhaven; Mrs. W. T. Mabon of Dayton and Mrs. W. A. Brown of Morning Sun, who took prominent part in the meeting.

The election of officers resulted as follows: Mrs. J. S. Hill of Richmond, president; Miss Johnson, of College Corner, first vice president; Mrs. W. H. Hawley, of College Corner, recording secretary; Miss Ellen Scouller, of Fairhaven, corresponding secretary; Mrs. W. T. Mabon of Dayton, thank offering secretary; Mrs. W. P. Cooley of Seaman, temperance secretary; and Mrs. W. A. Brown of Morning Sun, treasurer.

## Death at Miami U. from Spanish "Flu"

OXFORD, O., Oct. 1—One death has occurred at Miami University, the result of pneumonia, following an attack of Spanish influenza. The victim was Miss Frances Judy, 19, of Germantown, who was ill only a few days. Scores of Miami students are victims of the epidemic. The university hospital is crowded and extra nurses have been secured from Hamilton. In many private houses, where students are being cared for in the military barracks are ready for occupancy, young men are reported bedfast, and in all of the girls' cottages there are cases. There are also many cases in the village. Western College for Women students are under quarantine.

## TRAP, GUN AND ROD

BY TOM MARSHALL.

The land of mystery and adventure. Tucson, Arizona, the present home of San Xavier Mission, dating back to the early days of the Jesuit Fathers. Fort Lowell was built at Tucson by the U. S. government in 1873 as a protection against the Apache Indians, under the command of Chief Geronimo, who was finally defeated and captured by Major General Nelson A. Miles in 1886. The Indian atrocities were almost equal to the tactics of the Germans of the present day.

At the conclusion of a tournament held in Tucson a number of years since, Fred Gilbert, Chris Gottlieb and the writer, were invited to the Tucson contingent of trapshooters to participate in a hunt after the "Sonora White Wings," a pigeon resembling in their habits the passenger pigeon of yesterdays. They appear in much smaller flocks, have black patches on the tail, moderately long and broadly rounded, white ends to the outer feathers. The cooing call of the mourning dove is theirs, accompanied by a peculiar chirping song that has the sound of a young rooster. They are very chummy with each other, usually mated in pairs, when separated from the main flock. Most numerous in Sonora, Old Mexico. They are called "White Wings," having that appearance when in flight. About the size of the passenger pigeon, with the same velocity in flight. Especially partial to the mesque brush as a resting place, reveling in the shade during the heat of the day, to rush forth to the fields and water holes in the early morning or evening.

The very best place for enjoyable shooting is near the prairie water holes, which they visit immediately after their afternoon siesta, having acquired a real thirst. When "coming in" they certainly give an exhibition of artistic and fancy flying, introducing the spiral dip, zig-zag glide, coasting and looping the loop. Speed limit is disregarded; they split the atmosphere as they approach. When by accident you cut out a double, you are inflated with pride and you marvel at the amount of "daylight" it was necessary to drop in ahead of those cork-screwing scoundrels in their mad flight.

## Jack Harper Candidate for County Treasurer

Jack W. Harper of Cambridge City, Democratic county chairman in the 1916 campaign, will seek election as county treasurer on the Democratic ticket. James Aiken has withdrawn from the ticket.

Harper is sales manager for the Lipincott Glass Co., at Alexandria, Ind. He is widely known over the county.

## "Flu" Keeps Selects from Filing Questionnaires

EATON, Oct. 2—Hundreds of persons in Eaton and the surrounding communities are ill of Spanish influenza, some of them seriously, so state local doctors. Two deaths in the northwestern part of the county have been traced to the disease. No deaths directly due to the malady have taken place here.

Many military registrants are afflicted with the disease and are unable to file their questionnaires, of which the local selection board was advised by a number Monday and Tuesday. The board states it will be reasonably lenient in all cases.

Sydney (New South Wales) retail butchers protest that the frozen meat with which the government has supplied them is unsuitable for trade.

## COUGHED THREE MONTHS

Relief in 24 Hours Simple Home Medicine Did It.

Mr. H. C. Hoot, chief operator, F. C. R. R., Birmingham, Ala., writes: "I tried your Menthox Laxene for a cough and I find it the premier medicine for that ailment. I had a cough for three months and made me a syrup of your Menthox Laxene and I got permanent relief in twenty-four hours, etc."

Menthox Laxene is a richly concentrated mixture of wild cherry, Tolu, Grindelia, Menthox Ammonium chloride, Cascara, etc., sold by good druggists in 2½-ounce bottles. Mixed at home with simple syrup, it makes a full pint. A wonderful medicine, wonderfully cheap, and guaranteed most effective for colds, coughs, catarrh, hoarseness, difficult breathing, etc.

The one having the

best patriotic costume will receive first prize.

**BELL-ANS**  
FOR INDIGESTION

## Every Other Person Has Seborrhea

The prevalence of dandruff and falling hair is appalling. Everyone knows that the men and women of America are losing their hair.

The tens of thousands of hair shops testify to the extent of the scourge.

For it is a scourge—the scourge of seborrhea.

But there is no need for people to longer suffer the ravages of this disease of the scalp.

The appalling sacrifice can be stopped tomorrow.

**Famo Destroys the Bacilli**

Famo is the remedy.

Famo destroys the dandruff bacilli.

It penetrates the scalp and cures seborrhea.

Three years were spent in perfecting Famo.

Famo was produced in one of the great laboratories of Detroit.

It is to these laboratories

that the medical profession looks for its medicines, serums, etc.

The ingredients of Famo had never before been used in the treatment of the scalp. But they were well known to medical science.

**Nourishes the Hair**

They stop disease and nourish the hair in a wonderful way.

When Famo is used the seborrhea germ dies.

The dandruff disappears.

The hair and scalp are healthy and clean.

The hair flourishes as it never did before and new hair is encouraged and stimulated.

There is a new lustre and sheen to the hair—the natural color is intensified.

**Grayness is Retarded**

Famo retards grayness. This is because it makes your scalp healthy.

The persistent use of alcohol on the hair dries the scalp and hastens grayness.

Famo stops falling hair and where there has been a tendency to waviness Famo helps to make the hair more wavy.

Every member of the family should use Famo regularly. Even where seborrhea has not made its appearance, Famo should be used to make sure that it is kept permanently away.

Famo is sold at all toilet goods counters—applications may be had at the better barber shops.

It comes in two sizes—a small size at 35 cents and an extra large bottle at \$1.00.

*Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the skin. The seborrhea secretion found in scales or flakes*
