

PEACE MAY NOT BE NEAR AS YET WARNS PREMIER

"Fate of Peoples is Decided"
Clemenceau Tells Chamber
of Deputies.

(By Associated Press)

PARIS, Nov. 6.—Premier Clemenceau declared in the chamber of deputies today that peace might not be so near as some might think. The premier said, however, that he could assure the house that "the fate of the peoples was henceforth fixed."

Premier Clemenceau also announced that the conditions of the armistice, for Germany had been transmitted to President Wilson. They were inspired by the added, as were those for Austria, to prevent a resumption of hostilities. "The terms," he said, "are what President Wilson himself recommended to us for the security of our troops, the maintenance of our military superiority, and the disarmament of the enemy in so far as that is necessary to prevent a resumption of hostilities."

Given Vote of Confidence.
Pierre Renaudel, leader of the majority Socialists interpellated the government in the chamber of deputies this evening, stating that a declaration should be made on all negotiations, thus ending secret diplomacy.

Foreign Minister Pichon made the matter a question of confidence and the chamber supported him by a vote of 410 against 62.

The interallied conference has completed its labors at Versailles. The conference reached a complete agreement on the question of the terms of an armistice for Germany.

LIFT BAN AT OXFORD.

OXFORD, O., Nov. 6.—Dr. H. H. Moore, village health officer, today lifted the ban on the moving picture shows and poolrooms. They will be permitted to resume business Friday evening. Church services will also be permitted next Sunday.

Another Declaration of Independence is Signed

Mid-European union representatives grouped around Liberty Bell in Philadelphia

The second great declaration of independence was signed in Independence Hall, Philadelphia, recently. Members of the Mid-European nations who have asserted their independence and want to conduct their affairs free from oppression by Austrian or German rule, signed the declaration during a conference. Plans for working in harmony in obtaining their independence were outlined. Seated directly in front of the crack in the Liberty Bell in the photo above is Dr. Thomas G. Masaryk, president of the Czechoslovak national council. Others in the photo are Captain Stofca of the Roumanian league, the man in uniform; Messrs. Hinkovitch and Vosjnsk, Jugo-Slavs; Dr. Szlupas, Lithuanian; Amagila and Tomoralli, Italian; Messrs. Zeatkovitch, Russian; Miliuka, Lithuanian; Dako, Albanian; Smetanka, Czechoslovak; Lupu, Roumanian, and Volkapac, Finn.

War Souvenirs Made from Steel of Belgian Cannon

HAVRE, Nov. 6.—Souvenirs in the shape of watches made from the steel of Belgian cannon which were in active service on the Belgian front since the beginning of the war in 1914 till October 29, 1917, are being manufactured in Switzerland by order of the King and Queen of the Belgians. The watches, which bear inset in gold on the cases the monogram "A. E." of the Belgian sovereigns, are to be presented by King Albert and Queen Elizabeth to soldiers who have specially distinguished themselves and also to prize-winners of military competitions.

MIAMI S. A. T. C. VACINATED.

OXFORD, O., Nov. 6.—There will be a lot of sore arms among the boys of Miami university's S. A. T. C. in a few days. Yesterday the work of vaccinating and administering anti-typhoid treatment began. About one hundred of the boys got the former dose in the left arm, and the latter in the right arm. The members of the football team will not be treated until after the Thanksgiving game at Cincinnati.

AIR POSTMAN HITS SNOWSTORM

WASHINGTON, Nov. 6.—The first touch of winter flying conditions in the Air Mail Service between New York and Washington was encountered yesterday by Ed Gardiner, who left New York in a cold rain and later flew 40 miles through a snowstorm at 7,000 feet.

SENSIBLE SHOPPING IS RESULT OF WAR

Richmond people are not buying a great deal of expensive clothing this year. They seem to be investing their money in Liberty bonds instead. Greater care in selecting clothing, and a better sense of values have developed in the woman shopper since the war started, according to the merchants. Women are learning to spend their money more carefully because there are so many things to spend it for. The "good" things that are worth their money value are most in demand, the shops report.

Dressmakers are making over more clothing than they have ever done before, they say. A frock is not thrown away when it is good for another season. A little new material, cleverly utilized, makes the old costume do as well as new.

Shoes are required to give more service now, too. The pair of shoes that might have been thrown away before the war is taken to the cobblers now and made almost as good as new. When a new pair is selected it is with the view of how long it will last, rather than how fancy and novel it is.

"Sensible shopping," said one merchant today, "is among the several good things that is going to come out of the war."

General Pershing has made known to Washington his belief that a clean shave helps to maintain the morale of the soldier.

OUR TROOPS WANT VICTORY BY ARMS

Congressman William B. McKinley.

"Victory by arms is the only kind that will satisfy the American boys at the front." This is the word from our boys in the trenches brought by Congressman William B. McKinley, who recently returned home after spending two weeks at the front. "Our boys all declare they are well cared for and happy," he says.

High School Team Getting in Shape for First Game

The High school basketball team will practice three times a week until the first game with Connersville on Nov. 22, according to Coach Eckel of the high school.

The coach will pick out ten men for the first team Friday and ten men for the second. Probable men for the first squad are Stegman, Price, Van Allen, Latta, Eversman and Piercy. Eckel is planning to start basketball and indoor baseball in the gymnasium classes for the boys who are not on any of the regular teams.

PREVENT LA GRIPPE OR INFLUENZA

DR. HEBRAS SANI-SEPTOL is a most effective and far-reaching prescription recommended by physicians, surgeons and hospitals as a preventive against the influenza bacteria.

Directions—Use undiluted as a gargle. For spraying the nose and throat in catarrhal affections, croup, sore throat, etc., add a pinch of salt to two ounces of solution.

Good News from Washington

Part of "BULL" DURHAM Tobacco Released to Civilians at Home to "Roll Their Own"

—With the little muslin sack of "BULL" DURHAM in the pockets of every one of our fighting men on land and sea—

—With good old "Bull" in the regular Army rations—

—And with the future demands of the War Department abundantly cared for, part of "BULL" DURHAM Tobacco is offered again to the men at home who "roll their own".

And to these men I want to say, that in giving up so freely all your "Bull", when your Country asked for it for its fighting men, you did a *human* "bit". However small that little muslin sack may seem, you may have the satisfaction of knowing that *your* sack of "Bull" was *meat and drink* to some boy waiting or fighting at the front, and that *your* supply of "Bull" helped to make the distribution to our forces full and complete, and *make it quickly*. Now that Washington assures us that such distribution is a fact, you will, I know, welcome the "Makings" home again.

And with greater satisfaction and more pleasure than ever, you will, I know, with your own hands, roll a cigarette again for yourself—a cigarette machines can't imitate—the *mildest*, the *most fragrant*, the *most economical* cigarette in the world.

Am I wrong in thinking that you will be as proud as I am of your little muslin sack of "Bull"?

James H. Hill President

How About Your Danger Zone?

YOU'VE got it—every human being is born with it—your large intestine, or colon. It is a large tube—a reservoir or sewer—intended to collect waste matter and remove it from the body.

Plug it up with waste, neglect it, and you're sick on your feet. The waste matter stagnates, undergoes decay, fermentation and germ action. Dangerous poisons are produced, that can easily be absorbed and carried all over the body.

Allow constipation to become established, and you are liable to become definitely and miserably sick—and not on your feet either. You have broken Nature's laws.

Better be kind to her. Keep the danger zone clean, with a regular bowel movement, and Nature will thank you, and pay you back in gold coin—health, good nature, and a feeling of eagerness for your daily task.

A large proportion of almost every form of sickness is caused or made worse by the poisons produced as a result of constipation.

Nujol has the approval of established medical practice, because it does not upset the system as do pills, castor oil and purgative mineral waters, salts, etc. It softens the contents of the colon, making them easy for the intestinal muscles to move at regular hours. Don't fight Nature. Help her. Nujol is health insurance for tens of thousands of American families today. Sold at drug stores everywhere.

Warning:

NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
