## GERMANS SET

[Continued From Page One.]

when Lens and Armentieres were abandoned last week, is continuing with what appears to be precipitation. There is every reason to believe that the City of Lille will be evacuated by the enemy within five days and that his retirement will extend far into the front to the St. Quentin sector, where both the French and British are reported to be clear through the Hindenburg line.

So far the German line from St. Quentin south to the Ailette and thence eastward to Bery-au-Bac is standing quite firmly and evidently this part of the enemy's position is being used as a pivot as his armies, to the north and east, swing back to new positions. Italian forces, however, have struck at the German lines in front of Laon and early reports of progress made there would appear to justify the belief that the hinge of the foe's lines may be broken.

German detachments which have been fighting beside the Bulgarian army in Macedonia are being withdrawn, according to an announcement made at Berlin. Serbian and French forces are reported to have inflicted a defeat on German and Austrian units near the city of Vranje.

**Discourage Peace Move.**  
"Unconditional surrender" is the answer of the American press to the appeal for peace made by Austria and Germany. Official copies of the peace proposals of the central powers have not as yet been acted upon by President Wilson, but it is reported that the attitude of official Washington does not encourage the hope entertained by the enemy, that the allies can be induced to enter into negotiations at a time when Germany's armies are in retreat and when Marshal Foch's masterly strategy is beginning to bear fruit.

So far as press comments reflect the situation in France and England, there is no disposition in these countries to consider the effort of the enemy other than a new maneuver which promises but little more than might have been expected from the former peace proffers made by the central powers.

## BULGARIA NOTIFIES FORMER ALLIES TO VACATE COUNTRY

AMSTERDAM, Oct. 7.—Bulgaria on Saturday notified the powers with which she had been allied that they must quit Bulgarian territory within a month, says a Sofia dispatch to the Berlin Tageblatt.

## NOT PEACE

[Continued From Page One.]

is that it can only be a measure of the military necessity," says the Times. After reviewing the chancellor's speech, the Times declares it to be "ambiguous and disingenuous stuff," and asks: "Will Germany ever realize there is only one way for her, namely, by deeds and not words? It is far too late to talk of a basis for peace negotiations. The determination of the allied peoples is that the defeat of those who made war shall be complete and absolute. That task they have undertaken and it shall be performed to the very end, and there will be no peace until Germany has surrendered with unconditional terms, which will leave her not only without a will, but without power to break it."

**Trying to Save Skin.**  
"Germany in her latest peace offer, seems anxious to save her own skin, even at the expense of her allies," said George Nicoll Barnes, member of the war cabinet, in a speech at last night. "The latest offer showed no change of heart and no change in the German system. The peace proposal indicated that the Germans realized the change in the military situation and the shifting of the balance of power, he declared.

"If anything could come of the overtures," he said, "we should be foolish to deny ourselves the chance. But it would be smooth and facilitate the path to peace if the Germans showed some evidence of work following their proposition of faith. By clearing out of France and Belgium they could save their own souls."

## AUSTRIA IS HOPEFUL

AMSTERDAM, Sunday, Oct. 6.—Dispatches from Vienna show Austrian newspapers to be deeply impressed with the importance of the peace move made by the central powers and filled with hope for its success.

The Fremdenblatt has some doubts, saying: "We must reckon with everything and must be armed for all events."

"Never before was it necessary to look forward to coming events with such determination," says the Neue Freie Presse. "It is not military necessity which forces the monarchy to make such concessions."

The Abendblatt hopes "President Wilson, whose declaration certainly were seriously meant, will not hesitate to seize the hand that is stretched forth and show the world he intends to realize the ideas he has laid before it in his speeches."

## VATICAN REJECTED PLEA

PARIS, Oct. 7.—Austria-Hungary recently insisted that the Vatican undertake steps toward peace, it is reported in Rome, according to a Havas dispatch from that city. The Vatican, it is added, rejected the demand.

## STATE TAKES

[Continued From Page One.]

sulted with both the county and state boards of health respecting the application to Earlham College of the order closing the schools of the state, and have received authority of the Wayne county board of health, to continue the regular work of the college under the following conditions:

"1. All students not residing in the dormitories are to be excluded from the campus until further orders are issued.

"2. All students residing in the dormitories are to remain on the campus until further orders are issued.

"In view of the fact that a closing of the college entirely and sending of all students to their homes is practically impossible, the college authorities have accepted the above conditions and feel sure that all students will co-operate fully in carrying them out.

"It should be said in addition that members of the faculty will do everything in their power to assist the students living outside the dormitories to continue their work in absentia, and to assist them also in making up work missed when normal conditions are again established.

"It is the understanding that the State Board of Health will meet next Wednesday to make final rulings in regard to exceptions to the general order already issued, or to make such modifications as may be found to be necessary."

## TEN DIE AT INDIANAPOLIS.

INDIANAPOLIS, Oct. 7.—With ten deaths among the soldiers in the hospital at Fort Benjamin Harrison during last night caused by pneumonia following attacks of influenza, the number from that cause during the past week was increased to twenty-four, reports from the fort said today.

Deaths among soldiers attending the vocational schools here from the same cause were also reported. Major Hunt, in charge of the hospital at Fort Harrison, said today that there was no noticeable change in the situation. Major J. D. Crawford, in charge of the vocational student soldiers said fewer cases had been reported among the men during the last few hours, than during previous hours, and the situation in the training detachment hospitals could be regarded as improved.

Citizens of Indianapolis rode in the street cars today with the windows closed, and large public meetings forbidden, on orders from Washington, which were transmitted to all county health officers in the state.

## MEETING POSTPONED.

The meeting of the Catholic War Mothers, which was to have been held Tuesday in the K. of C. hall, has been postponed until a week from Tuesday.

The "little Belgian army" is driving through the German crack regiments in Flanders.

## U. S. MUST GIVE \$416,000,000 A DAY FOR LOAN

Campaign Managers Face Big Task With Second Week of Drive.

(By Associated Press)

WASHINGTON, Oct. 7.—With the opening of the second week of the Fourth Liberty Loan campaign the managers face a most tremendous task. From now until the close of the campaign October 31, daily subscriptions must average \$416,000,000, if the entire \$6,000,000,000 is to be disposed of during this period. This statement is based on sales reported by banks and trust companies.

The apparent lagging of the loan is explained by the failure of purchasers to heed the slogan of the drive, "Buy more bonds," buyers of the third loan, while liberal participants in the fourth issue, some of them apparently are forgetting that they not only must buy again, but buy more liberally than during the previous campaign.

Only scattered reports reached the treasury department today. Both Cleveland and San Francisco districts announced that they had passed the \$100,000,000 mark. Where the Spanish influenza epidemic is interfering with the campaign a house to house canvass is being made and telephones used to arouse interest.

## WAYNE SEVENTEENTH OVER

Wayne county was the seventeenth Indiana county in the Seventh Federal district to "go over the top" in the Liberty Loan campaign, its quota of \$2,400,000 having been reached on Saturday afternoon when the remaining part of the county's quota were pledged by the Richmond banks. The State Director, W. H. Wade, who was notified, quickly rep. by wire congratulating Wayne county on repeating past performances in Liberty Loan campaigns.

Sales Saturday, which included the report of the Pennsylvania railroad company, amounted to approximately \$80,000, which reduces the amounts sold to banks to \$114,000, and it is expected that practically all of this week's quota will be met before the present week ends. The rush for bonds will probably take on new life now that the time is limited for their purchase, October 19 being the end of the campaign.

The Liberty Loan committee is desirous of compiling a list of all "one hundred percent" factories and stores in Richmond and Wayne county, which is to be published and turned over to the state committee for future reference. Any factory or any store, all of whose employees are bond purchasers, are entitled to special mention in this roll of honor. The list must be made on or before October 19, at which date the selling campaign ends. Where stores or factories are almost in the 100 per cent class and additional purchases are made by the 19th, the name will be added to the list. At the present time there have been but few such cases reported, but it is probable that there are many others that have not notified the committee. Owners of stores or heads of factories should notify the Wayne county Liberty Loan committee in writing, stating the number of employees on the date of the opening of the loan, September 28, and also certifying that all of such employees have purchased bonds.

## GERMAN ARMY IN FAVOR OF MOVE

BERNE, Switzerland, Oct. 7.—The German government took its latest peace step upon the advice and with the approval of the high command of the army, says the Stuttgart Neuss Tageblatt. Germany, the newspaper adds, has decided to consent to very heavy sacrifices.

## RHEIMS FREE OF GERMAN MENACE

(By Associated Press)

PARIS, Oct. 7.—Rheims has been finally and definitely cleared from the menace of German cannon. The Germans are in retreat on the whole front from the Sappe to the Arnes, as well as in the region south of Cambrai.

In the first named sector the allies have reached the Arnes river on which the enemy hoped to make a stand. In the second region the British fourth army has crushed counter attacks which the enemy delivered in an effort to prevent its progress toward Bohain and cover their retreat to the south.

These two movements of retreat from a part of a plan which was to have brought the German armies to new lines of resistance much nearer the frontier, it appears, but the constant pressure of the allied troops is making the execution of the plan most difficult and hazardous.

The peace proposals of the central powers are in no way interfering with the policy of destruction the German staff seems to have decided upon. Salamburne, near Lens, is burning and fires have been seen west and south-west of Lille and between Douai and Souain.

## BRIEFS

### Christmas Cards for Soldiers.

Keep up the Christmas spirit with a message of cheerfulness. Cards on display at Nicholson's Book Shop.

## WINCHESTER MAYOR KILLED IN ACCIDENT

WINCHESTER, Ind., Oct. 7.—Mayor George E. Leggett, 60 years old, was instantly killed and his wife was seriously injured when the enclosed car in which they were riding was struck by an interurban car at Scottsburg, Ind., this morning.

Mr. and Mrs. Leggett had gone to Jeffersonville to visit their son, Lieut. John Leggett who is in the quartermasters department there.

Mr. Leggett was for many years the president of the Woodbury Brass company. He was elected mayor of Winchester last fall.

The message was received in Winchester this morning at 10:30 o'clock by A. G. McGee.

Mrs. Leggett is in Scottsburg. Mr. Leggett is survived by his wife, his son, Lieutenant Leggett, and a daughter, Mrs. George H. Clark of Winchester.

## RED CROSS WORK TO BE CONTINUED

The Red Cross work-room is not included in the general closing order but owing to the necessity of using every possible means to prevent the spread of the influenza epidemic the following instructions are to be rigidly followed, L. F. Ross, chairman, said Monday.

1. The supervisor in charge for each day, will observe all workers and ask any who may have colds or a cough to discontinue work until they have fully recovered.

2. Red Cross work in churches and all places other than the main work shop will be discontinued for the present.

3. The township workshops will also be closed until further notice.

## \$1,530 RAISED FOR HOSPITAL

Funds obtained from the hospital tag day Saturday, were the highest amounts ever donated in the city, the amount cleared being \$1,530.23, while the most ever obtained before was \$700, state Mrs. Eugene Price, who was in charge of the funds.

"The war seems to be making people realize what a great place the hospital holds in the city," she said. "Every one gave so willingly, so cheerfully, we did not have to urge the matter at all."

Between 125 and 150 women and girls helped with the sale, and 56 stations were kept. Everywhere there was the greatest co-operation, the leaders report.

Seven thousand tags were donated by the Nicholson Printing company, and the officers wish to thank them and all who helped make the whole a success.

Since practically all the graduate nurses are in service, the thirty-two who are now in training at the Reid hospital would be the only ones to care for the local victims of an epidemic, should one occur in this city, and in view of this fact, the support which the citizens have given to this institution has not been misplaced, stated Mrs. Price, Monday morning.

Wooden soles for shoes are being made in Wisconsin from material that was formerly sold as waste and fuel by sawmills.

Out of 8,900 marines that went into the Chateau Thierry battle, 6,000 were killed or injured, Secretary Daniels said.
